Reach Beyond™ Traditional Portfolio Management with the COMPASS-X Tool Suite

By Horizon 51

Leveraging decades of NASA experience and award-winning expertise, COMPASS-X delivers an advanced portfolio management system with one goal in mind: Mission Success.

COMPASS-X is an ML/AI enabled tool suite that aligns corporate strategies with activities, investments, and results. With real-time insights into strategic progress and performance, you can now empower data-driven decisions and strategic leadership at every management level.

Strategic Alignment:

COMPASS-X enables every project and activity to align with your overarching corporate strategies, providing transparency across all management layers.

Enhanced Decision Making:

Access simple, actionable, real-time data and metrics-driven insights to make informed, strategic decisions.

Plug-In your PMO:

Seamlessly integrate with existing PMO tools and processes, reducing disruptions and ensuring hassle-free adoption.

Efficiency:

Streamline project and program reviews, saving time and providing consistent reporting across departments.

Flexible Framework:

Leverage COMPASS-X Tools—like *Clarity* for executive status, *Command* for program management, *Catalyst* for strategic planning, and *Unity* and *Fusion* for collaboration and integration—or all together as one seamless system.

Who should use COMPASS-X:

Executives: For strategic focus.
Program Managers: For tactical command.
Project Managers: For efficiency and simplicity.
Anyone: For enterprise transparency.

Features

- ☑ **Top-Down / Bottom-Up Structure:** Gain awareness at one or multiple levels. Portfolios? Programs? Projects? Track what you need. Scale when you're ready.
- ☑ **Compliant and Secure:** COMPASS-X uses your own enterprise tools and cloud environments. Save big by leveraging the investments you've already made in Microsoft 365 licenses, training, and security.
- ☑ **Stay Aligned with OKRs:** Monitor strategic progress using Objectives and Key Results to maximize ROI and net-profit success. **K**now which activities are achieving goals – and which are not.
- ☑ **Automated Reporting:** Save time and auto-generate real-time status reports for programs and projects, with the ability to create presentation-ready charts instantly.
- ☑ **Traditional KPI Performance Tracking:** For each portfolio, select important Key Performance Indicators like Cost, Schedule, Earned Value, Risks, and Resource Utilization to provide clear insights and drive strategic action.

Get Started with the COMPASS-X Tool Suite today!

Transform your portfolios, programs, and projects and achieve success using COMPASS-X.
