Stalker anomaly mod guide

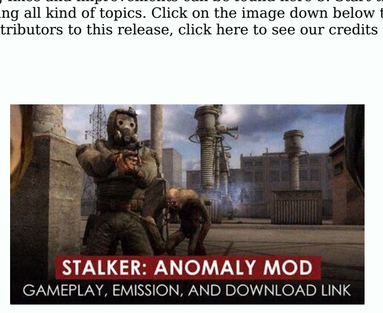

S.T.A.L.K.E.R.: Anomaly - Installation und die besten AddonsBy ApocryphoxACHTUNG: ES GIBT EINE NEUE VERSION. möchte Euch nach meinen beiden Guides zu "Autumn Aurora" und "Misery+Gunslinger" nun meinen nächsten Guide vorstellen, der sich einzig und allein auf die unglaubliche Modifikation "Anomaly" spezialisiert. Hier erfahrt ihr, was "Anomaly" ist, wie ihr es installiert, was ihr dafür benötigt, was die besten Addons für diese Mod sind und was es Euch bietet.
Ich wünsche Euch viel Spaß beim Guide. Just a simple but good bodycam preset inspired by unrecord ;) For all users it is very important that you install the modded exes for the perfect color grading and the installation is also simple, just install reshade dx 10,11,12 as usual and then put the files in the bin folder where your reshade is ;) New npcs and changes to the travel locations of the guides. EFP/GAMMA COMPATIBLE If you play GAMMA, i recommend checking the #mod-only-addons channel since the modpack updates frequently, thus sometimes breaking this addon, so instead of updating everytime it breaks, you can find latest version there Leave suggestions in the comments!Use Mod Organizer 2 to install this addon. Make a save before installing this addon. If you install mid playthrough, select option 6 to install the script to make the new NPCS spawn Edits are in english text and russian text. Previous UPDATE CHANGELOGS: Changelog for guides - Pastebin.com Important Notes: Version 1.5.1 is a stand-alone and full repack. You don't need older Anomaly updates, you don't need to install it on other stalker games. Saved games from version 1.5.0 Beta are compatible and you can continue your journey in version 1.5.1 Older addons that are not updated to be compatible will very likely cause crashes or other problems When new Anomaly updates are released, addons might break or cause crashes. It's the addon authors responsibility to update their addons. bebopi About S.T.A.L.K.E.R. Anomaly The stand-alone mod S.T.A.L.K.E.R. Anomaly 1.5.1 aims to be the most stable and customizable experience for fans of the S.T.A.L.K.E.R. games. It's powered by the Monolith 64-bit engine, a custom fork of the X-Ray engine. Players can choose from a variety of ways to play the mod. juzuhuviruzaci Play story mode with 4 chapters of interesting quests, sandbox mode if you prefer to make up your own story, or the combat intense warfare mode where factions fight for influence and control over different areas of the zone. Anomaly is also highly customizable, play it the way you like and have the most fun. There are hundreds of settings that can be tweaked in the options menus and for more advanced changes, there are over 1000 addons for Anomaly that were created by other players to change the experience in more advanced ways. Highlights in version 1.5.1 since version 1.5.0 Beta 3D PDA Companions wheel, with a new inventory management button when you aim at a companion Companions trade UI is changed to match default inventory Improved Ecologists model variation. Mercs and Loners guiding Scientiest now wear something that represent Ecologists instead of having armors identical to their factions. Inventory items highlight now works in all item containers Improved advanced video settings layout Optimized and cleaned up data files to reduce total size, mostly by removing unused assets Engine inventory is remade completely in lua, for full control over its functionality 3D UI for RF and Anomaly detector New and improved psi damage system Hundreds of bug fixes and optimizations to improve performance and stability Features: 3D PDA One of the most popular changes in Anomaly 1.5.1 since Beta 3 is the addition of a 3D PDA. When holding the PDA in the lowered position, stalkers can track their position on the map while walking around. This will make it easier to navigate towards map markers like hidden stashes or mission objectives. And to interact with the PDA it can be held closer to your eyes so it will fill almost the whole screen and the text on it is more readable. If you prefer the old style 2D PDA we even added an option to switch back to it, but real stalkers would not do that. Story "Lost to the Zone" Storylines has been added to 1.5 update, with its three installations: Part 1: Living Legend: a famous stalker has returned to the Zone. Pursue him in order to obtain his invaluable knowledge. Part 2: Mortal Sin: a sinister faction emerges from obscurity to take over the Zone.

A new set of achievements have been added to game as well. Atmosphere Every single level has been reworked to help convey the feeling of an overgrown, relatively undisturbed Zone. The weather system is improved and expanded to offer variety and atmospheric feel. Shaders and visual effects have received major improvements, such as the new gasmask with nice refractions, cracks react to light and raindrops.
In addition to better tone mapping, water reflections, new wet surface shaders and more.
A-Life The A-Life received major changes. For a start, stalkers travel more frequently and report their activity in the other parts of the Zone. The Zone is constantly changing, so are the anomalies and mutants. Dynamic world items are everywhere around you, even in places you might not expect. Each playthrough will carry something different for you to look for. Explore the Zone, and you might find something nice during your journey. Special characters and common stalkers offer more unique tasks, along with expanded dialogue. Stalkers can sell and buy items from traders, or even visit local mechanics to upgrade their favorite weapons. In addition: Loners, Mercs and a few others can offer escort services for a fee. Many special characters also have connections around the Zone: you can offer them a payment to bribe an enemy faction, temporarily preventing them from attacking on sight. The disguise system has improved. Your equipment and behavior affects the way stalkers observe and remember you. And a new experimental feature will make stealth kills more viable to kill enemies sneakily.Your rank and reputation counts. Exceptionally high or low values respectively will attract attention, possibly even from your enemies... Download and Installation: Update 1.5.1 is FULL REPACK and STAND-ALONE.
