

## Gain fresh insights from experienced peers

### Harnessing Peer Advantage to Your Advantage

There are thousands of books on leadership, hundreds on followership, and relatively few on the importance and value of the people who stand beside you. Peer influence is something you've experienced your whole life, yet too few people give it a second thought. Imagine if you gave it a second thought. Consider what would be possible for you if you were more selective, strategic and structured about the way you engaged your peers.

Expert speaker and author, Leo Bottary, will cover:

- The pervasive nature of peer influence
- The four ways we engage our peers
- The difference between garden-variety peer influence and peer advantage
- The five factors that make peer advantage possible
- The value of case clinics and triads
- A model for improving group and team performance

You will also experience how a Vistage Private Advisory Board, led by Vistage Chair **Chuck Hyde**, can help you evaluate opportunities, gain new perspectives and discover a renewed sense of direction.
