Advisor Computer Compliance

Cyber threats are rising. If you aren't meeting digital security standards, you are already vulnerable. Learn how to protect your client data before hackers expose your weakest link.

Building Compliant, Trusted Client Relationships

Trust isn't enough. Regulators are watching. Master the compliance-driven relationship framework that keeps your business safe AND thriving.

Complying with AML & Anti-Terrorist Financing Legislation

If your name appears in a financial crime investigation, your career is over. Know exactly how to prevent your firm from becoming a target.

Canada's Anti-Spam Legislation (CASL)

Think you're safe from penalties? Think again. Mistakes in email marketing could cost your company up to \$10 million in fines. Master CASL compliance before regulators come knocking.

10 Privacy Principles According to PIPEDA

Data breaches happen daily. If you don't know these privacy principles, you're already at risk. Avoid lawsuits, government fines, and shattered client trust—before it's too late.

Phishing Think Before You Click

Elevate your cybersecurity awareness with Phishing: an essential guide to detecting and preventing phishing scams targeting financial professionals. Learn to recognize red flags, implement security best practices, and safeguard client data against evolving cyber threats.

About Dan Hostick

Dan graduated with a B. Comm from McMaster University in 1971. He was very involved on campus with several organizations. He was a varsity hockey player for four years and was selected Captain of the hockey team in his final year.
