

## IN FOCUS

Important updates for the provider community

### Spotlight on Orthopedics

As we continue with our specialty spotlight series, this month our focus is on our Orthopedic colleagues. Our clinical update is from Dr. Jason Pittman, Interim Division Chief of Orthopaedic Spine Surgery, Medical Director of Ambulatory Orthopedics, BIDMC who shared some [updates in orthopedic spine surgery](#). This is for informational purposes only, and this should not be considered medical advice. We would encourage you to reach out to Physician Performance or BILHPN orthopedic surgeon for further guidance on these topics.

To better inform our primary care physicians of the orthopedic services available to them within the Beth Israel Lahey Performance Network, we have asked each of our Orthopedic practices to identify their scopes and services as well as their appointment availability.

The chart below outlines orthopedic practices that are members of Physician Performance, along with a summary of services provided. Click [here](#) to see all orthopedics in the BILHPN network. If you need assistance finding an orthopedic provider for a particular patient, please reach out to us and we can connect you to the appropriate referral management contact. Click [here](#) for
