

STEM PACK LICENCE

Read Me First — Terms of Use for Purchased Audio Stems

Track: Look East Before Sunrise
Writer(s): Eden Altman
APRA/AMCOS work no.: 656348
Master owner: Eastward - Eden Altman

Acceptance of Terms

By downloading, unzipping, or using any file in this pack, you agree to the terms below.

This is a licence, not a sale of copyright. You're being given permission to use these stems within the limits below. The underlying song and master recording remain the property of Eastward - Eden Altman in all cases.

What You Can Do With These Stems

This licence is non-exclusive, non-transferable, and worldwide. It allows you to:

- Listen to, study, and edit the stems
- Create a remix, edit, mashup, or derivative work
- Publish, distribute, sell, stream, and monetise that derivative work (including via ad revenue or platform monetisation schemes)
- Submit the derivative work for digital distribution (e.g. via DistroKid, CD Baby, or similar) under your own artist name, provided you credit the original work (see below)

This licence does not include synchronisation to film, TV, advertising, games, or other visual media. Sync use of any derivative requires a separate written sync licence — contact info@eastwardmusic.com.au

This licence does not grant any ownership interest, equity, or royalty share in the underlying composition or master, and does not permit you to register the underlying composition with any collecting society (e.g. APRA AMCOS, ASCAP, BMI, PRS) in a way that claims or dilutes the original writer or publisher share.

Credit Required

Any public release, upload, or distribution of a derivative work made from these stems must credit the original work, visible in the track description or metadata:

“Contains elements from ‘Look East Before Sunrise’, written and produced by Eden Altman. Original:

For Remixes your title must read as below:

“ ‘Look East Before Sunrise’ - [Your Artist Name] Remix”

Crediting the original work doesn't satisfy any separate royalty, mechanical licensing, or collecting-society reporting obligation that may apply to your derivative work in your territory — you remain responsible for those obligations independently.

Not Allowed

- Reselling or redistributing the raw stem files themselves
- Claiming co-writer credit on the original composition
- Using the stems to train AI/ML or generative models
- Using the stems for NFTs or tokenisation
- Anything defamatory, obscene, or damaging to the artist's reputation

Breaching any of the above ends your licence immediately, and you must delete all copies of the stems and any derivative work on request.

Territory & Law

This licence applies worldwide and is governed by the laws of Victoria, Australia. Nothing here limits your statutory consumer rights under the law of your own country, including the Australian Consumer Law where it applies. If you plan to release a derivative commercially in another country, it's on you to make sure that also complies with that country's copyright and licensing rules (e.g. mechanical licensing in the US).

No Warranty & Refunds

These files are provided as is. To the extent permitted by law, Eastward - Eden Altman excludes liability for any loss arising from your use of them, except where such liability can't be excluded under the Australian Consumer Law or your local equivalent. As these are digital files delivered immediately, refunds aren't available once downloaded, except as required by consumer law in your country.
