

JESS DAVIS TRAINING

Accredited training for your business

First aid for children

This two hour first aid course is perfect for parents, grandparents and anyone looking after children.

During our fun and practical course, we discover what to do when a child has a bump on the head, an allergic reaction, an injury to a bone or a bleed. We also cover the critical actions needed if a child chokes, becomes unconscious or stops breathing.

This course is ideal for beginners who just want to improve their knowledge and confidence.

Our team can come to you to deliver the training
