

## IN FOCUS

Important updates for the provider community

### Spotlight on Cardiology: American Heart Month

February is American Heart Month and a time when everyone is encouraged to focus on their cardiovascular health. February is also a good time to check in on your patients with hypertension, to ensure they are on a good path for blood pressure maintenance.

The chart below outlines cardiology practices that are members of Physician Performance, along with a summary of services provided and contact information for referrals. Click [here](#) to see all the cardiology providers in the BILHPN network. If you need assistance finding a cardiovascular provider for a particular patient, please reach out to us and we can connect you to the appropriate referral management contact.
