

C50+ REG

UNLEADED FUEL

VP Racing's C50+ Reg offers up to 4% increase in power over C50 Reg, and is a proprietary new fuel formulation for 50cc and 65cc 2-stroke motorcycles. It features premium ester-synthetic oil and keeps reeds clean in high humidity. C50+ Reg is unleaded and pre-mixed with a new advanced synthetic/ester-based lubricant formula at a 50:1 ratio, so no measuring or mixing is required. It's also ethanol-free, which prevents the damage that occurs with ethanol-blended street gas which fouls carburetors, degrades rubber and plastic parts, and goes bad after just a few weeks in storage. **Contains MTBE.**

FUEL MAIN BENEFITS

- More power across the power band, up to 4% increase over C50 Reg
- Improved throttle response Same jetting as C50 Reg
- New advanced synthetic/ester-based lubricant formula
- Advanced high-humidity operation
- Designed specifically for 50cc and 65cc engines
- Long term storage benefits over pump gas

SIZES	PART #
5 Gallon	1172
SPECS	
RON:	102.0
MON:	87.5
R+M/2:	94.8
Specific Gravity:	0.716 @ 60F
Leaded:	No
Oxygenated:	Yes
Oxygenats %:	6.69 wt. %
RVP:	10.33 psi
Stoich Number:	13.58

FUEL APPLICATIONS

DRAG RACING	CIRCLE TRACK	ROAD RACING/RALLY	ATV / UTV
MOTOCROSS	MOTORCYCLE ROAD RACING	OFF-RACING/RALLY
