Nurse Practitioner and Physician Assistant policy update

Physician Performance LLC recently approved a process which requires nurse practitioners and physician assistants working at a physician's office that is affiliated with Physician Performance LLC, to sign a joinder to the Participation Agreement.

The purpose of the joinder agreement is to ensure the provider is held to the standards and obligations under Physician Performance LLC and our health plan contracts.

In addition, a nurse practitioner and physician assistant working in a Primary Care Practice and holding a patient panel with the health plans will be required to be credentialed and hold privileges on a Beth Israel Lahey Health Medical staff.

Please reach out to [Diana O'Malley](#) and [Leslie Levine](#) if you need assistance or have any questions.

A Wave 1 OneBILH Epic Update from BILH Information Technology

Radiology Images in MyChart

Beginning **October 1**, patients enrolled in MyBILH Chart will now have access to their Radiology images.

Due to integration with BILH's cloud-based image system, Ambra, patients will see a PACS hyperlink at the bottom of their result report once the exam has been finalized (see below link). The link will launch into a "Patient Friendly" viewer. From there, they can: view, download, and share their images. Patients will also have the ability to upload Cardiology and Radiology medical images they had acquired at other organizations.

Providers and clinical support staff should be aware that this could generate additional

questions about their results when patients view the associated images. The functionality is intended to reduce requests for physical image releases, and also expedite the image sharing process with other health systems.

For more information and to read the full issue, click [here](#)

BILHPN Monthly CDI coding training Series

BILHPN offers a monthly CDI Coding Training Series. Each session covers a specific medical specialty, with a focus on HCC (hierarchical condition category) codes and the potential for coding improvement. Sessions will be led by an instructor from the American Academy of Professional Coders (AAPC) and BILHPN's Director of Professional Coding and Education.

All sessions are eligible for CME credit.

Nephrology

Wednesday, October 23rd
7:00am to 8:00am
