

Yes, Our School is Interested! Form That is Great News! Here is More Information!

Revenue for public schools, and clean air! **NextGenTreesUSA** (NGT) is taking the long view - through the lens of planting trees for helping schools raise money. Why? Trees breathe in CO₂. What does that have to do with your school and raising money? This is a feel-good, compelling way to attract funding. What other fundraising program offers a long-term legacy for schools while helping the environment for our children? Pizza dough? Popcorn?

Whatever your fundraising goal, \$100K, \$25K or other, NGT helps you achieve it! Your school keeps 70% of every tree seedling sold (\$9.00 suggested price). With your remittance of 30% (\$2.70) for each seedling, NGT purchases your seedlings in the fall, allowing time for them to grow for spring planting. Further, NGT can accommodate contributions to your school that are over and above seedling sales. (*Shipping, handling, and tax considerations excluded*)

Additional details and items you will receive:

- You may select two types of trees. It's easy to view images on NGT's website.
- An *Information Packet* that includes guidance for the key organizers preparing for your Fall fundraiser.
- A *Sales Form* to record how many and the types of trees your team will purchase.
- Marketing materials and tips to promote your NGT fundraiser.
- After the purchase of your trees in the Fall, and after the time to grow them – you will receive the tree seedlings (6 to 8 inches tall) ready for planting in March-April with instructions for Spring planting.
- You will receive 75 years of combined business expertise to facilitate your fundraising.
- To secure our partnership, NGT will also have available on our website the Memo of Understanding (MOU) for your signature. Along with the MOU is the request for your approval for NGT to become a vendor providing fundraising services to your school.

Students establish a legacy toward having a healthy, viable environment to call their, and their children's own. They can recognize a beloved teacher, family member or other community leader. Students, their families, and friends embrace a sense of altruism and thinking about others as they beautify their community – and as they help the environment, too.

Please complete the form below to help us help you. Then mail, email, or fax back to us asap. Thanks!
