KRIS HELGE
Director of
Information
Management
Tarrant County
College

Kris Helge serves as the Director of Information Management at Tarrant County College. He holds a J.D., Ph.D. in Information Science, and an M.L.S. He supervises an Information Governance Program at Tarrant County College. He publishes and speaks about IG issues frequently. Kris also teaches IG related classes as an adjunct professor at Rutgers University.

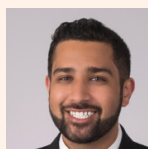

JIM HIGDON
Senior Vice
President of
Information
Strategy
Vendor Direct
Solutions LLC

Jim Higdon has over 25 years of experience leveraging technology and relationships to create successful teams and programs built on a framework that emphasizes collaboration, flexibility, and focused execution. Building a roadmap that marries processes and technology (the foundation of any successful program) includes speaking to clients in a language that makes sense to them even if they themselves are not technically savvy. The only way to avoid creating redundancy and efficiencies without duplicating efforts is to define the basic cradle to grave requirements and benefits up front, then be committed to following the solution to fruition.

LEIGH ISAACS
Senior Director,
Information
Governance
DLA Piper

Leigh Isaacs is an indispensable collaborator and advisor with both client and law firm partners and teams in the strategic development and implementation of records and information governance programs. With over fifteen years of experience in records and information governance and over 30 years of experience in the legal space, Leigh has a proven record of understanding business processes, identifying opportunities for improvements and creating efficiencies by recommending customized solutions for workflow processes. Leigh understands the critical need for clear and effective communication and bridges the communications gap among law firm and client stakeholders.

ALI JESSANI
Senior Associate
Wilmer Hale LLP
As an associate
at WilmerHale, Ali
Jessani counsels

clients on the privacy, cybersecurity, and regulatory risks presented by new and proposed uses of technology and consumer information. He advises clients with compliance issues related to state, federal, and international laws governing data sharing, ownership, and protection. He also guides businesses through legal obligations after data breaches, as well as state and federal regulatory investigations.
