RE: USCG PROTOCOL AND COVER SHEET  
SPECIMEN ID NUMBER: 2070008172 LUCAS WELDIN

Please fill out a copy of the attached USCG Request Form for the above-mentioned Specimen Id# and either fax or email it back to me directly.

Please reference the below steps when requesting the additional paperwork for all Coast Guard drug tests that require it.

USCG Protocol Requests:

\*Upon completing a Federal urine drug test for USCG, when the donor requires additional US Coast Guard paperwork to be completed please fax or email the MRO copy of the Federal Chain of Custody form to me directly along with my "Company Ordering USCG Review" cover letter (see attached).

\*Please fill in the blanks on the cover provided and fax/email it to me directly with a copy of the Federal Chain of Custody form. We do **not** need the CG-719p form that the donor may have with them at the time of collection. The MRO will provide originals to you via your standard protocol.

**\*Please note if the attached cover is not received and/or not faxed or emailed to me directly with the CCF, the additional Coast Guard paperwork may be delayed or not completed at all.**

\*Once the result has been reviewed by the MRO, a copy of the result, CG719p and CCF will be sent via your standard protocol. The originals will be regular mailed to your office or the donor's address if it is provided. **Please be advised that under new regulations from the Coast Guard, they will no longer accept a dilute specimen. The MRO suggests a recollection and will not provide the paperwork for a dilute specimen.**

**\*Please note there is an additional fee of \$10.00 for the Coast Guard paperwork.** This will be billed to you at the end of the month in which a USCG test was completed. Please contact me directly with any questions.

Thank you,

Allison D.R.S. T: (800) 526-9341 Ext. 124 F: (516) 809-4124 E: [allison@drsmro.com](mailto:allison@drsmro.com)
