

SAVE NOW, PLANT LATER

This season, every row matters. Save row by row with special discounts on Ag Leader planter solutions. From individual row control to hydraulic downforce and more, you'll gain the precision your fields demand — and the savings your operation deserves — when you upgrade your existing planter.

Pair SureSpeed® or SureDrive® with SureForce® and get:

June - July

UP TO
\$200 OFF
PER ROW

OR save \$100 per row
on a single system

August - September

UP TO
\$150 OFF
PER ROW

OR save \$75 per row
on a single system

SureSpeed®

SureSpeed provides unparalleled singulation and spacing accuracy at any planting speed up to 12 mph for the ultimate plant stand and performance.

SureDrive®

SureDrive provides precise and efficient planting through individual row section control, variable rate planting capabilities, and turn compensation for consistent population around turns and contours.

SureForce®

SureForce instantly adjusts pressure for precise planting depth with powerful downforce and uplift. Adapt to soil types, compaction, and planter weight to overcome diverse and tough environments.
