POET'S CORNER

To a Teacher

Perchance a thought of yours,
Planted in some child's heart,
Will root and grow,
And after length of years
Bear precious fruit—
It has been so.

Perhaps some hidden skill you have
Passed into youth's unhesitating hands,
Will find itself,
Quickened and formed,
Ready for any use
That life demands.

Maybe a word
You've spoken unawares,
Will steel some hopeless soul
To try anew,
Youth is a testing time
And real friends few.

You have unconscious power
In your hands,
Yours to use for good,
Or endless ill.
You can reclaim a world
If you but will!

Peas to be Raised by Local Farmers

Approximately 120 acres of peas will be planted by 20 farmers in northeastern Lancaster county this summer. The crop will be purchased by the Phillips Packing Company, Cambridge, Md.

Plans for the project were outlined at a meeting held last Friday on the farm of Miles W. Frey, Ephrata R. D. 3. Maurice Michener, field representative of the packing company, spoke.

The company plans to install equipment to hull the peas for shipment to the canning factory at Newark, Del. Peas will be provided and the cost deducted from the money paid for the crop. The contract price calls for \$50 per ton of shelled, clean peas. Efforts are being made to obtain 25 additional acres. Michener said peas should yield a ton and a half to the acre.

Each Cop Must Stop

5 Autoists Daily

Advancing Pennsylvania's highway safety campaign another notch, Governor Earle on Saturday ordered the Motor Police to make a daily random check of drivers' licenses.

He directed that each of the 400 policemen patrolling the highways to stop five motorists daily to determine if they carry driver's licenses.

Earle explained that with 400 policemen on highway duty the order will result in 2,000 motorists, selected at random, being stopped daily in a state wide check on drivers' licenses. He said the campaign would be further broadened by the addition of 500 new policemen on July 1.

The Governor said that the order will provide a check on motorists who may try to evade the new speed law mandate by driving cars while their licenses are suspended or revoked. The Governor recently ordered suspension for 90 days of the drivers' licenses of motorists violating the 50-mile-an-hour speed limit and more drastic action in other cases.

2 Buildings Razed in \$1,200 Blaze at Bareville Farm

Fire believed to have been started by an overheated stove destroyed the summer kitchen and butcher shop in the farm of John N. Martin, Bareville R. D. 1, on the road from Farmersville to Brownstown shortly after 1 o'clock last Thursday morning. Damage is estimated at \$1,200.

Martin and his wife were both awakened by the crackling of the flames and aroused other members of the family. Members of the Bareville and Akron Fire companies responded and saved the dwelling which was separated from the two buildings destroyed.

Firemen said Martin had been butchering for the past several days. They expressed the opinion that the stove in the summer kitchen had become overheated from prolonged use. A large quantity of meat stored in the butcher shop was destroyed.

CHALLENGING THE SOCIAL ORDER

LESSON TEXT—Mark 2:13-22.
GOLDEN TEXT—I came not to call the
righteous, but sinners—Mark 2:17.
PRIMARY TOPIC—When Jesus Had Din-
ner With Matthew.
JUNIOR TOPIC—When Jesus Passed By.
INTERMEDIATE AND SENIOR TOPIC
—Helping by Being Friendly.
YOUNG PEOPLE AND ADULT TOPIC—
Crusading for a Christian Society.

"Crusading for a Christian Society," is one of the topics assigned for consideration today. Everyone who is right thinking would be glad if the social order of which we are all a part might be made Christian, for it is far from it now. But foredoomed to failure are the attempts to Christianize society by some great program of "social regeneration." God's way is to save the individual who makes up the social order. When a man is right with God he will be right with his fellow man.

The Scripture lesson for today is full of outstanding spiritual principles of the greatest practical import to both Christians and the unconverted. It should be studied by the guidance of the Holy Spirit and taught in his power.

I. One Sinner Becomes a Servant (vv. 13, 14).

Capernaum was so situated that it provided an excellent location for the collection of the Roman taxes which the Jews so hated. There at the "receipt of custom" sat a Jew named Levi, who was no doubt despised by his neighbors because he had joined in this distasteful business. To him came the gracious Lord with the invitation, "Follow me." How different would be the history of the cause of Christ on earth if every other man who thus was called had done likewise. To follow the Master means sacrifice and breaking with the old life, but it also means peace and glory.

II. Many Sinners Meet the Lord (v. 15).

Levi, who now becomes Matthew, showed his love for the Lord by desiring that his friends might also meet him. So he prepared a dinner for them in his own house, to which he also invited Jesus.

It is always dangerous for a Christian to maintain social contact with his former companions in sin, if he does so for his own enjoyment or advantage. But to be their friends that one may win them to Christ, that is most desirable.

III. Some Righteous Folk Miss the Lord (vv. 18, 17).

Sin is an unspeakably horrible thing that separates men from God, but it is not an insuperable barrier, for the moment a man confesses his sin and calls on the Saviour he is saved. But self-righteousness—that is the impassable barrier. God can do nothing for the man who rests his hope of salvation on his own good character, high morality, and respectable position in society.

IV. Fasting and Feasting—When and Why (vv. 18-20).

God established one fast day for Israel. They established many, especially the Pharisees. Religion that loses its spiritual life and power clings with tenacity to outward observances and symbols.

Should one never fast? Yes, to the

true follower of Jesus there come times when the urgency of soul concerning the problems of one's own life, the lives of others, the needs of the world, shuts the door of interest to anything as ordinary as food for the body.

Feasting and rejoicing—are these spiritual and uplifting? Christianity is a joyful faith. It is not to be hidden in damp, dark cloisters; it thrives in the sunshine, in the happy laughter of a child, in the cheerful shout of the saint. The Church is the Bride of Christ. If the friends of the bridegroom were to rejoice (v. 19), should not the Bride shout for joy?

V. New Things versus Old Things (vv. 21, 22).

The Pharisees wanted the gospel of grace to conform to the narrow channels of their interpretation of the law. Was not the law good? Yes. Jesus said he came not to destroy it, but to fulfill it (Matt. 5:17). He bore the curse of the law that we might be free (Gal. 3:13, 14). But he also brought in the new covenant of assurance and grace.

The mixing of grace and law, or the effort to do so, has continued even to our day. Let us be clear on that point—we are saved by grace, not by the works of the law (Eph. 2:8, 9). We work because we are saved, not in order to be saved.

Prayer

If the eye is fixed on God, thought may roam where it will without irreverence, for every thought is then converted into a prayer.

Need Exercising

The only way to restore a weakened will is by exercising itself in details of duty.

Constant Joy

"Rejoice evermore," says the apostle; let your joy be constant and durable.

New York Fair To Honor Press

NEW YORK (Special)—To remind millions of visitors to the New York World's Fair 1939 that freedom of the press has helped preserve the democratic form of our government, a statue dedicated to that constitutional liberty will be erected on the \$50,000,000 Central Mall, Grover A. Whalen, president of the Fair corporation, announces.

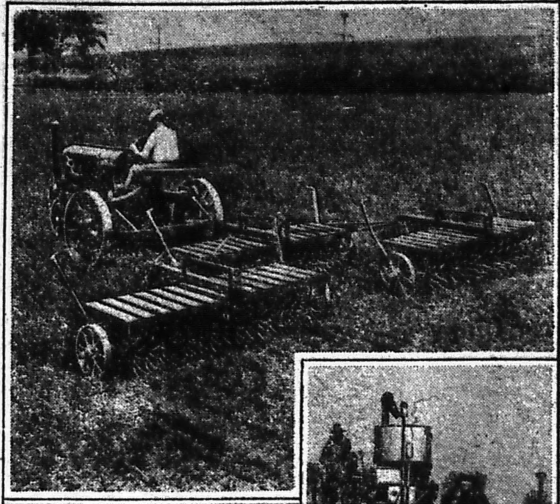

The statue will depict a partially nude woman, representing "the unadorned truth," watching the passing show of world events and recording history day-by-day. A tribute to the moral standard of the press as a whole is contained in the subordinate figure of a child reading a newspaper.

Freedom of religion, speech and assembly will be combined with freedom of press to suggest that these four factors are the cornerstone of democratic government.

He's An Industrial Worker!

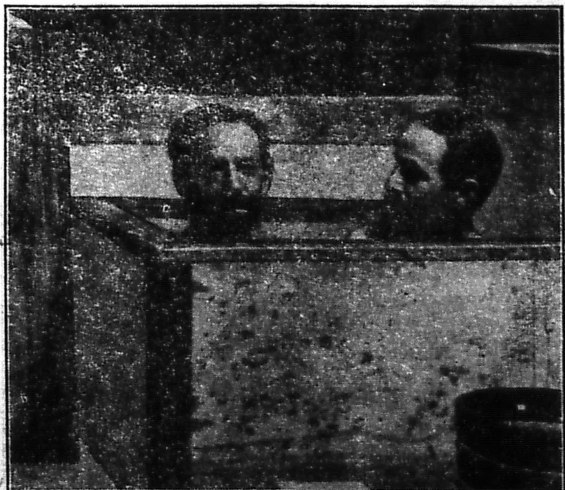

YOU would naturally think of the man operating the tractor as a farmer. And he is a farmer, but he's also an increasingly important figure in the industrial world, not only as a consumer but as a producer. He's engaged in hosing up a field of soy beans which later, after passing through various factory processes, you'll be using in the form of paint and varnish, soap, linoleum and scores of other products. Consumers Information points out that 61 million pounds of soy bean oil, a comparatively new crop for American farmers, was produced in one recent year. Of this amount, 2½ million pounds went into the soap kettles, 5 million into linoleum and 13 million into paint and varnish.

This brand new market for American farmers, who are now growing a large number of industrial as well as food products, has been developed, like many others, through the vast research programs undertaken by American industry, whose laboratories have added untold millions to the national wealth and also thousands of jobs for American workers.

Saturday Night in Japan

"COME on in, the water's fine." Bathing in Japan is on a different plane from ours, as these two American gentlemen can tell you. Tubs are perpendicular there, instead of horizontal, and you stand in the water up to your neck. But we shouldn't laugh at this somewhat primitive scene, according to Consumers Information, which points out that only a hundred years ago, there were only 1,500 bathtubs in the United States, all of them in Philadelphia, where they had a city water system and taxed each tub \$3.00. President Fillmore installed

the first tub in the White House in 1850. Advertising of the advantages of convenient and sanitary bathing started 91 years later, has continued increasingly ever since, and has made the United States the cleanest nation on earth. Even the most advanced European nations are far behind us in this respect, and the possession of a bathtub in most countries is a sign not only of opulence, but ostentation. The United States is among the few countries generally educated to the knowledge that health and cleanliness go together.

Goodville

The East Earl Township Welfare association held a meeting Monday evening at the home of the president, H. S. Shirk at Blue Ball.

The meeting was held to decide on apportioning the welfare funds that were collected during the campaign last fall. The treasurer reported a balance carried over from last year of \$91.33 and that \$639.40 had been collected last fall in the township by the collectors.

It was decided to donate the following amounts to these institutions: Lancaster General Hospital \$300; St. Joseph's hospital \$100; Rossmore Sanatorium, \$100; Crippled Children association, \$25; Blind Society, \$25; and Visiting Nurse association, \$50.

Those who assisted in the drive last fall were: Miss Margaret Wallace, C. S. Overly, H. W. Oberholzer, B. W. Witmer, George G. Sauder, Ammon M. Weaver, D. W. Martin, Jr., Harry H. Weaver, Jr., Wayne S. Martin, Harvey M. Good, Benjamin F. Weaver, D. G. Weldman, Edward D. Gehr, Charles E. Farmer, Lloyd Burkhart, Barton G. Horning, Joseph A. Good, A. J. Rodger, Horace C. Wanner, H. S. Shirk and Luke W. Martin.

The Weaverland Mennonite church district composed of the following churches: Goodville, Weaverland, Churchtown, Lichty's and Martindale held a business meeting at the Weaverland church recently. Bishop John M. Sauder presided. Wayne S. Martin was secretary.

One trustee was elected for each church as follows: Weaverland, John H. Martin; Goodville, Abram Burkhart; Churchtown, Frank Shirk; Lichty's, George G. Sauder and Martindale, Allen W. Martin.

George G. Sauder is treasurer of the District. Reports were given by the Sunday Schools of each church, Sewing Circles, Young Peoples Meeting and the auditors.

Wayne W. Stauffer spent the weekend at Ardmore with the William Law family.

Sound Effects Easily Produced

Did it ever occur to you that when you hear a crackling fire, or rain, or a train over the radio, off stage or even in the movies, it may not be the real thing? Here are some of the simple ways in which sound effects are created.

Banging of a door: Dropping of heavy weight.

Breaking in of door: Smashing of board laid across two boxes.

Bridle: Rattling of bunch of keys.

Crackling fires: Crumpling of stiff paper.

Crash: Dropping of heavy object on piece of sheet metal.

Crash of glass: Dropping of basket partly filled with broken glass or china.

Egg horn: Blowing into a medicine bottle across its neck.

Hoofs: Rapping lightly on the floor, with crescendo or diminuendo effect, with coconut shells sawed evenly in two parts.

Rain: Dropping rice on a paper or tin sheet or buckshot on the head of a taptap.

Thunder: Shaking a heavy piece of sheet iron suspended by a cord, or beating a large tin trap with the palm of your head or with a mallet.

Less Electricity Required by Modern Appliances

With the domestic electric refrigerators of today using less than one-half the amount of electricity that the models of ten years ago required, and new incandescent light bulbs on the market which use less current but provide ten per cent more light, domestic electric consumers have two outstanding examples of the benefits which continue to accrue to them as a result of the research and experimental work constantly being carried on in the electrical goods industry.

Improvements in design and operation of all electrical household appliances have materially cut down the amount of electricity required to operate them. The improvements in design and operation of other appliances coupled with the step-down rates for domestic electric service, under which increased consumption earns lower costs per kilowatt-hour, are important factors aiding home-makers in completely electrifying their homes. Every improvement in the household appliances means less time and effort required in the upkeep and operation of the modern home.

County to Spend \$1,278,316.16 in 1938

The proposed 1938 budget for Lancaster county provides for expenditures of \$1,278,316.16. In 1937, the county's revenue totaled \$1,584,620.04, according to the budget figures.

The budget was placed on public display in the office of the County Controller Chester M. Reed in the Court House on Thursday morning. It will be on display for ten days, after which time it will be forwarded to Harrisburg for approval. It then will be adopted by the County Commissioners.

39,700 Traffic Toll Reported for 1937

The 1937 traffic slaughter reached a new high of 39,700 deaths, the National Safety Council reported Tuesday in announcing its preliminary estimate of 106,000 accidental deaths of all types for the year.

The highway toll was again of four per cent over the 38,089 killed in 1936, but the Council accounted for it in part by an increase of nine per cent in automobile travel last year.

Sharp decreases in traffic deaths during November and December, each of which was 10 per cent under the corresponding month in 1936, helped to hold down the year's rate. Eight previous months showed increases.

The Council placed the nation's accident bill at \$3,700,000,000 of which \$2,550,000,000 was for wage loss and medical expense, \$870,000,000 for property damage in traffic mishaps, and \$280,000,000 loss in fires.

Colossus at New York Fair

NEW YORK—The largest portrait statue executed in modern times will honor George Washington at the New York World's Fair. It will be 65 feet tall and will depict Washington as he arrived for his inauguration exactly 150 years previous to the opening day of the Fair, April 30, 1939. Its mass will be 500 times that of a man.

Announce Potato Census in Lancaster County

There are 651 "commercial" potato growers in Lancaster county; that is farmers who grow over three acres of potatoes a year, according to the potato census just completed by the Lancaster County Agricultural Conservation Association.

The census was taken in January by community committeemen on orders from Washington officials who requested the commercial potato acreage of this county for use in case potato "goals" are established this year.

The figures were taken for the years 1936 and 1937 and show the 651 farmers have an average yield of 210 bushels per acre and grew a total of 5,302 acres in the county.

Total yield of commercial potatoes was given as 1,161,597 bushels for the county.

Beatitudes for Church Members By Rev. Edward L. Watson, D. D.

1. Blessed is the member who knows there is a prayer meeting.
2. Blessed also the man who remembers the preacher on Sunday evenings.
3. Blessed is he who undertakes and does the job he undertakes.
4. Blessed is the man who takes a Church paper.
5. Blessed is the member whose parish includes the whole world.
6. Blessed is the man whose religion includes the whole week.
7. Blessed is he who always boosts but never knocks the church.
8. Blessed is he whose rain coat works on Sundays.
9. Blessed very much is he who loved God with his pocketbook as well as his heart.
10. Blessed be the Christians who "keep a goin'".

County Firemen Will Hold Annual Banquet on March 10

The Lancaster County Firemen's association will hold its annual banquet on Saturday evening, March 10, in I. O. O. F. hall. Emory P. Wagner is chairman of the entertainment committee.

Plans were announced at the meeting Friday evening in Pioneer Fire company hall, Ephrata, when more than 300 firemen were present.

The resignation of Fred J. Daum chairman of the publicity committee for the past few years, effective March 1, was announced. No action was taken on filling this post.

Brief addresses were given by Guy K. Bard, Public Utility Commissioner and Clarence H. Beck, secretary of the Berks County Firemen's association, and instrumental music was presented by Victor Kulp, Harold Swelgart and Edward Hacker. Talking moving pictures entitled "Sounding the Alarm" and pictures of the recent relay hook-up to fill the cisterns at Greenfield, Bausman and Rothsville were shown.

Fire Marshal Paul Z. Kuler, reported there were 13 fires in the county during the month. He said 201 firemen representing 25 companies saved property valued at \$17,700.

Paul Uibel, of the Pioneer company welcomed the firemen to Ephrata and the invocation was offered by George F. Weldler. Charles Mull, of Ephrata, was in charge of the arrangements.

Forty-five companies out of the fifty-six in the association were represented.

Ten Known Dead as Blizzard, Cold Sweeps Over U. S.

Blustering winter winds swept across ice-sheathed middle-west, east and southern states Wednesday night while northern Michigan dug itself out from the worst blizzard in its history.

Ten were known dead—four in Illinois, three in Indiana, two in Michigan and one in South Dakota.

The blizzard which raged more than 48 hours over Michigan's northern peninsula gradually was blowing itself out. In its wake were snow drifts 10 to 30 feet high, families marooned in snowbound farmhouses and isolated villages and weary highway crews battling to restore paralyzed traffic.

POET'S CORNER

Lincoln Thought

Historical Note: Lincoln, mortally wounded by John Wilkes Booth, was carried from Ford's theatre to a small house across the street. There he died, never regaining consciousness.

Ann Rutledge, beloved of the youth, Lincoln, died before the days of his greatness, leaving the world one of its most tender stories of immortal devotion.

Ann Rutledge,
Weary years asleep—
I wonder, Lincoln,
Did you keep
Within your heart,
By day, by night,
An altar fire
For her alight?
The page of history
Reads, you lay
Unconscious 'till
The break of day.
I think you dreamed
Upon your couch,
Of her, at rest
Upon the hill.
They never guessed,
Your watchful friends—
Perhaps I know
Why you lay still.

4 Killed when Auto

Skids into Truck

Three men and a woman were killed Friday when their New York-bound automobile skidded into a truck at Rising Sun, Md. The automobile and truck drivers escaped with bruises.

The dead: Mrs. Eliza Rial, 40, Brooklyn; Abraham Kaplan, 55, New York City, father-in-law of the driver; Donald Allen, 24, Danbury, Conn.; Nick Coleao, 40, believed to be from New York City.

The driver, Samuel Lerner, 42, also of Brooklyn, automobile repairman, who was driving from Miami with four others said:

"I was driving down a hill when the car skidded on some ice on the road and the back end crashed into the truck, which was coming in the opposite direction."

A coroner's jury decided Friday night that it was an unavoidable accident. The verdict freed Lerner.

MARRIED

Sauder—Weaver

Miss Elizabeth G. Weaver, daughter of Mr. and Mrs. Samuel R. Weaver, of Leola, and Mrs. Paul N. Sauder, son of Mr. and Mrs. Noah N. Sauder, of New Holland, were married on Saturday evening at 7:30 o'clock by Bishop John M. Sauder, at his home in Goodville.

After a two weeks' tour of the Southern states the couple will be at home in their new home, 315 West Main street, New Holland.

The bride is a graduate of the Upper Leacock high school, and the bridegroom is a graduate of the New Holland high school and is employed in the office of Sauder brothers' garage, New Holland.

Annual Meeting of Lancaster Co. Agricultural Extension

The annual meeting of the Lancaster County Agricultural Extension Service will be held in the Y. W. C. A., Lancaster, Wednesday, February 10. This is the twenty-fifth anniversary of Extension Work in Lancaster County. County Agent Floyd S. Bucher has served the agricultural interests of the county during this entire period.

The morning session will begin at 9 o'clock. This consists of business session, election of a board of directors, reports from county workers. Brief talks will be given by the living former Presidents of the organization. Several farmers will report on help given them by County Agent Floyd S. Bucher about twenty-five years ago.

A luncheon will be held in the auditorium, with group singing lead by Miss Helen Cassel, Manheim, and male quartette.

The speakers during the afternoon program will be Dr. C. W. Warburton, Federal Director of Extension, Florence Hall, northeastern division of Home Economics Extension, both from Washington, D. C. Short talks will be given by Dr. R. D. Hetzel, President Pennsylvania State College, J. M. Fry, Assistant State Director of Extension Work, E. K. Hishman, Secretary of the Alumni Association, and former assistant Director of Extension, and E. S. Bayard, Editor of the Pennsylvania Farmer.

Wedding Ring Customs

There are many customs connected with the wedding ring among different peoples of the world, yet it would seem that all the wedding ring ideas had a common origin, which is shrouded in mystery. Among the Zulus there is a custom, called Khehla, of wearing a ring on the head. It is made of polished wax and worked in with the hair. As soon as a Zulu marries he wears the ring and he discards it only for a time if one of his wives dies.

Poppo, Blossom of Evil Omen

Poppo, according to mythology, is a blossom of evil omen. They were offered to the dead since they signified sleep. Glaucus, the son of Neptune, once caught a fish. It ate some herbage and jumped into the sea. The Yellow Poppo or Papover Glaucous Jaume originated from that myth. The cross of the plant, according to Christian tradition, originated in its color from the holy blood which stained the flower.

Lesson for February 13

**CONSERVING THE SABBATH
FOR MAN**

LESSON TEXT—Mark 2:23-3:6.
GOLDEN TEXT—And He said unto them,
the Sabbath was made for man—Mark 2:27.
PRIMARY TOPIC—God's Holy Day.
JUNIOR TOPIC—God's Holy Day.
INTERMEDIATE AND SENIOR TOPIC—
What Shall I Do on Sunday?
YOUNG PEOPLE AND ADULT TOPIC—
Using the Sabbath for the Whole Man.

"A man's soul is in a bad state when he begins to regard man-made rites and ceremonies as things of superior importance and exalts them above the preaching of the gospel. It is a symptom of spiritual disease. There is mischief within. It is too often the recourse of an uneasy conscience . . . No wonder St. Paul said to the Galatians, 'Ye observe days, and months, and times, and years. I am afraid of you, lest I have bestowed on you labor in vain.'" These are the comments of John Charles Ryle, Lord Bishop of Liverpool, on the lesson of today.

The formalists of Christ's day, the Pharisees, had overlooked the heart of God's law and the holy living which it was intended to produce, and had bound up even the observance of the Sabbath (which was intended to be a day of rest and gladness) in such a mass of technical "thou shalt nots" that it was a day of fear. They had a false outward profession of worship and had entirely missed the true spirituality of God's law, a fact which drew upon their heads the anger and rebuke of our Lord.

While we as Christians do not observe the Jewish Sabbath, there are principles of doctrine and life bound up in this lesson concerning the Sabbath which we may with profit apply to our day of rest—the first day of the week—the resurrection day, often called "the Lord's Day."

I. False Spirituality Unmasked.

The two incidents in our lesson reveal that under the cloak of earnestly observing the law of the Sabbath the Pharisees were actually covering their own hypocrisy and their hatred for Christ.

The accusations against the disciples because they had taken and eaten grain was not on the ground that they had stolen, for the law (Deut. 23:25) guaranteed that right to the one who had passed through his neighbor's field. They contended, however, that the disciples had worked on the Sabbath in picking and hulling the grain.

The healing of the man with the withered arm revealed that back of their professed concern for the Sabbath was a real hatred for Christ. It is an appalling thing that in the house of worship on the very Sabbath day these men, outwardly so religious, were plotting against our Lord. "They watched him," and even so the enemies of the cross watch us who are his followers.

II. True Spirituality Defined.

Jesus cuts across human hypocrisy and hatred to declare that the true keeping of the Sabbath is to do the work of God. No work of necessity (like plucking the grain) or of mercy (like healing the withered arm) is ever out of place on the day of rest.

How shall we know what we may

do on the Lord's Day? Two guiding principles appear in our lesson. (1) Know and follow God's Word. Note the use that Jesus made of it in verses 25 and 26. No man will misuse the Sabbath or the Lord's Day who understands God's Word and obeys it. (2) Live in accordance with the spirit of the Lord Jesus. When tradition stood in the way of the best interests of man, He broke with tradition. If He could do good on the Sabbath He did it.

A word of caution is needed, for some have sought to interpret this

lesson as providing biblical ground for doing all sorts of things on their day of rest. That day is for man's good, not for his destruction. His greatest good is served by rest, worship, spiritual development, Christian fellowship, and the doing of deeds of necessity and mercy.

III. Righteous Indignation Manifested.

Our Lord rightly showed His holy anger (v. 5) against his hardhearted critics. He was the Holy One who did not permit His anger to go beyond its proper expression. Man,

it must be confessed, seldom is able to control and direct even his righteous indignation. But there is such a thing as being angry without sin (Eph. 4:26), and one could sometimes wish that God's children could be moved to a holy anger against all sin and unrighteousness.

Comforting Word

This is a comforting word of Scripture which presents Christ as a shepherd whose sheep had strayed.

Dry Chlorine Treatment

for Poultry Colds

Readers ask—what to do to prevent or treat roup and colds in poultry. Outbreaks of respiratory diseases decrease the productiveness of the most promising flocks. These diseases hit at a time when egg prices are high and every laying bird in the flock means added profits.

The new dry dusting treatment of birds while they are on the roost is an advancement in the treatment of flocks infected with roup, colds and respiratory diseases, according to a manufacturer of this product. Every precaution should be taken not only to relieve the affected birds, but to prevent the spread of the infection to healthy birds.

A warm dry atmosphere is conducive to rapid recovery from winter ailments. It is therefore important that the material used in the treatment of these birds should not add dampness in the coop. When the birds are on the roost and the house is closed up, dust a dry chlorine powder over them. The powder is thrown in a fine cloud which is inhaled by the birds, causing them to sneeze and to discharge the mucus in the nasal passages. The hypochlorite content of the powder has a germicidal action on both the nasal passages and the germ-filled mucus.

The use of a dry high-test hypochlorite powder for this treatment has been found highly efficacious. Actual laboratory and practical tests have proved the dry chlorine treatment aids in the rapid recovery of infected birds. Dry dusting treatment is in good standing with leading poultrymen and authorities. The cost is very low (a few cents per treatment of 50 birds). Usually one heavy dusting followed by a couple of light dustings are all that is necessary, it is claimed.

One of the principal advantages of this dry treatment is that it adds no moisture to the coop. Then, too, the dust settles, falling on the drooping boards where a very desirable germicidal and deodorizing action takes place.—From Pennsylvania Farmer.
