THE VISION

Bleeding-edge software + bleeding-edge manufacturing. Aetherion Dynamics fuses the most advanced autonomous C2/C3 software (Patton AI) with domestic, NDAA-compliant unmanned systems production — a true full-stack American autonomous systems company.

SOFTWARE FIRST

Patton AI is the core. Every platform runs under our C2/C3 layer.

MANUFACTURING MUSCLE

U.S. production lines for speed, quality & full compliance from day one.

AMERICAN ADVANTAGE

Buy American • Trusted Supplier • NDAA-ready by design.

THE PATTON AI DIFFERENCE — Command & Control at Machine Speed

Self-Healing Hive™

Network elects new leader and restores full command in <10s under jamming or node loss. No single point of failure.

Passive SLAM Terminal Guidance

Precision terminal guidance that emits no RF and needs no GPS. Works in fully denied environments.

True Multi-Domain Orchestration

One command layer simultaneously directs air, land, surface, subsurface, and cyber as a coherent force.

Agentic Adversary Simulation

Monte Carlo + RL continuously ranks doctrine-aligned Courses of Action with full auditable rationale.

WHY AETHERION

- 01 Software + Hardware Ownership — no third-party C2 dependency
- 02 Already Proven — Patton AI is live & operational today
- 03 Policy Tailwind — domestic, NDAA-clean, explainable AI
- 04 Clear Accountability — one American company, one architecture

MANUFACTURING

- NDAA by Design from first production unit
- Buy American / Trusted Supplier pathways
- CMMC-aligned & ITAR/EAR-ready
- Dual-use: defense + wildfire/disaster response

We are ensuring total American drone supremacy.
