Welcome!

WELCOME TO OUR 2024 PRODUCTION SALE,

Since we started in the seedstock business our customer success is our success. As cattle prices and input costs vary, we strive to raise cattle that will allow you to succeed. WCS adds the most elite genetics annually for your success. Through all of this we have made great friends that are more like family. WCS takes our role in your success very seriously. If you have a problem with one of our bulls or females, we want to be the first to know so we can make it right.

We feel this is the strongest set of bulls with great genetic opportunities for you. For the first time we are offering a set of bred heifers that are out of the heart of the replacement pen. WCS emphasizes in raising cattle that will perform in every facet of the industry. Whether it is the cow calf operation, yearling operation or selling your calves on the rail. We take great pride in the advancement of our herd to add value and advancement in your herd. We strive to raise great cows with good dispositions, great feet and legs superb udders and offspring that will add performance and carcass quality to your herd. We don't take this task on with a light heart.

We had the privilege of exhibiting the Grand Champion Percentage Pen of 5 bulls at the NWSS along with the Reserve Champion Purebred Pen of 3 heifers! Again this year, all three females were ET sisters out of the 6019D donor cow. There are several opportunities to add her genetics throughout the sale!

Thank you to all of our friends and family that helped us throughout the year. Jock, Skye and I are very proud of our cattle. We treasure our friendships with all of you and our future friendships. Stop by and look at the bulls and heifers prior to the sale. We look forward to seeing you all sale day and serving you a great beef dinner prior to the sale.

Sincerely,

Jock, Brenda and Skye

DIA - Denver, CO

4 HR 30 MIN to Crawford, NE

PHOTOGRAPHY - Cam Behmer

TERMS - Terms of sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed.

ANNOUNCEMENTS - Announcements made sale day and from the auction block take precedence over printed material in this catalog or other printed material associated with this sale.

LIABILITY - Neither owners nor sale management assume any liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

ANIMAL RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury and will loaded according to purchasers direction. Insurance will be available sale day.

HERD HEALTH - The Western Cattle Source herd is on a complete mineral program year round. They have been vaccinated with modified live Vista 5 VL5, MultiMin 90, 7-Way, Endovac and Guardian. Poured with Clean-Up in the spring and given Dectromax at pregnancy checking time.

Bulls were given 7-Way and MultiMin 90 at birth. At branding they were given Inforce, 7-Way with Somnus and Once-PMH In. At preconditioning they were given Once-PMH In, 7-Way with Somnus and Bovi-Shield Gold at weaning, Dectromax and Nasalgen 3 PMH, then later poured with Clean-Up. Bulls were then poured again with Ivomec when they were semen tested. The bred heifers are under the same herd health and vaccination protocol. They have also received their Guardian shots.

TRUCKING - Shannon Nagel: 319-404-5904

ULTRASOUND TECHNICIAN - Chad Gordon, Ultrasound Technologies - 580-678-1918

*I*NNOVATION — AgMarketing, LLC —

Northwest Nebraska is one of the country's most ranch-friendly regions with native forage that is very dense nutritionally and plentiful underground water resources. It is certainly a host to generational ranch families that are dedicated stewards of the region and its resources. They know and understand the value of what they have to work with and how to sustain and manage to flourish and survive to leave it better for the next generation. However, it can also be one of the most challenging and harsh environments at any given time of the year as well. The winters can be relentless with extreme cold, high constant wind speeds, and major snowfall. Those winters can be followed up with the hottest and driest of summers with certain fire danger as well. The people of the region are as tough as their surroundings and those who are seedstock providers within the region are some of the nation's very best stockmen and women.

Jock and Brenda Beeson are strong-minded, tough, hard-working people that know how to care for the land and stock. They have the best understanding of the value of their resources with the stock selected to mold into their environment and withstand the extreme pressures of their surroundings. Annually, the firm invests in breed leading herd sire prospects that get introduced into the breeding program from the nation's leading competitive SimGenetic seedstock providers. Genetic improvement is enhanced by the strong selection pressures produced by the region and the resources. The cattle from Western Cattle Source are built to work, hustle, survive, and acclimate. Stock from this outfit will respond, convert, and gain when extra feed resources are made available, but they will maintain and thrive when supplemental resources are limited or short as well.

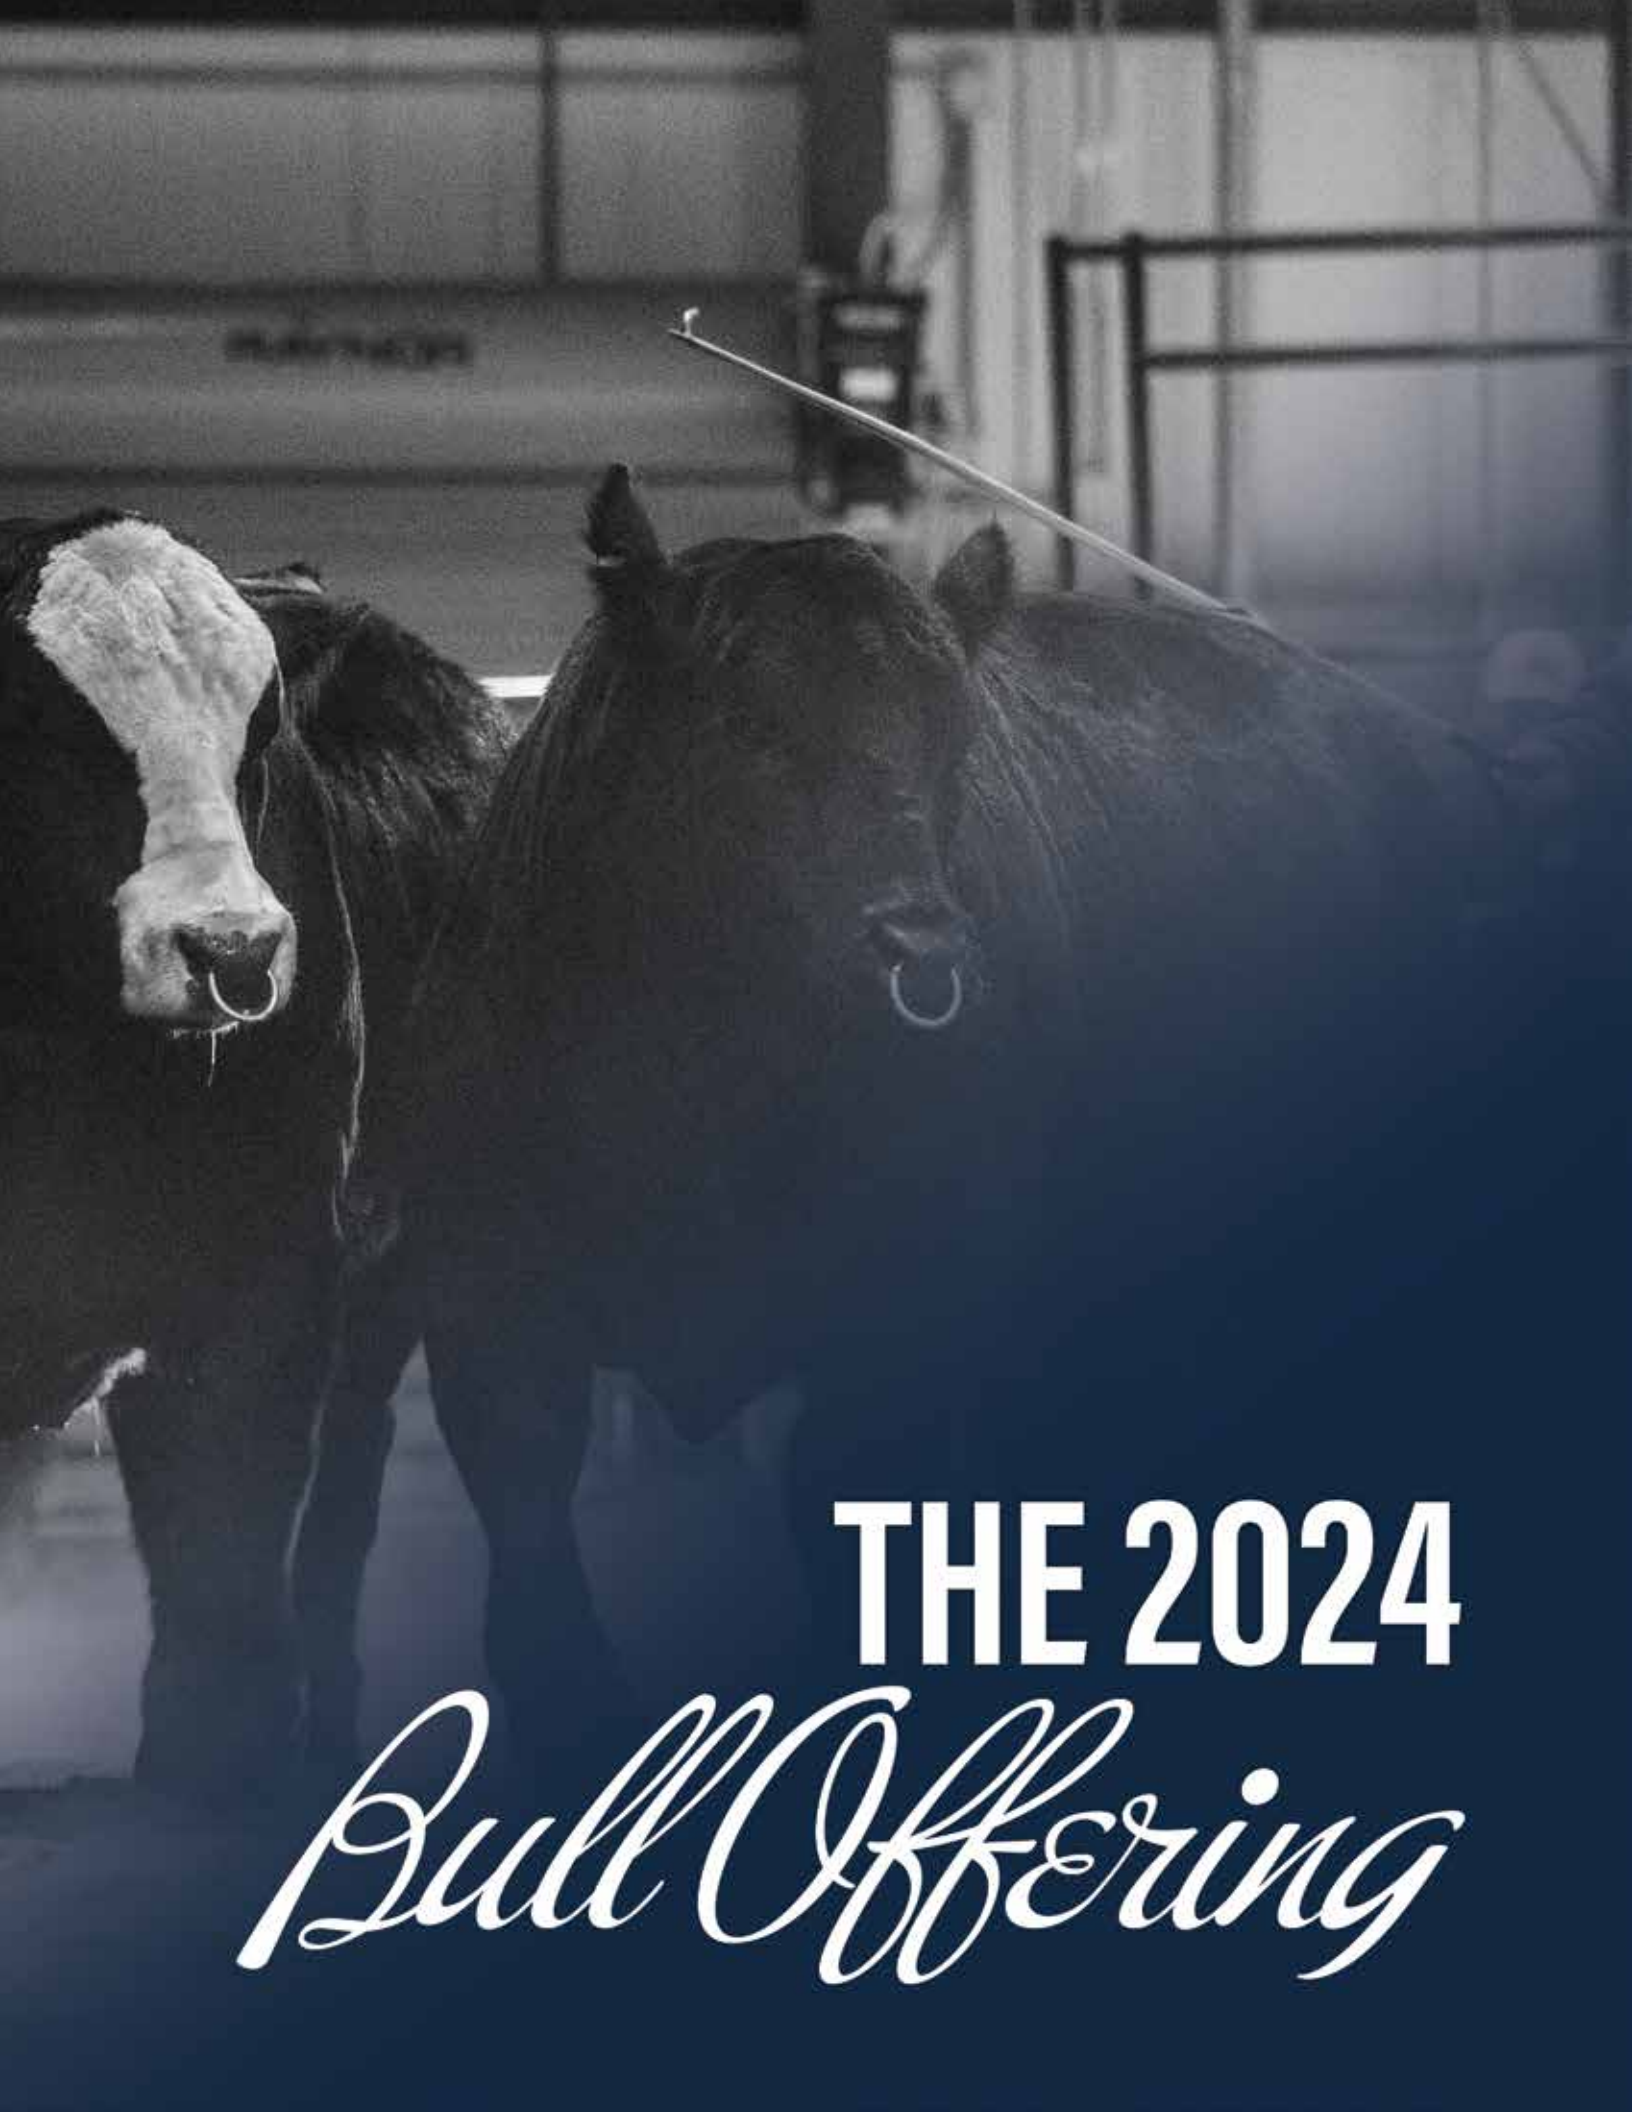

Western Cattle Source maintains a repeat customer base that continues to grow each year. The product is built to not only fit the region but to acclimate rapidly to others as well. Jock and Brenda are very appreciative of their customers and do whatever is necessary to protect and grow the business relationship. We hope to see each of you on the 21st of March, but if you cannot attend, we strongly encourage you to reach out to the Innovation AgMarketing team for any questions or information regarding this elite, western ranching operation and the stock within the covers of this sale book.

Enjoy the cattle,

Graham Blagg *Jered Shipman* *Tim Anderson*

YEARLING BULLS

- Loads of quality in this W/C Express Lane 29G yearling. He's an attractively made, soggy middled rascal with a good set of feet and legs.
- His 714 lb. WW ratios out to a strong 108 among his contemporaries.
- Top 5% MWW, top 10% MILK, top 15% WW, top 20% YW, REA, top 35% ADG.
- Homozygous black, homozygous polled.

- Half-blood SimAngus with added extension and dimension. He's full of red meat and looks nice when you study him in the pens.
- Hits the scales at 727 lb. at weaning.
- Unique twist to the bottom side of his pedigree, working in the Angus sire PVF Surveillance 4129.
- Top 20% WW, MWW, top 25% YW, MILK, top 40% TI.
- Homozygous black, homozygous polled.

- Here is a young herd sire prospect that time and growth will be on his side.
- Solid 683 lb. weaning weight on his performance sheet.

SPECIAL THANK YOU - CLEARWATER FEED & GRAINS

Josh Mlnarik - 51415 851 Road - Clearwater, NE 68726

The bulls at Western Cattle Source are developed on a pelleted supplement designed to be fed in combination with ranch-raised hay. The goal is to deliver a low calorie but digestible diet that has a proper amino acid balance with extra detail given to the amount and the ratio of all vitamins and trace minerals essential to superior performance. The result from this program are bulls that are hard muscled and durable with big testicles that consistently pass fertility evaluations with flying colors. Be confident in the livestock raised at Western Cattle Source to fulfill all of your seedstock demands. -Josh Mlnarik

WESTERN CATTLE SOURCE

YEARLING BULLS

- 3808L is a cool red baldy prospect with added muscle and dimension. If red is your color, this guy is worth a look.
- His 787 lb. weaning weight on the scales is one of the better measures in this yearling group.
- Calving ease genetics with added carcass cutability.
- Top 10% BW, MCE, top 15% CED, REA, top 45% API.
- Homozygous polled.

BAR CK RED EMPIRE 9153G

WESTERN CATTLE SOURCE

BRED FEMALES

Lot 77

- Angular, yet carries plenty of substance. You'll wish you had a field full of deep bodied, well-balanced females like 2105K.
- Calving early spring to get herself into production right away for the new owner.
- Top 45% MILK, DOC.
- *Due to calve 3/21/24 to Hanel's Gunpowder J1018 (ASA: 4004218) or WCS Instinct 03H (ASA: 3763651)*

FELT TAKE CHARGE 101H
Sire of Lot 77

Lot 78

- 1518J is gorgeous on the profile with great udder development for a young female. Appreciate the length of body this female has in such a quality package.
- With her calving date, she will be in production by sale day. Looking forward to the MR W/C Trifecta 975J calf she's carrying.
- Impressive growth and maternal number profile.
- Top 10% MWW, CW, top 15% WW, YW, REA, top 20% ADG, top 25% MILK.
- *Lot 78A: 78 lb. Bull Calf sired by MR W/C Trifecta 975J born 2/14/24.*

WESTERN CATTLE SOURCE

BRED FEMALES

- Here is a future power cow. Loaded with muscle mass and shape, she's the kind that could raise your next herd bull.
- Here genetic figures read with a balance of calving ease, solid growth, and carcass merit.
- Top 25% REA, top 35% CED, CW, top 45% BW, WW, YW, MCE.
- *Lot 79A: 67 lb. Heifer Calf sired by Hanel's Gunpower J1018 or WCS Instinct 03H born 2/23/24.*

- It's hard to miss a beautiful baldy female like 242K. Spring of rib and perfect maternal balance in her type and kind. She has a bright future in production.
- Should have a RUST Night Watch 5H calf by sale time. Be sure to check out her udder!
- Top 20% MILK, CW, top 25% MWW, top 40% WW, YW, REA.
- *Due to calve 2/25/24 to Rust Night Watch 5H (ASA: 3586416)*

- A rare and unique opportunity to tap into the most prolific female on the ranch! LRS MS Elevate 6019D has positioned herself as one of the most dominant females in the Western Cattle Source breeding program. A proven producer that has worked year after year to any sire option that we have thrown her way!
- 6019D is the dam of the 2023 NWSS Reserve Grand Champion Pen of Three Purebred Simmental Heifers. We then sold choice in those three females in our 2023 Production Sale where WCS Ms Cobra 1808J sold for \$25,000 to Creighten Werning and WCS Ms Shelby 1806J sold for \$10,500 to Cash Lehrman.
- She did it AGAIN in 2024, producing a flush of females sired by NGBD Structure 34D that were selected as the Reserve Grand Champion Pen of Three Purebred Heifers! A full brother to this winning pen of females sells as lot 28.
- **TERMS OF FLUSH:** Buyer will receive a minimum of six transferable embryos and two 60-day pregnancies. On all embryos produced above 10, buyer receives odd-numbered embryos, seller receives even-numbered embryos. Buyer pays flush charges, semen cost and all freezing and/or transfer fees, with all freezing costs over six embryos being split odd/even between the buyer and seller. Western Cattle Source will provide semen on any bull in the herd sire battery at no additional cost.

PACKAGE 100A - Mated to OMF JOURNEYMAN J24 (3 conventional embryos)

- Elite genetic opportunity sire by one of the HOTTEST Purebred bulls in the business, the \$110,000 OMF Journeyman J24! This mating is destined to be nothing shy of incredible!
- **Guaranteeing one 60-day pregnancy if transferred by a certified technician.**

PACKAGE 100B - Mated to WHF GREATER GOOD J45 (3 conventional embryos)

- A fresh new Purebred mating sired by WHF Greater Good J45, a son of the \$120,000 KCC1 Exclusive 116E that is backed by the famed WHF Delilah 45D donor.
- **Guaranteeing one 60-day pregnancy if transferred by a certified technician.**

PACKAGE 100C - Mated to CHESTNUT FORCE 482 (3 conventional 1/2 SM 1/2 AN embryos)

- A top shelf half-blood SimAngus mating by the \$130,000 Chestnut Force 482, an Angus sire that we invested in last year. He ranks among the elite 1% of the Angus breed for WW, YW, CW, and REA; top 10% \$B and \$C. He is a true performance standout!
- **Guaranteeing one 60-day pregnancy if transferred by a certified technician.**

- MR W/C Trifecta 975J is the homozygous black and polled SimGenetic superstar that we selected from the 2022 Werning Cattle Company Production Sale! He has matured into one of the most incredible herd sires that has ever walked the pastures of Western Cattle Source.
- A true calving ease specialist that boasts an impressive 16.9 CE and -3.1 BW EPD, while still spreading to a triple digit YW EPD. He is backed by one of the most prolific cow families in Emery, South Dakota in the legendary DW Susanna 763T matriarch.
- The sire of "Trifecta" is the leading calving ease option at Werning Cattle Company for the past several years, Bar CK 4119B 8102F "Triple Threat".
- He is a true phenotype standout that is one of the most physically impressive beef animals we have ever laid eyes on!
- "Trifecta" has and will continue to see heavy service at Western Cattle Source and Werning Cattle Company moving into the future!
- Owned with Werning Cattle Company.
