

GREAT GAS & OIL CO. INC.

DBA GREAT GAS HEATING & AIR

Subject:

Great Gas makes warm Friends!!

910 N. Marine Blvd. • Jacksonville, NC 28540
(910) 847-7138 or (910) 847-7139 • Fax: (910) 846-9384

Please give us a call at 347-7138, we will be glad to speak with you about what you might need. If there is not a tank there, and you need it for cooking or logs or both and you have copper tubing already in place, we will sit 2 100# tanks there which hold 23.5 gallons each. That would cost you \$387.29, as long as the copper tubing is already in place. If you need it for heating, a furnace, wall heater, etc, we would sit at least a 100 gallon tank there, It would cost you \$490.49 as long as the copper tubing is in place.

After the tanks are in place, we would put you on a route system, depending on what we think your needs would be, we would work you on that route every month, every two months, quarterly, whatever it would take to meet your needs. If you have a generator you would have to purchase the tank, we do not lease our tanks for use with a generator. The lease fee on our tanks depending on the amount that you use, is either \$125 or \$115 yearly, and is due in the month of June each year.

You will have to fill out an application before we do anything, to see if you could be a credit customer or require you to have to be a credit card customer, where we process the credit card the next day after delivery, we charge a fee of \$3.21 for this.

If there is a tank already there in place that belongs to us, there is a transfer fee of \$55 PLUS 7% SALES TAX.

I hope this answers your questions, please call us if you have any other questions.

Thank you.

Louise Williams

The prices of propane, like the other items in our world are very high right now, we hope in the future we will be able to lower them.

Please enjoy the warmth of propane and always right now keep in mind how the economy in our world is getting higher and higher.

Thank you for giving us the opportunity to service you and your family, we will do everything we can to keep you warm and the lowest price possible and give you the best service of any gas Company in the State of North Carolina.
