Other transactions that can help, if you are allowed access, are SDMO, SE16 (tables) and SE93. I am not allowed access so you are on your own and are we not all on our own? Is not life's journey a fundamentally singular event? Who is truly with us at birth? At death? And in between? Sure, we can pick up some fellow travelers, and enjoy their companionship for a time, but in the end, we are all really alone, and we need to accept that if we are going to get SAP implemented on time and on cost.
