Professional Summary

Gabriel is a trilingual CPA and seasoned Finance Executive with over 10 years of experience helping founder-led companies scale with confidence. His specialty is bringing clarity and strategy to complex financial challenges—whether it's managing cash flow, building growth-ready forecasts, unlocking non-dilutive funding, or preparing for a raise.

He works closely with SaaS, agencies, and service-based businesses to create solid financial foundations, streamline operations, and support strategic decisions that drive long-term profitability. If your company is growing fast—or getting messy—he brings the structure and insight to help you move forward with clarity.

Key Achievements or Results

- Led the implementation of company-wide financial dashboards and forecasting models, enabling more accurate decision-making and real-time visibility across operations.
- Supported M&A activities by preparing financial models, participating in due diligence, and aligning stakeholders through clear, audit-ready reporting packages.
- Managed post-acquisition integrations by unifying financial systems, standardizing reporting processes, and maintaining business continuity during transition.
- Optimized cash flow management and secured public funding (grants/subsidies) to extend the runway and support sustainable growth without dilution.

Personal Insight

What drives Gabriel is helping founders bring order to complexity, with a calm, methodical approach, strong ethics, and a collaborative mindset that builds trust.
