

Hot Foxy Ladies

NOVEMBER 27, 2021 :: 6 PM CST

WEST POINT LIVESTOCK AUCTION :: WEST POINT NEBRASKA

ONCE again on behalf of the Foxy Lady group, I welcome you to our 9th annual Production Sale. We all lived in a world a year ago that definitely no one had ever seen before and I hope we don't have to go back to as we continue to struggle still today. One bright part is that the agricultural world has become stronger than ever, as the world still depends on us every day to put meals on the table. Once again it has been a hot dry year and has sure made some things a little more interesting, but I know with the limited amount of rain we have had, we are overwhelmed with the great yields and prices that are sure better than the last few years. I think this just shows why genetics are so important and how it has changed these hybrids. I know it stays true in the livestock industry as well. I know with extensive AI and ET work, we are improving at a rapid pace and are making better livestock for all spectrums of the industry.

It gets harder every year to say this is the best set ever, as everyone says that and I'm very proud of them as a whole, but I'm here to tell you my guest consignors have stepped up their game by bringing a whole new level of quality. I'm honored they give me the opportunity to help them market them. I feel that all of us in this sale work well together and have a lot of the same goals in mind in what we want to raise and how we stand behind our programs. I know we are all long time members of the Simmental association and Simmental runs in our blood, not like many that jump from breed to breed for what's hot and popular. This is our roots and what we're going to continue to raise Simmentals for years on end.

When talking to many other breeders out there, I think the Simmental breed is getting split on where the preference lies between the show ring and real world values. As hard as it is to do both ends of the spectrum, I would say we as a group have done a great job of trying to keep the combination of both. With the preference of raising cattle that have done well in the show ring and yet I know we all have successful bull sales.

I hope to see everyone in West Point on Saturday night as I feel it is always a great night to see old and new friends and a night we try to make everyone feel warm and welcomed. I know all of us involved in the sale will be happy to give you an honest and straightforward answer on any question you have about the cattle, just ask us.

James Felt

Nick talked me into using Data Breach a couple years ago when we saw him in Denver. I have sometimes been skeptical of using show bulls but he definitely has been a great sire for me giving me my two top selling bulls a year ago in my bull sale. Plus he is making some really good females as well. This heifer's mother every year has a top notch calf and even had my top selling bull a few years back. To find a purebred with this much look and mass is hard to do. This one will make money for their new owner.

When people who ask what cow started our interest in the embryo work it is without question it is this cow's dam, "Lady Bear". She was a cornerstone for our operation for so many years and this heifer originates back to her. Just look at her bloodlines and she will immediately grab your attention then study the picture. 515H ties her long neck smoothly into her shoulder, evaluate her easy keeping rib shape and that back leg that is ready to travel for years and miles ahead. Heifers like her, backed with the genetic profile she has, instantly make their way to the front pasture so that you can show everyone and brag to all your friends about.

In our herd, Delores has few favorites but this heifer's dam is definitely one of her favorites. Ever since her first calf hit the ground, she has been a no miss, consistent producer. We have never offered a female out of this cow until this year--because Delores is that protective of this cow family. Maybe it's because she hasn't realized I snuck her in the sale but before I get in to much trouble bid fast. No matter the mating--if she is even half as good as her mom it will click.

While picturing this one, she got Brad Hook's attention right away and I understand why. Her grandam was my selection out of Dybdal Charolais herd and instantly knocked it out of the park in her first flush. The resulting progeny had so much success from champion colored division at California State Fair to countless jackpot and county fair winners in Nebraska. Her dam is probably the one that got overlooked and I'm so lucky it did or else I wouldn't have this one. This is what more club calf momma's need to be and look like. She is soft on the ground and cool necked without sacrificing the mass and dimension that this heifer possesses. Make sure to get that arm up fast and often on this lot. Colored cattle are hot and she has the foundation to make you look really smart in future progeny.

This one deserves a book to be written about her. She is a full sister to the Curtin heifer that did a lot of winning, a few years ago. I was lucky enough to sneak away from the farm and see this heifer become champion at Sioux Falls Stock Show and purchase her. Purple bred for the new owner that will raise fancy calves. Whatever pasture she goes to make sure it's close because you will want to see her and her future calf quite often to give you that warm fuzzy feeling.

Good friends of mine, Craig and Margo Reeson, trust me to take a few heifers for them every year, develop them and breed them for their program. Of course, I get like a 100 percent conception rate for them. I managed to sweet talk them into letting me sell this one, as she is as sharp as any heifer in the sale. Her sire is truly a great Broker son and goes back to the great Lucy cow of Dunk's. Their daughter Journey showed a half-sister this last year and probably would be show heifer of the year in Nebraska if they actually had something like that.

 I didn't want to sell this heifer but after a long discussion James convinced me to put this phenomenal female in the sale. She is an ET daughter of our 6019 donor cow that was our choice of the 2016 Lassle Simmental open heifers. This cow breeds back every year after we flush her each spring, while averaging 28 eggs per flush. 6019 is easy fleshing, has a picture perfect udder and is sound as a cat. Fertility is bred in here. Her flush brothers and sisters are just flat good and consistent. As an added bonus, she is sired by W/C Mainstay, who is doing an outstanding job for us and Warnings. 0410H is made just like her mother-- deep bodied, broody and massive in her design, while staying very clean and long fronted. She is so free and sound moving. This is one to build a program around for sure. Vet called her bred to calve mid-March to W/C Rest Easy, who is owned with Select Sires.

SELLS AI BRED - DUE 02/18/21

This blaze faced female is flat good. Look at her femininity, length of body rib shape and muscle mass. Plus she stands on some of the best feet and leg structure around. This girl could easily end up in the donor pen. Her mom and grandmother have just been awesome cows for us. Definitely hard to part with this girl, but we are committed to bringing our best. Vet called her AI bred, due February 18 to W/C Rest Easy, who is owned with Select Sires.

As smart as Nick and I think we are, we both missed this one. She was hauled to our far away pasture at Bloomfield, so she literally got weaned and broke a week before pictures. To me, she is a really good show heifer that is so good in her lines, flat in her shoulders and nice front--just how the show ring wants them today. She may be the sleeper of the sale.

This is one you truly need to see in person, as she's way better than her picture. We as breeders are always wanting to try something new. We try to recreate the wheel and sometimes we step away from what's just good and works. Lockdown has worked for us and numerous herds across the country for a long time. This one will show and go on to be a great asset to any herd.

 sire. WYNNE IN DOUBT dam. MEYER GRANDDAUGHTER

Where to even start on this one as she's so good. She is wild colored, just outside the box of being anything common and nothing like any other animal you see every day. Many judges have gone away from a lot of muscle but muscle starting to come back, she might be a little much for some--but to me she is what a true market heifer should look like. It's really hard for me to want to sell this one, as she truly could be a true breeding piece and donor someday. Her mother has raised sibs and maternal sibs that have sold for 40-60 thousand and produced many winners--most recently a division winner at the Iowa State Fair for the Wess Paul family and many time champions for the Walker family a couple years ago.

This is a Foxy Lady success story. Her dam was purchased last year and this calf is the result of it. Nice, deep red brockle, headed heifer that has the bloodlines that you only dream of for your program.. She originates from a Bankroll Stop 'n Stare cow and sire is Perseverance. This royally bred heifer won't just rest on her bloodlines to make her click as she was already selected division champion at Nebraska State Fair. Show her, then watch her become your next donor, because the sky's the limit with this special heifer.
