

RIGHTSPOT®

Take control with RightSpot, the application system that delivers precision, efficiency, and savings. Less waste. More accuracy. Maximum results.

Controlled on the InCommand® Go 16

Your nozzle-by-nozzle advantage

RightSpot's blended pulse technology delivers consistent coverage and reduces skips. Pulsing nozzles maintain precise boom pressure, ensuring the right droplet size and application rate, even on challenging terrain and at varying speeds. Apply products effectively while minimizing drift and protecting neighboring crops.

Save **\$50** per nozzle

Make the
Right decision.

- ✓ Right rate.
- ✓ Right pressure.
- ✓ Right droplet size.
- ✓ Right coverage.
- ✓ Right speed.
- ✓ RightSpot.

Offer valid January 5
through March 31, 2026.
