Safety solutions working for you

Scott has served as a certified Smith System Instructor and implemented numerous driver training programs. He has managed HSE departments on a national scale, developed driver handbooks with related policies and has been involved in the implementation of camera and ELD systems. Scott holds certifications with IRMI TRIP (Transportation Risk Insurance Professional) and NATMI CDS (Certified Director of Safety).

Flexible solutions for your business needs

Leveraging his extensive industry knowledge to identify risks, exposures and liabilities, Scott offers recommendations, training and support aimed at mitigating the common challenges faced by transportation companies, fostering a partnership approach with all clients. He is also responsible for conducting risk assessments and providing support to clients with the implementation of various policies and procedures, as well as facilitating driver and safety personnel training.

Experience that you can trust

Having worked as a Vice President with one of the largest insurance brokers in the country, a Director of Safety for the 2nd largest trucking company in Louisiana, a Loss Control Representative and the Senior Safety Manager for the largest private hazmat fleet in the United States, Scott has the experience you can trust.
