

SPRING BAY BOAT CLUB – TWILIGHT COURSES 2020 -2021

COURSE SETTING

Course setting is the responsibility of the RO. The standard courses are divided into four quadrants, based on the wind direction. For example, the usual choice in a northerly wind would be one of the “NQ” courses.

Note to ROs

Any shortened, or otherwise amended course, should avoid creating a mark rounding in excess of 180°. Explicitly direct which side that buoy be passed if it will be different to the general layout of the original course.

TWILIGHT RACES
