

Family Fun Challenge **Hosted by your Family Workers at Busy Little Bees!**

This month we are celebrating our 3-year anniversary! Our family fun challenge this month is to have our students draw our school and show the things they love about it!

Active learning is at the center of the HighScope Curriculum. It's the foundation where young children gain knowledge through their natural play and interactions with the environment, events, and other people. In support of the HighScope Curriculum, we are providing you with some skills to bring the HighScope curriculum home. The HighScope Curriculum's fundamental approach is an active learning model with five active ingredients: Materials, Manipulation, Choice, Child language & Thought, and Adult scaffolding.

We have provided materials and encourage you to use any additional items you choose! The students can arrange the materials in any way they would like. Having a choice of materials allows the children to use their imaginations to create their work. While you are making the craft with your child, we encourage you to talk about the project and engage in a conversation that supports their understanding of creativity and creation.

Any crafts handed in after the 15th will be hung in school but will not be eligible to win the Prize of the Month.

May's Theme: 3-year Anniversary Celebration

May's Criteria: Biggest Celebration

Craft Due: May 15th

Prize of the Month: 2 winners will receive 4 general admission tickets for Liberty Science Center!
