

# ALL YOU NEED TO KNOW QUICK GUIDE TO HELMET COMMS & CONNECTIVITY

## KNOW THIS:

All helmet Bluetooth® & MESH headsets on the market are capable of these 3 things...

PAIR TO A  
**PHONE**

Calls, Maps, Music  
& more

STREAM  
**MUSIC**

Play music wirelessly  
via Bluetooth®

PAIR TO A  
**GPS**

Like a Garmin  
or TomTom

Quality & Features will differ **greatly** between brands

## BUT IF IT'S A **cardo** IT HAS:

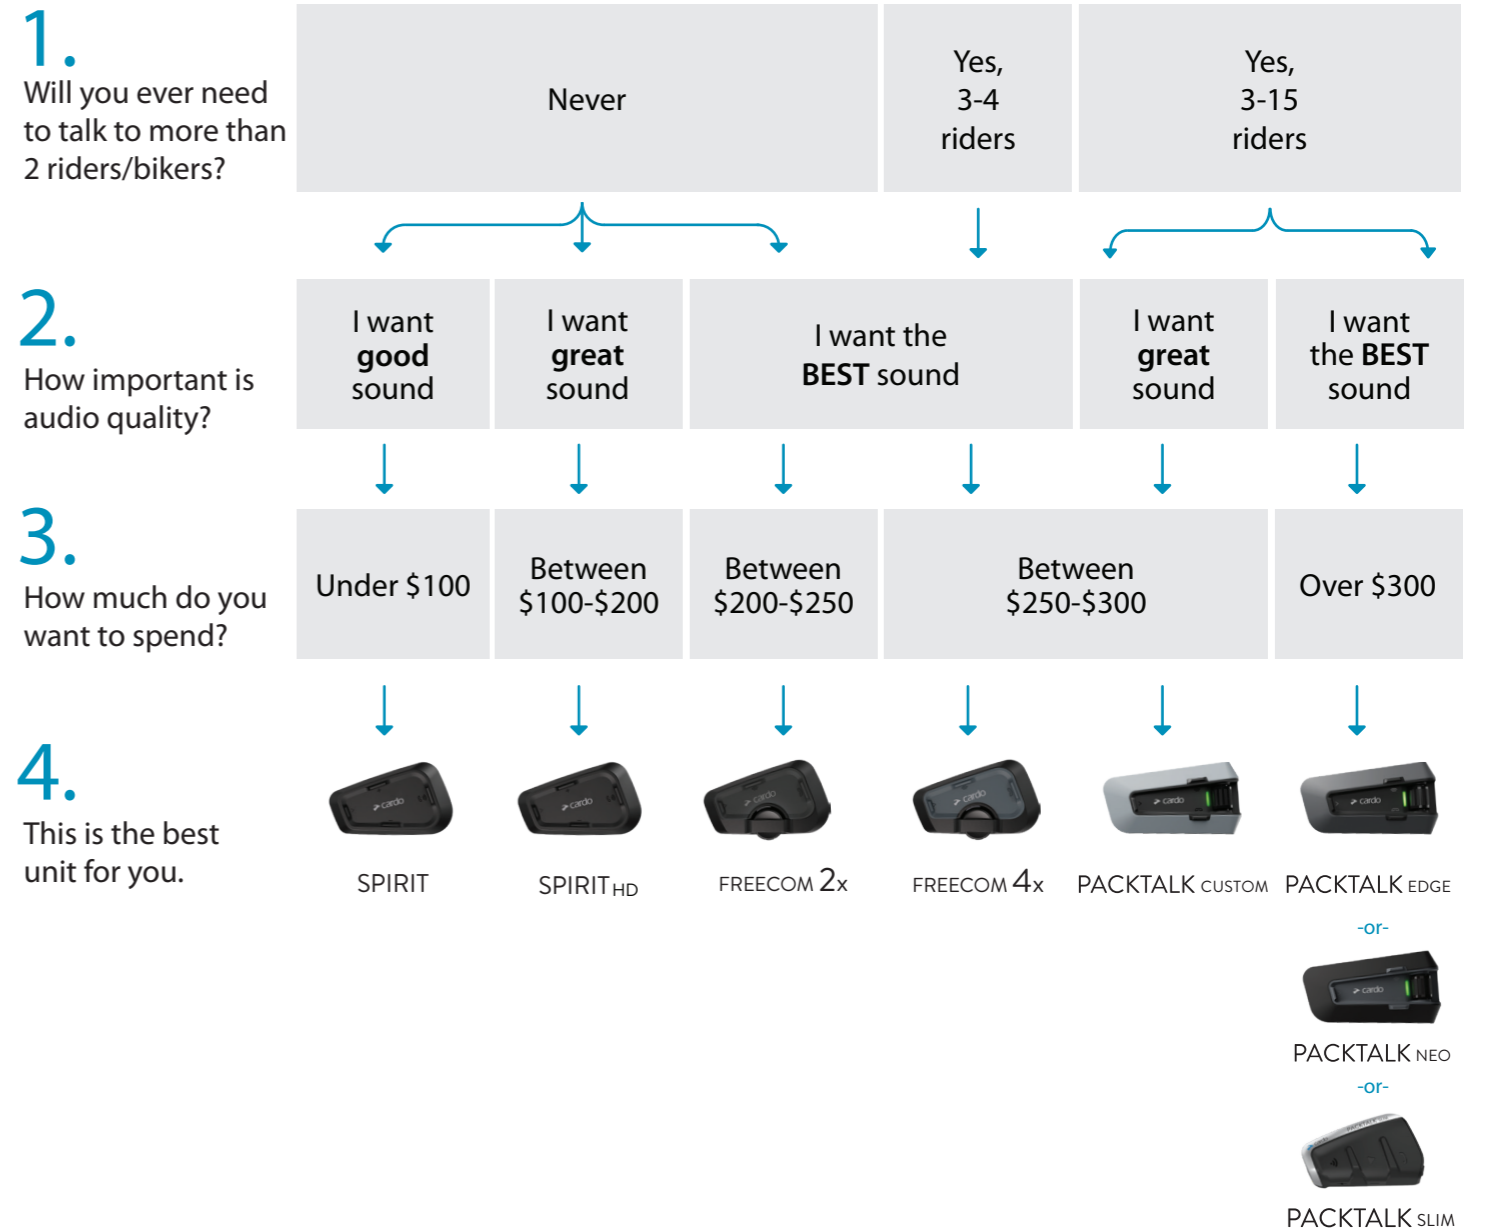

- ✓ A waterproof casing
- ✓ Unmatched sound
- ✓ Best in class wind noise suppression
- ✓ Cross-Brand Connectivity
- ✓ Automatic volume adjustment
- ✓ USB type C
- ✓ Fast Charging
- ✓ Bluetooth® 5.2
- ✓ Over The Air Software Update
- ✓ Cardo Connect App
- ✓ Tool-less installation
- ✓ Cardo Proven Quality
- ✓ 2 year warranty  
(3 year warranty for PACKTALK EDGE)

Cardo Connect App

# WHICH UNIT IS RIGHT FOR YOUR CUSTOMER?

ASK THIS: How are you planning to use your communicator?

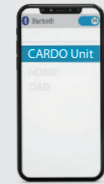

Dynamic MESH Communication technology has noticeable benefits even with just 2 people, and is drastically superior in groups of 3 or more compared to Bluetooth headsets of any kind or brand. Don't go with a Bluetooth headset designed for more than 4 riders (very dated tech).

# QUICK SET-UP GUIDE

On / Off

Pair Mobile Phone

Cardo Connect Mobile App

Pairing Cardo Units

**Cross-Brand Connectivity**  
Connect Your Cardo to Any Bluetooth Unit
