INTRODUCTION & RECOMMENDATIONS

INTRODUCTION

1. Whilst monitoring the increasing number of published first primary votes in the 2026 SA State Election (held Sat. 21st March 2026) on the Electoral Commission of South Australia (ECSA) website, it became evident that certain SA states electorates were close in voting numbers e.g. LIGHT, MACKILLOP and NARUNGGA.
2. As an independent Elections Analyst (not paid & with no donations/Subscribers), it was important to monitor the rising number of votes being published and *which* electorates would potentially be won by Parties/Independents. Some contacts in NSW, were especially inquisitive about the SA electorate of **LIGHT**. There were 7 How-to-Vote (HTV) cards viewed for the Candidates/Parties in LIGHT (as shown on ECSA website <https://www.ecsa.sa.gov.au/images/2026SE/How-To/Binder-AllHowToVoteCards-SingleFile.pdf> - LIGHT is page 8 of 47 How-to-Votes). Monitoring was undertaken of the various number of increased first preference (primary) votes in LIGHT, published for these 7 Candidates. An initial prediction was that LIGHT would be a gain for One Nation, however, it was retained by **SA Labor**, and the neighbouring electorate of **NGADJURI**, was won by **One Nation** over **SA Liberals** (see SA electorates map on page 5).
3. It was only *after* the ECSA published the “*Distribution of preferences*” on the 04.05.2026 <https://result.ecsa.sa.gov.au/> and with close examination of the distribution of preferences (accumulated votes) in 10 selected SA electorates (particularly **LIGHT** and **MORPHETT**), that various ‘anomalies’ were discovered. It became apparent that the accumulated redistributed published votes from **Family First** in LIGHT, *did NOT* fully follow their HTV. Although Family First’s majority accumulated votes fell onto One Nation first, it was ‘suspicious’ that the next party to receive Family First’s redistributed votes was the **Greens**, with **Liberals** coming last! i.e. **PHON 36.6%**, **GRNS 24%**, **LAB 23.4%** and **LIB 16%**. Yet Family First’s HTV order (which can be viewed at the top of page 8 in this report) was: #1 = **Family First**, #2 = **Pauline Hanson’s One Nation**, #3 = **Australian Family Party**, #4 = **Liberals**, #5 = **Labor**, #6 = **Legalise Cannabis Party** and #7 = **Greens**.
4. By viewing the published redistributed preference votes in **LIGHT** and the high percentages % falling to Greens and Labor, LIGHT became retained by Labor. However, a hypothetical change of % with the distribution of preferences, for LIGHT, *could* have meant a gain to One Nation (hypothetically). See page 7 & %.
5. Having relayed this ‘discovery’ of **LIGHT** to a number of political contacts, a One Nation person in VIC, asked about the historical voting data of LIGHT. In SA State Elections for 2018, 2022 and 2026, **SA Labor** won in LIGHT. See page 4 for historical % distribution of preferences (which includes a few other SA state electorates).
6. For **MORPHETT**, a marginal **Liberal** seat @ 4.5% (source <https://www.abc.net.au/news/elections/sa/2026/guide/electorates>), covering 8 Candidates, there was an ‘anomaly’ discovered with the published redistributed preference votes concerning **Australian Family Party** (AFP), which fell *first* onto **Animal Justice Party** (AJP) with 39.7%; despite AJP being placed on AFP’s HTV at #6 position. AFP voters would more likely have had their votes fall first to the Liberals and later onto One Nation, as per their HTV order (see top of page 19). Understandably, as AFP was positioned at the top of the ballot paper, they would have received many ‘**donkey votes**’ where voters put 1 = AFP 2 = RCSA 3 = AJP 8 = GRNS. Once RCSA ‘donkey votes’ went out, that would have meant AFP ‘donkey votes’ would fall naturally onto AJP; which would explain the high number of AFP votes transferred onto AJP in MORPHETT. The **Liberal MP** subsequently lost his seat to **Labor**. Following a hypothetical change of the % for the distribution of preferences, MORPHETT *could* have been retained by the Liberal MP (see page 9).
7. The scenario of ‘donkey votes’ in MORPHETT was curiously different compared to **LIGHT and NGADJURI**. In **DUNSTAN**, AJP was positioned at the top of the ballot paper and One Nation was underneath AJP, and when AJP went out, a majority of their votes went ‘naturally’ to Greens 40.5% (positioned last on ballot).
8. These ‘anomalies’ (found in LIGHT and MORPHETT), follow a trend, following analysis undertaken of the 2025 Federal Election VIC Senate Voting – distribution of preferences published (AEC 65-page pdf) i.e. a large number of redistributed votes from Trumpet of Patriots, Family First and Legalise Cannabis Party fell onto Labor, giving the last 6th VIC Senator position to the 3rd Labor Candidate. Refer VOTE WISELY website downloadable pdf on 2025 Senate Analysis.
Link: <https://votewisely.godaddysites.com/data-%26-analysis-senate> Extract from page 6 of 15 @ point 5: *Despite the Labor Candidate No. 3 gaining 508,994 votes and not reaching quota of 589,967, they were elected. The difference between the One Nation Senate Lead Candidate and the Labor elected 3rd Senate Candidate, was 32,041 votes. Notably, the transferred votes from Family First 20,879 and TOP 19,037 onto Labor, totalled 39,916 votes.*
9. This Report also provides details on 8 other SA electorates during the 2026 SA State Election for comparison purposes, plus various published HTVs etc.

10. After speaking to Christian, Lex Stewart, who witnessed elector fraud, was interviewed on 'Outsiders', <https://www.news24.com.au/news/australia/vote-australias-president-lex-stewart-says-the-electoral-roll-lacks-integritymore-than-18000-people-were-asked-to-explain-why-they-voted-twice-at-the-2016-federal-election/video/70a6a92d20d89cee2eb9b313c83f01cc> has written submissions to the Joint Standing Committee on Electoral Matters, (see points 11 & 12 below) and assisted with finalising the 7 Recommendations, **it is important that this information is utilised for upcoming elections and for electoral integrity.**
11. 2005 WERRIWA BY-ELECTION - EYEWITNESS EVIDENCE OF ELECTOR FRAUD: Extract from Alexander (Lex) Stewart submission (Sept. 2019) to Joint Standing Committee Inquiry with Terms of Reference *"that the Committee inquire into and report on the conduct of the 2019 Federal Election and matters related thereto."*
"3.3 AN EYEWITNESS STORY OF HAVING VOTED IN FALSE NAMES
3.3.1 BACKGROUND *I assisted in the Werriwa by-election in 2005, caused when Mark Latham resigned, and I prayed and asked God to reveal to me if there was any Vote Fraud. About 10am, I was handing out How-to-Vote (HTV) leaflets and I saw a man take the ALP HTV from a person near me. When I offered him my HTV he verbally abused me, and so I remembered his distinctive appearance. At lunchtime I delivered lunch in an Esky to my wife who was working on another polling booth. I put the Esky down on the ground and, on lifting up my eyes, I saw this same man with distinctive appearance right in front of me walking out of that polling booth."* Hence this **Labor voter** had voted at least twice at 2 different polling places (or more?) during WERRIWA By-Election; which is **Elector fraud.**
12. 2022 FEDERAL ELECTION COWPER PREPOLL - ELECTORAL FRAUD? 1 page submission by Alexander (Lex) Stewart on 6.10.2022 to Joint Standing Committee on Electoral Matters concerning seat of COWPER (NSW), when during scrutineering of prepoll at Port Macquarie on 21.05.2022 (till 2am), Lex observed 244 ballot papers, that were deemed informal. A number of green ballot papers that had been completed in pencil, had two number "1" appearing i.e. "1" for Nationals MP Pat Conaghan and "1" for Greens Candidate, Timothy Nott. Notably, the Nationals had a #7 shown on their How-to-Vote card for Timothy Nott (Greens) at the end of the ballot order. See page 22 of this report for Lex Stewart's submission no. 376 which shows the Nationals HTV and how easily a ballot paper completed in pencil from 1 to 7, can be altered by rubbing out #7 to appear as a slanting #1. Thus two #1 makes an informal ballot. Erasing/altering of ballot papers resulted in a reduction of formal votes for the Nationals and although the Nationals MP, Pat Conaghan was re-elected, there is a strong need for parties to appoint Scrutineers and for Voters (Electors) to complete ballot papers in pen, in order to eliminate tampering of ballot papers and prevent electoral fraud.

7 RECOMMENDATIONS for FUTURE STATE/TERRITORY & FEDERAL ELECTIONS

1. Political parties and Voters (Electors) who want to help combat elector fraud e.g. voting more than once at various polling places, need to lobby politicians, governments, electoral commissions, parliaments and the media etc. for change, to ensure **Voter ID (not digital ID)** i.e. a driver's licence, is shown at polling places, whereby an Elector is marked off on an electronically-centralised database **before** receiving a ballot paper.
2. Voters (Electors) need to **complete ballot papers in pen**, not pencil. Go to page 22 of report, to see Submission 376 on 2022 Federal Election in seat of COWPER.
3. **Appoint Scrutineers**, rostered during prepoll and on polling day, to view any possible tampering or alteration of ballot papers (especially if completed in pencil) and to closely monitor the ballot papers placed onto 'Informal' piles. 10 Scrutineering Tips <https://votewisely.godaddysites.com/2025-scrutineering-tips>
4. Political parties e.g. Family First, One Nation, Liberals and Nationals, need to **closely examine published "Distribution of Preferences" for any 'anomalies'** involving redistributed votes onto which Candidates/Parties and to compare them with the How-to-Vote cards and other electorates (use %). See pages 6 & 8.
5. If a Candidate and/or Political Party is made aware of an **issue/incident during an election**, or via scrutineering or from close examination of published "Distribution of Preferences", it is **critical that a complaint is formally lodged** to the appropriate electoral commission and by the specified time period.
6. Political parties should undertake **post-election analysis** and document their findings to assist in future elections and for **possible submissions to parliament.**
7. The AEC (Australian Electoral Commission) is an independent statutory agency of the Australian Government which answers to the parliamentary Joint Standing Committee on Electoral Matters (JSCEM). The AEC is *not* subject to Ministerial direction. If the JSCEM cannot direct the AEC, and the AEC is not subject to Ministerial direction, then where does effective democratic accountability ultimately reside? **There needs to be a return to electoral administration to a professionally independent but ministerially accountable Commonwealth public-service agency, with statutory safeguards to help protect electoral officials from political interference and to ensure electoral integrity.**

Historical Distribution of Preferences – Key %

Selected SA Electorates for 2018, 2022 & 2026 State Elections

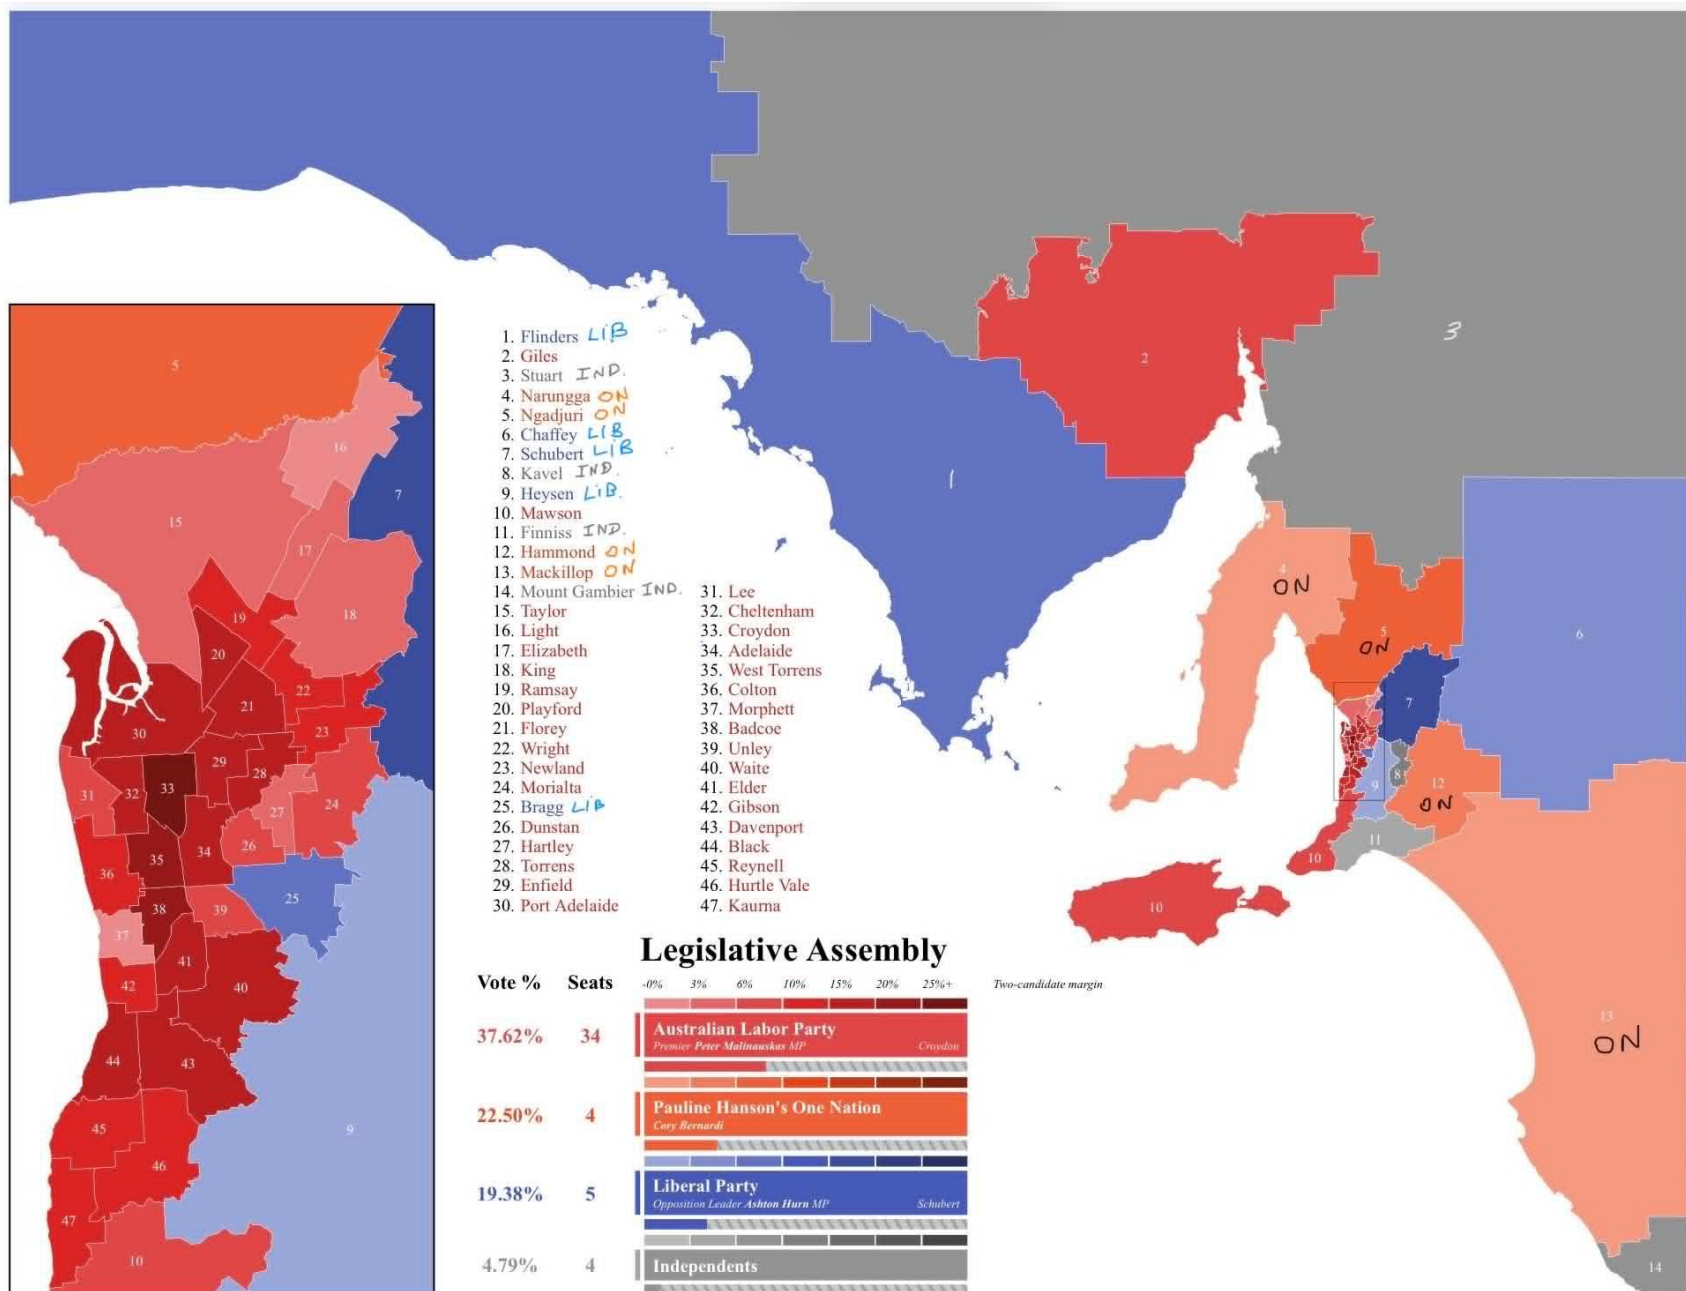

Information sourced from Electoral Commission South Australia website:

- 2018 State Election Statistics Report (346-page pdf) scroll down list
<https://ecsa-test-only.ecsa.sa.gov.au/component/edocman/2018-state-election-statistics-report/download?Itemid=0>
- 2022 State Election results and statistics downloads – “House of Assembly distribution of preferences by district”
<https://ecsa.sa.gov.au/component/edocman/244-2022se-ha-final-distribution/download?Itemid=0> (view pdf)
- 2026 State Election results – go to House of Assembly District Results (click on electorate name & scroll down to ‘Distribution of preferences’)
<https://result.ecsa.sa.gov.au/>

NB. Key % shown below have been calculated mathematically based on the number of votes (redistributed) e.g. in HAMMOND 2018, using the 2018 State Election Statistics Report published by Electoral Commission of SA (346-page pdf), go to page 285 “*Final Distribution of Preferences for the District of Hammond*” where **Labor** went out and their accumulated preferences votes totalled 4,092 (Mat O’Brien), of which 2,780 votes went to SA Best (Kelly Gladigau) = 68% and 1,312 votes went to **Liberal** (MP Adrian Pederick) = 32%. Liberal MP was re-elected with 62.1% of votes.

COMMENTS

- % of first pref. votes out of 24,103: **LAB 36.8%**, PHON 34.5%, LIB 12.3%, GRNS 9.1%, FF 3.5%, LCP 2.7%, & AFP 1.1%.
- AFP went out @ Count 2, 260 votes redistrib.: **FF 42.7%**, PHON 16.2%, GRNS 13.5%, LIB 11.5%, LCP 8.8% & LAB 7.3%. *[unusual as GRNS exceeds LIB]*
Note: AFP had FF #2 HTV & most of redistrib. votes did go to FF. However, AFP HTV had LIB #3 & GRNS #7, yet GRNS ahead of LIB for AFP votes.
- LCP went out @ Count 3, their 688 votes redistributed: **GRNS 41.1%**, PHON 21.7%, LAB 19.8%, FF 12.2% & LIB 5.2%. *(high % for GREENS)*
- FF went out @ Count 4, their 1,032 votes redistrib.: **PHON 36.6%**, GRNS 24%, LAB 23.4% & LIB 16%. *(GRNS 2nd @24%! Yet GRNS #7 on FF HTV)*
Note: When FF went out, *curiously* some of their redistributed votes went to GRNS then LAB, ahead of LIB (last). *[unusual as LIB last but #4 on FF HTV]*
- GRNS went out @ Count 5, their 2,748 votes were redistributed: **LAB 75.3%**, PHON 14.6% & LIB 10.1%. *(huge % for LABOR!)*
- LIB (ballot position 1 possible extra 1% votes) NB: Australian Institute article 11/04/2025 by Bill Browne, “... **topping the ballot is worth about 1 percentage point.**” LIB went out @ Count 6, their 3,468 votes were redistributed: **PHON 68.3%** & LAB 31.7%.
- LABOR Candidate, James Agness** (52%) beat **ONE NATION, Alexander Banks** (48%) by a **difference of 787 votes** & was elected. **LABOR RETAIN**
- Considering closeness in votes between **LABOR** & **ONE NATION** (with the anomalies discovered above), see **hypothetical LIGHT** page 7.

COMMENTS

- a) % of first pref. votes out of 22,414: LAB 35.9%, LIB 35.1%, PHON 15.2%, GRNS 10.3%, AJP 1.3%, AFP 1.2%, RCSA 0.7% & FGA 0.3%.
- b) RCSA went out @ Count 3, their 163 votes redistributed: GRNS 29.4%, AJP 20.9%, LIB 16.0%, AFP 13.5%, LAB 10.4% & PHON 9.8%.
- c) AFP went out @ Count 4, their 302 votes redistributed: AJP 39.7%, LIB 24.8%, PHON 16.9%, LAB 11.3%, & GRNS 7.3%. **[AJP @39.7%. AJP #6 on AFP HTV - donkey votes?]**
- Note 1:** AFP was positioned at top of ballot paper & would've received 'donkey votes' & from AFP voters. 'Donkey votes' for AFP would fall directly onto AJP, as RCSA had been excluded. This may explain high number of AFP votes onto AJP, but as Introd. point 7, the 'donkey votes' scenario was different in NGADJURI & DUNSTAN.
- Note 2:** AFP HTV order for MORPHETT (8 candidates) #2 LIB, #3 FGA, #4 PHON, #5 RCSA, #6 AJP, #7 LAB & #8 GRNS.
- Note 3:** In neighbouring electorate of GIBSON (8 candidates), AFP HTV was #2 FF, #3 LIB, #4 PHON, #5 FGA, #6 AJP & #7 GRNS.
- Note 4:** When AFP went out Count 4 in LIB seat of SCHUBERT (see pg. 15) their 326 votes redistributed. i.e. PHON 37.7%, LIB 33.1%, LAB 12%, GRNS 8.9% & AJP 8.3%.
- d) AJP went out @ Count 5, their 455 votes redistributed: GRNS 41.8%, LIB 30.5%, LAB 17.4% & PHON 10.3%. **(note % for GREENS)**
- e) GRNS went out @ Count 6, their 2,572 votes were redistributed: LAB 80.3%, LIB 12.8% & PHON 6.9%. **(huge % for LABOR!)**
- f) PHON went out @ Count 7, their 3,716 votes were redistributed: LIB 70.3% & LAB 29.7%.
- h) LABOR Candidate, Toby Priest (50.7%) beat LIBERAL (49.3%) by a difference of 306 votes & was elected. **LABOR GAIN**
- i) Considering closeness in votes between LABOR & LIBERAL (with the anomalies discovered above), see **hypothetical MORPHETT page 9**.

COMMENTS

- a) On page 8 above, MORPHETT for the published actual distribution of preferences, 'anomalies' were discovered:
- i) @ Count 4 AFP there was a high % i.e. 39.7% given first to AJP, despite the fact that AFP had put AJP #6 on its HTV. Yet Liberal seat of SCHUBERT (Opposition Leader, Ashton HURN) (pg. 15), pref. from AFP @ Count 4: PHON 37.7%, LIB 33.1%, LAB 12%, GRNS 8.9% & AJP 8.3%. AJP last.
 - ii) @ Count 6 GRNS a massive 80.3% to LAB (aided by AJP increased redistributed votes via AFP @ Count 4) which helped increase LABOR votes.
- b) SCHUBERT AFP redistributed votes of 326: PHON 37.7%, LIB 33.1%, LAB 12.0%, GRNS 8.9% & AJP 8.3% - see page 15c).
- c) MORPHETT AFP 302 redistrib. votes hypothetically using SCHUBERT % PHON 37.7%, LIB 33.1%, LAB 12.0%, GRNS 8.9% & AJP 8.3% - see pg. 15c).
- d) MORPHETT AJP hypothetical 360 redistrib. votes using SCHUBERT % i.e. GRNS 59%, LAB 17.2%, PHON 14.8% & LIB 9.0% - see page 15d).
- e) MORPHETT GRNS hypothetical 2,600 redistrib. votes using SCHUBERT % i.e. LAB 73.1%, LIB 18.1% & PHON 8.8% - see page 15e).
- g) MORPHETT PHON hypothetical 3,836 redistrib. votes using SCHUBERT % i.e. LIB 75.2% & LAB 24.8% - see page 15f).
- h) LIBERAL, Stephen Patterson (50.8%) hypothetically beats LABOR (49.2%) by a difference of 356 votes. LIBERALS RETAIN (hypothetically).

3. HAMMOND (Murray Bridge & Rural SE SA: marginal LIB seat 5.1%) (won by Robert Roylance, **ONE NATION**) (See Comments)

Submission to Joint Standing Committee on Electoral Matters, 6/10/22

Brief Report on Scrutineering the PrePoll ballot papers for Cowper

I attended the Prepoll counting centre in Port Macquarie from 4pm on 21 May 2022 till 2am to observe the processing of about 45,557 ballot papers from the PrePoll Voting Centres (PPVCs) of Cowper.

Among all Cowper ballot papers, 4.93% were informal. During the processing of the approx. 2,245 informals among the Prepolls, I was able to observe and write down the patterns for 244 ballot papers.

- 122 were blank, perhaps indicating a determination not to vote, or total confusion.
- 26 would have been formal under NSW optional preferential voting.
- 20 ballot papers were ruled informal due to having two "1"s, having been filled in as per the How-to-Vote (HTV) leaflet of Pat Conaghan (see HTV below), but where there was a "1" instead of a "7" opposite the Greens candidate (see example of a ballot paper below).
- 11 eleven had one blank square, and four had the 6 beside Caz Heise converted into an 8.

Overnight security of storage of PrePoll ballot papers is a problem. While these are stored in sealed ballot boxes, it would be possible, though difficult, to use long tweezers to pull ballot papers up out of the ballot boxes, and then to use an eraser to rub out a pencil number and write a new number.

IF these statistics (20, 11 and 4 out of 244) can be scaled up from the sample of 244 to apply to the approximately 2,245 informals among the PrePolls, then Pat Conaghan missed out on 320 votes due to pencil marks being erased or altered.

I think that the lesson is DO NOT VOTE IN PENCIL, because a ballot paper might be altered.

Yours sincerely,

Alexander Cornell Stewart, [REDACTED] mob [REDACTED]

5003 Submission to JSCEM re scrutineering of Cowper PrePolls on 21may2022.docx
