

THE *Ultimate* IN GUTTER PROTECTION

SUPERSPOUT[™] FOR LEAFAWAY[®]

Durability, water flow capacity and curb appeal are important attributes of a highly functional rain carrying system. The LEAFAWAY Gutter Protection System

uses a minimum of a 3-inch square downspout and elbow, known as Superspout, to control the water as it is drawn away from your home and foundation. The Superspout is engineered to be 100% stronger than other downspouts because of its rigid square design. And unlike ordinary downspouts, the water is swirled like a cyclone in the Superspout which easily removes debris. As a result, clogging in the downspout is unlikely and water flow increases by 50%. This streamlined design creates great curb appeal and is available in our full color palette. You'll easily be able to color match or contrast your exterior. Used for both residential and commercial rain carrying systems the Superspout is also available in a 3x4.

Enjoy the beauty of your home without the dangerous task of cleaning your gutters ever again. Climbing ladders and hanging off the edge of your roof are a thing of the past. When you get a LEAFAWAY[®] Gutter Protection System, your gutters stay free and clear of debris regardless of any kind of nasty weather. LEAFAWAY prevents ice build up in the gutter and is the only option that can offer two colors splitting the top and bottom.

Our professional installation crews custom cut your gutters on-site with our LEAFAWAY mobile gutter machines. Its breakthrough seamless, one-piece design provides optimal performance and visual appeal.

BAD GUTTERS CAN DAMAGE YOUR HOME

Improperly installed gutters and downspouts can cause leakage and overflow that deteriorate wall foundations and result in expensive repairs to your home's roof, soffit, fascia and siding. Faulty gutters can also lead to soil erosion adjacent to buildings and end up flooding your basements and crawl spaces. Properly designed and installed rain carrying systems will protect your home's exterior walls and foundations by carrying rain water away from your roof and away from your home.

NO MORE CLOGGED GUTTERS EVER, Guaranteed!

APPLIED TECHNOLOGY

- Seamless Gutter Protection System
- Maintains Maximum Water Capacity
- Clog-Free, Worry-Free System
- Easy Clean, Stain Resistant Finish
- Multiple Color Options
- Custom Manufactured On-Site
- Chalk & Fade 25 Year Non-Prorated Warranty
- Limited Lifetime Material Warranty

HOW LEAFAWAY® WORKS

The LEAFAWAY Gutter Protection System is a revolutionary leaf and debris shedding system. The one piece, seamless design works on the principle of liquid adhesion. Rainwater flows into the gutter trough and deflects wind-blown debris such as leaves, pine cones, needles and twigs which are often collected in conventional gutters by rainwater. When gutters are clogged, they can no longer hold water which results in overflow which then can lead to structural damage to your home and landscaping. This gutter protection system is the only option that can offer two colors by splitting the top and the bottom.

PRODUCT FEATURES

- Revolutionary leaf and debris shedding system.
- Narrow opening allows water and prevents debris entry.
- Cover deflects debris while allowing rainwater to flow into the gutter using liquid adhesion.
- Patent-pending, one-piece seamless design.
- Debris-free trough allows water to flow unobstructed.
- Prevents rainwater run-off, which can lead to cracked foundations and damaged landscaping.
- Sur-lock™ internal hanger provides spacing consistency, a streamlined look and prevents sagging.
- Ceramic hybrid paint finish is enhanced with DuPont™ Teflon®, which dramatically improves the chalk, fade, stain and scratch resistance of the gutters.
- Up to 50% thicker than other add on gutter protection systems.
- No roof attachments.

PAINT FINISH AN EXCLUSIVE TO THE INDUSTRY

With 27 colors carefully selected by a team of color experts, we offer you a full palette of color options to compliment and contrast your homes' exterior for envied curb appeal. You will rest assured that the durability, fade protection and choices will be consistent for as long as you own your home. Our finish is enhanced with a DuPont™ Teflon® surface protection which prevents stains from penetrating the surface, while providing an easy clean surface. Our resilient finish will stand up to intense UV rays, that will fade most other products within a few short years, and we back it up with a Limited Lifetime warranty ensuring your gutters will retain there original color for years to come.

MULTIPLE COLOR OPTIONS
