

Today, AI is revolutionizing various fields, and badminton is no different. Tiger Badminton Training Center is proud to offer an advanced AI multi-functional badminton training machine designed to elevate your game.

This innovative machine boasts a range of features to cater to beginners, intermediate, and advanced players alike. It acts as your personal badminton sparring partner, providing customizable training programs to fit your specific needs.

Key Features:

- 1. Intuitive Control: Choose from a smart sports watch, smart remote control, or mobile app for a user-friendly training experience.**
- 2. Intelligent Serving: Customize serving speed, frequency, horizontal and elevation angles to perfect your serve.**
- 3. Adjustable Height: The smart lifting system allows you to freely set serving heights up to 7.5 meters.**
- 4. Varied Training Drills: Program six types of cross-line drills, vertical swings, high clears, drops, and smashes in any combination to target specific skills.**
- 5. Personalized Training: The machine can analyze your movements and create training programs to help you standardize basic strokes, footwork, and improve hitting accuracy.**
- 6. Large Capacity Ball Cage: The continuous serving feature with a large ball capacity significantly improves training efficiency.**
- 7. Combined with the guidance of our experienced coaches, this AI badminton trainer can help you reach your badminton goals faster.**
