

Family Fun Challenge
Hosted by your Family Workers at Busy Little Bees!

Our family fun challenge this month is to have each child make and decorate a heart shaped pizza! In school, your child is learning about Valentine's Day and reading several books with corresponding activities. Active learning is at the center of the High Scope Curriculum. It is the foundation where young children gain knowledge through their natural play and interactions with the environment, events, and other people.

This month, Busy Little Bees P.A.M is pleased to announce a collaboration with Pizza Masters located at 532 Broadway, Bayonne, NJ. They have been in business for more than 40 years, providing home-style cooking in a warm and relaxed atmosphere. Pizza Masters is generously providing the winning prize this month of four gift cards.

In support of the High Scope Curriculum, we are providing you with some skills to bring the High Scope curriculum home. The High Scope Curriculum's fundamental approach is an active learning model with five active ingredients: Materials, Manipulation, Choice, Child language & Thought, and Adult scaffolding.

While decorating their heart shaped pizza, students are encouraged to incorporate their own ideas. We have provided materials and encourage you to use any you choose! While you are making the project with your child, we encourage you to talk about the project and engage in a conversation that supports their understanding of creativity and creation.

Any crafts handed in after the 12th will be hung in school but will not be eligible to win the Prize of the Month.

February's Theme: **Love**

Craft Due: **February 12th**

Winning Criteria: **Most Creative**

Prize of the Month: **Gift card to Pizza Masters**
