ETERNAL EGYPT

Arts, Architecture & Sacred Mysteries

February 5 - 20, 2020

Join us for a 15-night custom-designed exploration of the mystical land that laid foundations for all the Noble Arts. Nearly 5,000 years ago the earliest pyramid-builders along the Nile were sowing the intellectual seeds that flowered over centuries into the most momentous artistic, scientific and philosophical movements of Western Civilization.

Our itinerary will introduce you to jawdropping antiquities, to magnificent temples of the gods and tombs of the pharaohs, to the charms and curiosities of village life along the Nile in Upper Egypt, and to unparalleled collections in the country's most significant museums. In addition to special events, we've also included must-see visits to atmospheric historic districts with ancient mosques and churches, to memorable landmarks, great and small, and to bustling markets and recommended shops for local arts and handicrafts.

nasties influenced every aspect of life —and death— in early Egypt. At this UNESCO World Heritage Site you will be witness to the incomparable scale and grandeur of the planet's greatest open-air museum. The wealth of monuments, some more than four thousand years old, extends along the Nile from the resplendent temples on the east bank to the west bank necropolis and beyond. Excursion highlights include Luxor Temple, the massive temple complex of Karnak, wondrously decorated tombs in Valley of the Kings, Queen Hatsheput's iconic funerary temple, the towering Colossus of Memnon, and the captivating but lesser known Osirion (Temple of Osiris, god of the underworld) at Abydos and the cult center of Hathor, goddess of love, at Dendera.

At Esna, on the west bank, board our dahabiya, a reproduction of the traditional wind-powered, two-masted river craft that gave passage to visitors in the late 19th and early 20th centuries. Rendered obsolete in favor of high-capacity multi-deck river ships, dahabiyas disappeared from the waters of the Nile for nearly 100 years but are being built by hand once again to deliver an evocative, authentic sailing experience to a fortunate few.

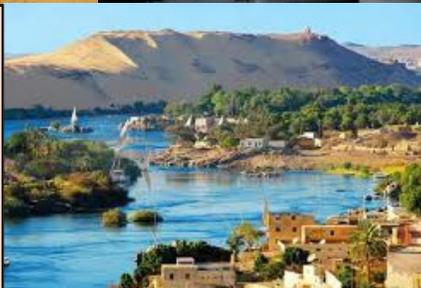

This thoughtfully orchestrated journey will be conducted at a luxe level of creature comforts, offering premier 5-star hotels and dining choices, certain to please discerning travelers of all cultural interests.

Fly into Cairo for a welcomed overnight rest stop before continuing to Luxor, once the Upper Egypt capital of Thebes, dating from 3200 BC. Here, a pantheon of gods and goddesses and powerful pharaonic dy-
