Red Angus

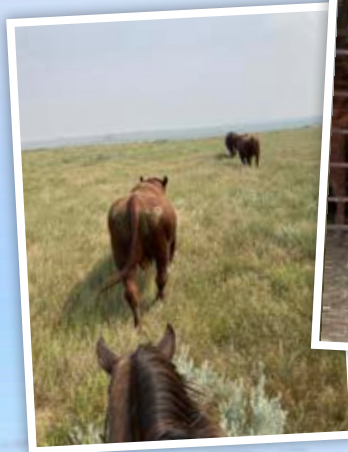

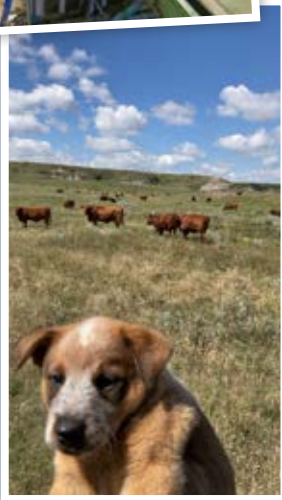

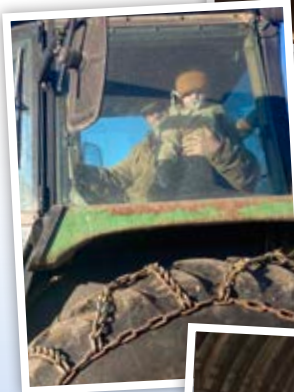

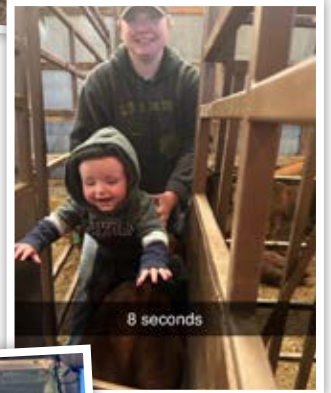

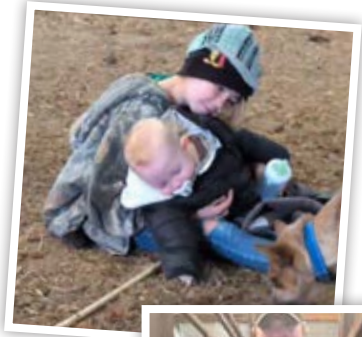

ANNUAL PRODUCTION SALE

Monday, March 2, 2026

AT THE RANCH

MCINTOSH, SOUTH DAKOTA • 1:00 PM MT

Welcome TO OUR ANNUAL PRODUCTION SALE

Robert, Kara, Robby, and Sara
5096 Campbell Rd. • McIntosh, South Dakota 57641
701-422-3721 • campbellra@westriv.com
campbellredangus.com

Welcome to our 51st annual Campbell Red Angus 2026 production sale. This year's bull offering is only the top born on this ranch. If you're looking for open ribbed deep bodied, deep hipped cattle you need to see this offering. The CBR prefix runs deep in the pedigrees, you are getting the best of the best. Throughout the years our philosophy of old school hard numbers and phenotype hasn't changed. We have incorporated genetic testing and enhanced EPD's into the evaluation process. Make no mistake, the cattle still have to perform and breed back in our environment NO EXCUSES!!! Many of the bulls in this offering have EPD's in the very top of the Red Angus breed in multiple traits. All this and we still haven't lost sight of the mama cow. They are run on the rough Dakota plains and are expected to be sound and produce. The calves are expected to push the scale down along with having figures.

As you now know, we have moved the sale home. We feel moving the sale home shows a truer representation of the bulls and our program. Be sure to look at the map in the catalog or google "Campbell Red Angus", if you have any questions don't hesitate to give us a call. Come see our operation and how we continue to produce top Red Angus bulls year after year!

We are still the family operation you have grown to know and trust. Robert, Kara, Robby and Sara and Max are on the ranch full time. Kara and Sara teach in town in addition to helping on the ranch. Jennifer has finished her Veterinary Schooling and now works for Hosmer Veterinary Service. She also has taken over the veterinary care of our herd!!! Lacey and children have moved back home and are working and going to school in McIntosh. Melissa, her husband, daughter and son are still in Wyoming. The girls and their families still come home frequently to help out. Grandpa and Grandma's joy and happiness stem from all six of their grandchildren.

The cattle and genetics are the same base you have come to rely on since 1973. We have been participating in the "Red Cow Rally" the Red Angus Association offered. This verifies parentage and increases accuracies of EPD's through DNA testing. All the bulls in the sale are parent verified through DNA. Our goal is to combine our ranch tested genetics with DNA testing to give you a phenotypically desirable animal with the backing of scientific data. We are confident we have produced a predictable, money-making animal for your herd. This year we are participating in the RAAA commercial marketing Gridmaster Challenge. This program will show the feeding ability, grading and overall carcass value of Campbell Red Angus

cattle. No matter what your selection criteria are you can find what you need here at Campbell Red Angus. 53 years and 4 generations of management input (That's well over 100 years of combined experience) has given our operation a unique perspective.

We have been feeding with our TMR feeder wagon for several years now. This year we fed a high roughage ration along with an adjusted supplement, and mineral. The bulls performed well. The scrotals are adjusted by the Red Angus Association and were taken January 21, 2026. The EPD's in the catalog are BOLT as of January 26, 2026.

We are bringing 5 high quality replacement heifers to our sale that represents a cross section of the herd. The heifers were developed with the whole group until January 28, 2026. They are on a high roughage TMR ration. They did quite well proving their feed efficiency and genetics. This year we are also offering 60 high quality commercial bred heifers that are due to calve between March 8 and April 1. Bring your trailer, they will be ready to start calving. We hope you take advantage of this opportunity to bring these outstanding genetics into your herd. One last twist in this years sale we are going to offer pick of 1 of 5 Akaushi x Red Angus Steers. Pick the steer sale day and we will finish him in about August for you to take to your butcher!! If you prefer to finish the steer yourself, we are happy to accommodate. See what the Red Wagyu x Red Angus craze is about!

The popularity, reliability, strong performance, and diversity of Red Angus Cattle continues to grow in the cattle industry. Red Angus females are still some of the most desirable cattle selling today. With the recognition of the industry in the carcass merit of Red Angus cattle, I am confident we will continue seeing premiums across the board on our cattle. Let Campbell Red Angus genetics help you take advantage of what's to come. We welcome you to come to the ranch to view the cattle until March 2nd at which time we will have the sale on the ranch. We will also have video of the sale bulls at campbellredangus.com available in mid-February for viewing. DVAuction will be available on sale day for bidding. Our family, friends, customers, and cattle are the reason we keep working hard in the cattle business. Please come early on sale day for coffee and rolls. Lunch will start at 11:30 MST. We look forward to seeing you there!

Sincerely,
Robert, Kara, Robby and Sara
And the rest of the Campbell Crew

Guarantee

Bulls sell as guaranteed breeders. Due to their young age the bulls haven't been semen tested, but we strongly recommend you have them semen tested before you put them in service. All claims must be submitted to the Seller in the calendar year, along with written semen evaluation and health report from a licensed veterinarian. All heifers are sold palpated and open. Seller has the privilege of trying to prove the bull after his return, before making any adjustment. This guarantee is null and void if there is evidence of improper management in care of said animal, or if the inability to breed is due to sickness or injury after being sold. Insurance available through Martin Trudeau Insurance.

PLEASE BRING THIS CATALOG TO THE SALE.

Terms and Conditions

All cattle sell under the recognized terms and conditions of the Red Angus Association of America, and by these additional conditions. Terms of the sale are cash. Any dispute as to bids are settled by the auctioneer. Announcements from the auction block take precedence over printed material in this catalog. Animal is the Buyer's responsibility upon being sold. All persons who attend the sale do so at their own risk.

For candid pictures and updates, visit

**Come early for Rolls and Coffee
Lunch at 11:30**

Performance and EPD Codes

1A - 100% Red Angus

1B - 87% - 99% Red Angus

Performance Info:

BW - Actual BW

Adj 205 - 205 day adjusted weaning weight

Adj YW - 365 day adjusted yearling weight

ADG - Gain on test

WDA - Weight per day of age over lifetime

Adj SC - Adjusted measurements taken on January 21, 2026.

Adjusted to year of age.

CC - calving code

1 - use on cows

2 - use on cows or growthy heifers

3 - fewer calving problems should occur when used on first calf heifers

GGP (GeneSeek Genomic Profile)

Further enhances EPD accuracy through genomics. 

Eartags

Lot numbers - yellow tag

ID numbers - colored tag

Feed & Delivery

We will offer free delivery of bulls immediately following the sale to central points within 300 miles. Balance at cost. Feeding of bulls by arrangement until April 15, 2026. Bulls fed at buyer's risk. We strongly suggest you purchase insurance on your bulls.

Registration Transfers

Registration papers transferred to buyer when available. Leave name and three line address when making settlement if you want papers transferred.

Red Cow Rally DNA Evaluation

Campbell Red Angus participated in a research collaboration known as the Red Cow Rally, between RAAA and Neogen. By participating in this project, we increased the prediction accuracy of the animals within our herd and verified the parentage of our entire cow herd which allows us to verify both sire and dam for this year's bull crop. In essence, every dam of the bulls in the sale will have a level of accuracy of most traits as if they already had 5 to 25 progeny. While genotyping is very informative to increase EPD accuracy, it will never replace the need to collect valuable phenotypic information. Both of these sources of data combine to provide the most accurate genetic evaluation.

We reserve the right to retain 1/3 semen interest on any bull.

Campbell Red Angus

PRODUCING CATTLE THAT PERFORM FOR THE CATTLEMAN

SINCE 1973

RED ANGUS GUIDE TO EPDS

RedAngus.org

ProS..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

WELL BUILT dam is a first calf heifer when we weaned him she was still in good shape and has bread back early. The bull is massive without being wasty. He is extremely long, deep, and round. He isn't the biggest framed bull in the pen but he isn't small he just packs a lot of meat on his frame. This bull has been a standout since day one. In mid-May we had him out to pasture on our county road and had a bull customer that came to pick his bulls up mention that he was a nice calf. He grew like crazy did it with a moderate birth weight and is in the top 1% on 5 different traits plus 2% on 2 others. This is truly an incredible bull.

SURE SHOT is an incredible heifer bull. He is out of our Shooter bull so you know he has depth of rib with a huge hip to carry it around. The bull's blood lines are full of longevity. With his mid-size frame and respectable yearling weight, this guy is better at growing out than up. He will do great on heifers and once you decide to move him up onto cows he will show you his true potential.

HAMMER was a hard bull to put in the sale. Robby's collage professor said it takes 4 to 5 calves to make to pay for a bull. No matter the price this guy brings, 1 heifer calf out of him will pay for him 2 times over. He is a large framed bull with a giant rib and tons of depth that extends all the way through his flank and into his hip. The heifers out of this guy are going to be incredible.

Here is a heifer calf in the top third of the bread in 11 different traits that include the growth traits with just a 47lb birth weight that's not bad.

Heifers

Campbell
Red
Angus

Lots 150-213

63 HEAD OF HOME RAISED RED ANGUS COMMERCIAL BRED HEIFERS.
Start calving March 8 to April 1. 8 head April 1 to May 1.

Heifers will be numbered 150-213 sold 5 head or more start at beginning lot go as deep as you want to go. These are our commercial replacements. Bring your trailer!!!

LOT 500

Choice of 1 of 5 Akaushi x Red Angus Steers.

Pick the steer sale day and we will finish him in about August for you to take to your butcher!! If you prefer to finish the steer yourself, we are happy to accommodate. See what the Red Wagyu x Red Angus craze is about!

MARTIN-TRUDEAU INSURANCE LIVESTOCK DIVISION

LIVESTOCK INSURANCE ENDORSED BY THE SD & ND ANGUS, SD & ND SIMMENTAL, SD HEREFORD & ND RED ANGUS ASSOCIATIONS

LIVESTOCK INSURANCE

★ **OPTION 1: All Risk Mortality (ARM)-100% Indemnity** *Bulls & Females*

Livestock Mortality Insurance is extended to indemnify the livestock owner for loss as a result of the death of an animal from natural causes, disease, accident or humane destruction to alleviate incurable and inhumane suffering resulting from a covered peril. Short term policies available.

★ **OPTION 2: ARM+ Accidental External Injury (ACC)-80% Indemnity** *Bulls Only*

Mortality coverage plus coverage for injury causing Permanent Infertility (broken penis or stifle).
Requires a current Veterinary Certification (not over 30 days old).

★ **OPTION 3: ARM+ Accident Sickness & Disease Infertility (ASD)-80% Indemnity** *Bulls Only*

Mortality Coverage plus coverage for injury causing Permanent Infertility (broken penis or stifle). In addition to coverage above, this also includes Total and Permanent Infertility (fever or infection causing infertility or disease).
Requires a current Breeding Soundness Evaluation (not over 30 days old).

★ **OPTION 4: ARM+ Comprehensive Infertility (COMP)-85% Indemnity** *Bulls Only*

Covers all of the above, plus Frozen Testicles, Testicular Degeneration and infertility caused by abnormalities. Also pays 20% of insured value for temporary infertility of 21 days or more. This does not replace the Breeder's Guarantee. *Requires a current Breeding Soundness Evaluation (not over 30 days old).*

ALL OF THE ABOVE COVERAGES ARE SUBJECT TO APPLICABLE DEDUCTIBLES AND/OR COINSURANCE, MINUS SLAUGHTER VALUE

L to R: Eric Audiss, Brenda Bathke, Kate Klein, Kara Johnson, Virginia Ernst, Amy Bussmus-Puepke, Ray Trudeau, Mandy Synhorst, Chris Nelson, Elizabeth Olson, Kristen Velez & Colton Tobin.
