Koraes School students and staff recently held a food drive for us and collected over 1500 pounds of groceries.

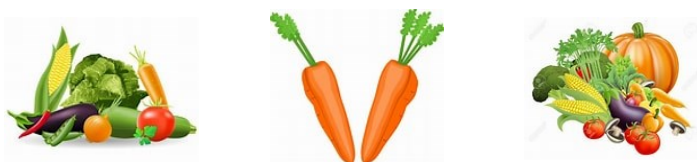

Thank you so much to you all, and may God Bless you.

Your partnership is invaluable to us.

We have started to receive farm fresh produce from Oak Lawn Community Garden and the University of Illinois Extension at Lake Katherine.

Their support is such a blessing to our community.

Our Operations Manager recently received a call from the Greater Chicago Food Depository regarding a woman who needed food, didn't have any transportation, and lived in our area. He got her contact information and within a few hours delivered almost 300 pounds of food to her. During their conversation he found out that she was struggling with some medical conditions. They prayed together. We ask that everyone pray for Ms. G as she struggles with these health conditions.

Opening Status for the Near Future

Just last year in June we were quarantined at home and much of the country was shut down as we struggled to deal with the COVID Pandemic.

Now in 2021, we see businesses opening, events being planned and people's faces again.

Although it's great to see life returning to normal, we at Operation Blessing are taking a cautious approach. For now, we will continue to operate as we have this past year with the building closed, but the pantry functioning in a safely distant manner.

As conditions improve, the Board will be discussing what measures need to be taken to fully open again so that volunteers and visitors feel safe and comfortable.

May Statistics
