

BMO ALL-IN-ONE Turn Key Package

Caters to your well site needs. Fully turnkey, effortlessly installable, plug-and-play solution: the modular design facilitates easy transportation and redeployment, ensuring adaptability to diverse settings.

Crafted to address brown well sites with low air consumption, this all-encompassing package prioritizes reliability with a cost-effective approach and minimal maintenance requirements.

Harness the state-of-the-art technology through the BMO Solar Powered Circulation Pump and BMO BLAIR ECO compressor embedded in the BMO ALL-IN-ONE Turn Key Package.

The BMO Circulation system deliver upto 10 gallons per minute (GPM) flow rate, while the BMO BLAIR ECO compressor delivers up to 2.5 cubic feet per minute (cfm) of air output, with discharge pressure up to 120psi, presenting a robust and economical solution for your operational demands.
