

THE

Glow

PROTOCOL

Elevated Skin. Strengthened Cells. Lasting Glow.

A virtual wellness session on the science backed approach
to younger skin, stronger cells, and lasting radiance.

Every year that passes your body works a little harder to keep up.

Your cells recover slower.
Inflammation builds quietly.

Your skin, joints and energy start to show it.

This is not just “aging” but **cellular breakdown.**

It starts earlier than you think.

The Problem

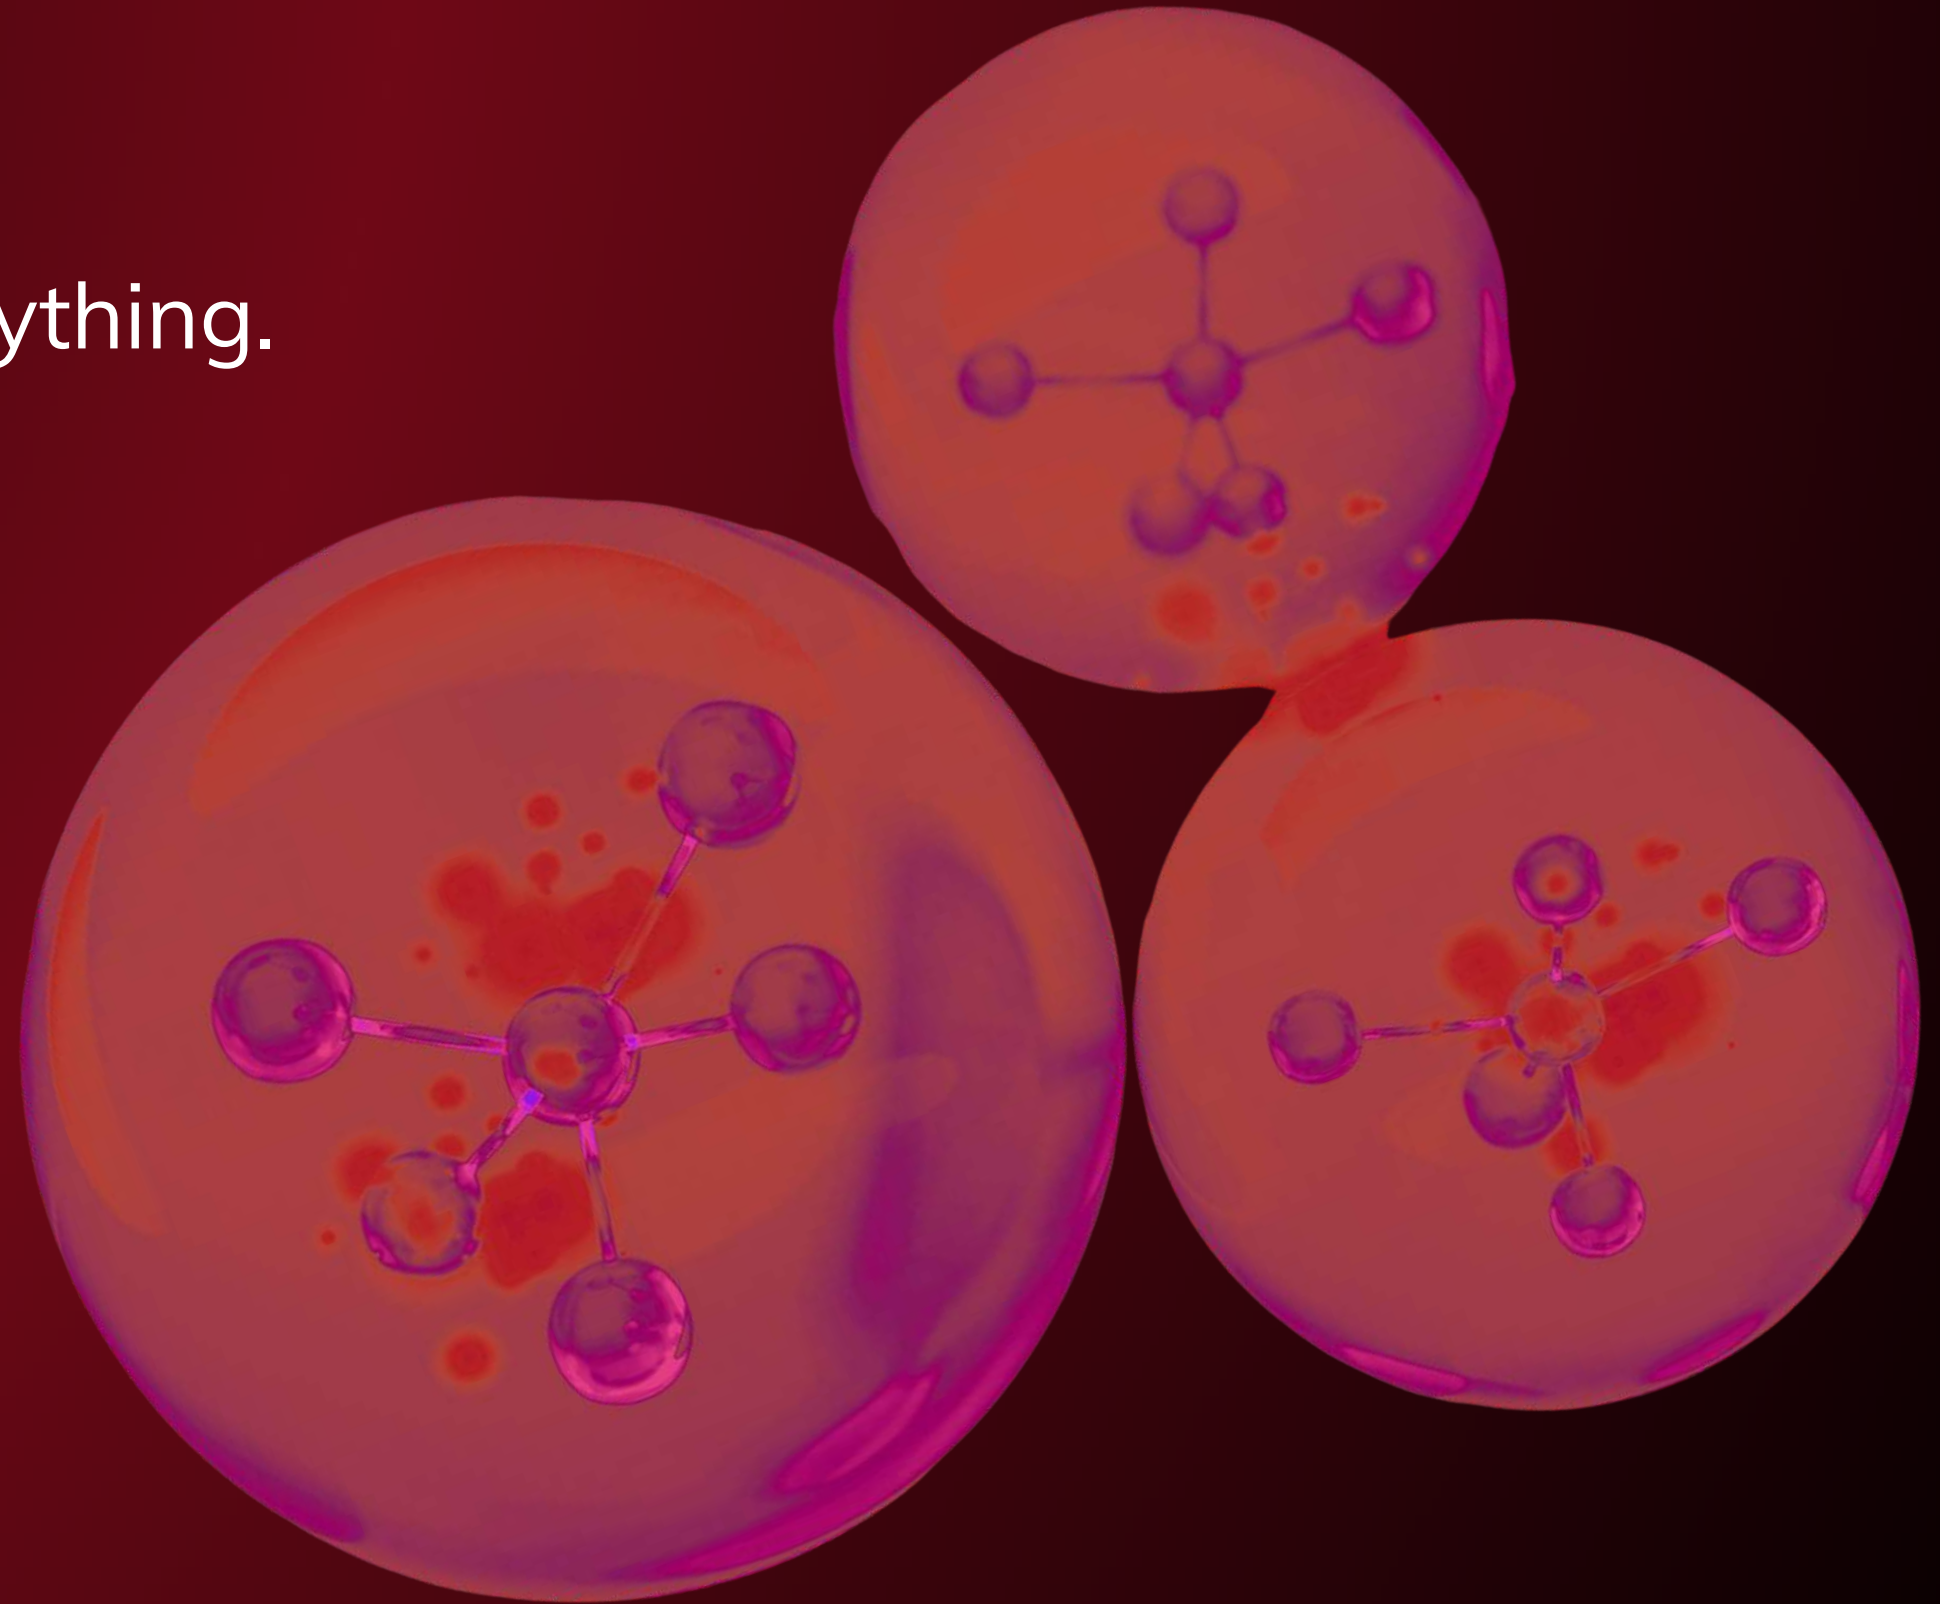

Your cells are the foundation of everything.

Your energy. Your skin.
Your joints. Your recovery.

When your cells are under stress,
everything suffers.

Most people treat the symptoms:
Creams for the skin.
Pain relief for the joints.
Coffee for the energy.

Let's talk about fixing the source.

The Science, Simply

Here is what is actually **happening** inside your *body*.

Every day your cells face **damage** from **stress, poor sleep, processed food, pollution** and **simply living**.

Over time this damage builds up.

Inflammation becomes the default setting.

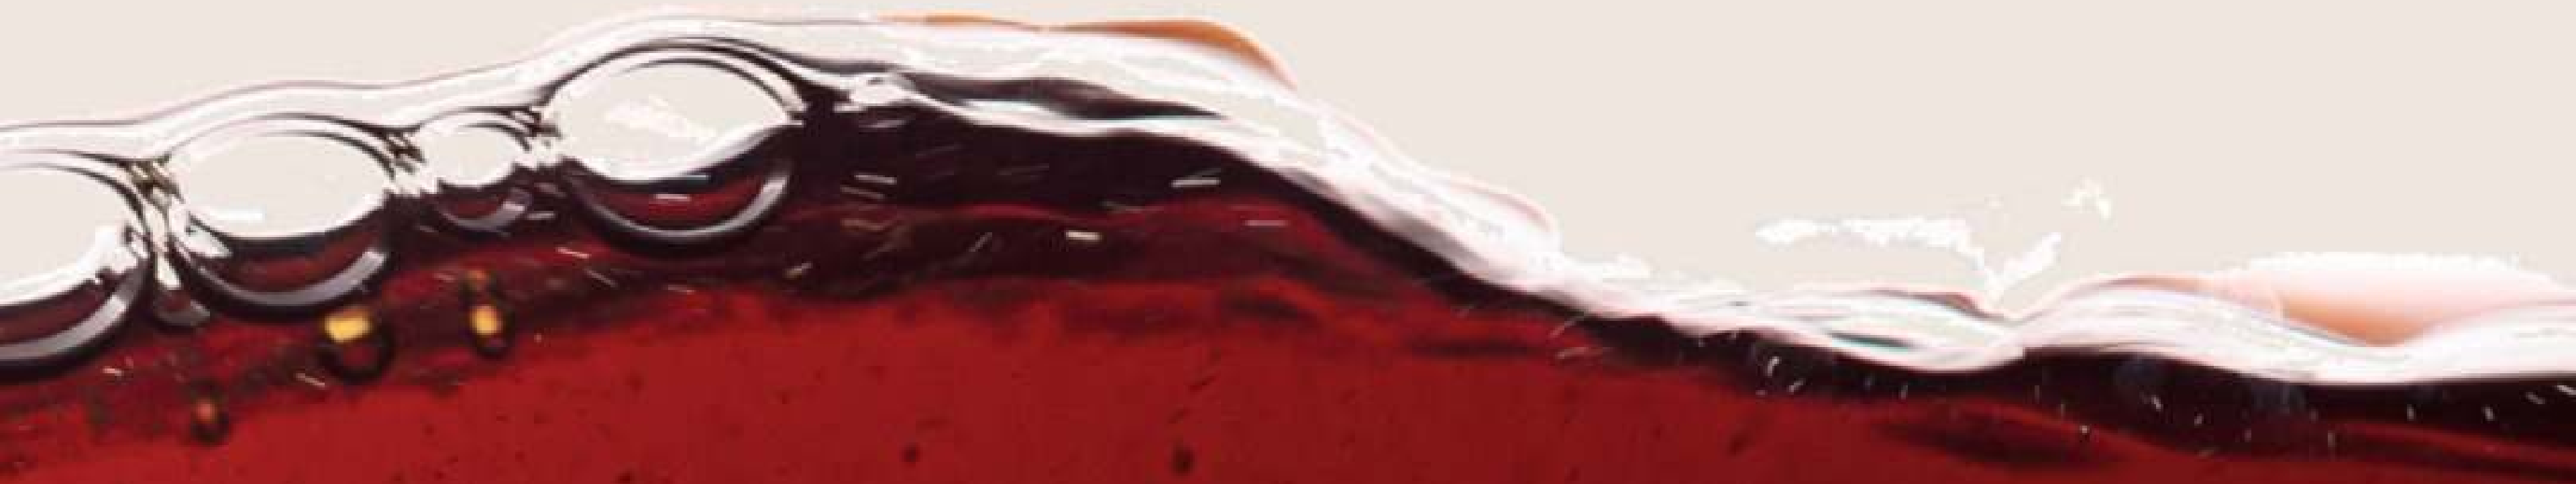

Your body spends more energy managing damage than thriving.

This is called **cellular aging**.

It affects **every single one of us**.

Introducing the GLOW Protocol

The good news

- When you give your body what it needs at the cellular level, everything changes.

The GLOW Protocol is a science backed approach to cellular health

- Two clinically studied products.
- One simple daily routine.
- Results you can see and feel

Vivix – Cellular Repair and Protection

Your cells have a built in repair system.

Vivix activates it.

Clinically studied ingredients that work at the DNA level to:

- Slow cellular aging
- Protect against oxidative stress
- Support energy production at the source

Think of it as your daily cellular defense.

What Is Actually Happening in Your Cells

This cumulative impact of oxidative stress and inflammation triggers a chain reaction, with cells producing more free radicals, thereby accelerating cellular damage and cellular ageing.

"The question is not whether it is happening. It is whether you are doing anything about it."

Every cell in your body contains DNA.

Think of your DNA as the instruction manual for everything, your energy, your recovery, your skin, your immune system.

Every day that manual takes damage. Stress. Poor sleep. Processed food. Pollution. Simply living.

Over time that damage accumulates. Your cells stop functioning the way they should. This is cellular breakdown.

HOW Vivix Works

Vivix contains a patented blend of polyphenols, powerful plant compounds that work at the DNA level.

Vivix helps turn it on.

What that means for you-

- Damaged cells repair faster
- Oxidative stress is reduced
- Mitochondria - your cellular energy engines, function better
- The rate of cellular aging slows down

Clinical studies show Vivix to be 13x more powerful than resveratrol alone in slowing a key mechanism of cellular aging.

VIVIX® GUMMIES

Key Ingredients Proven by Science*¹

98.8%

increase in
cellular energy

2/3

reduction in
DNA damage

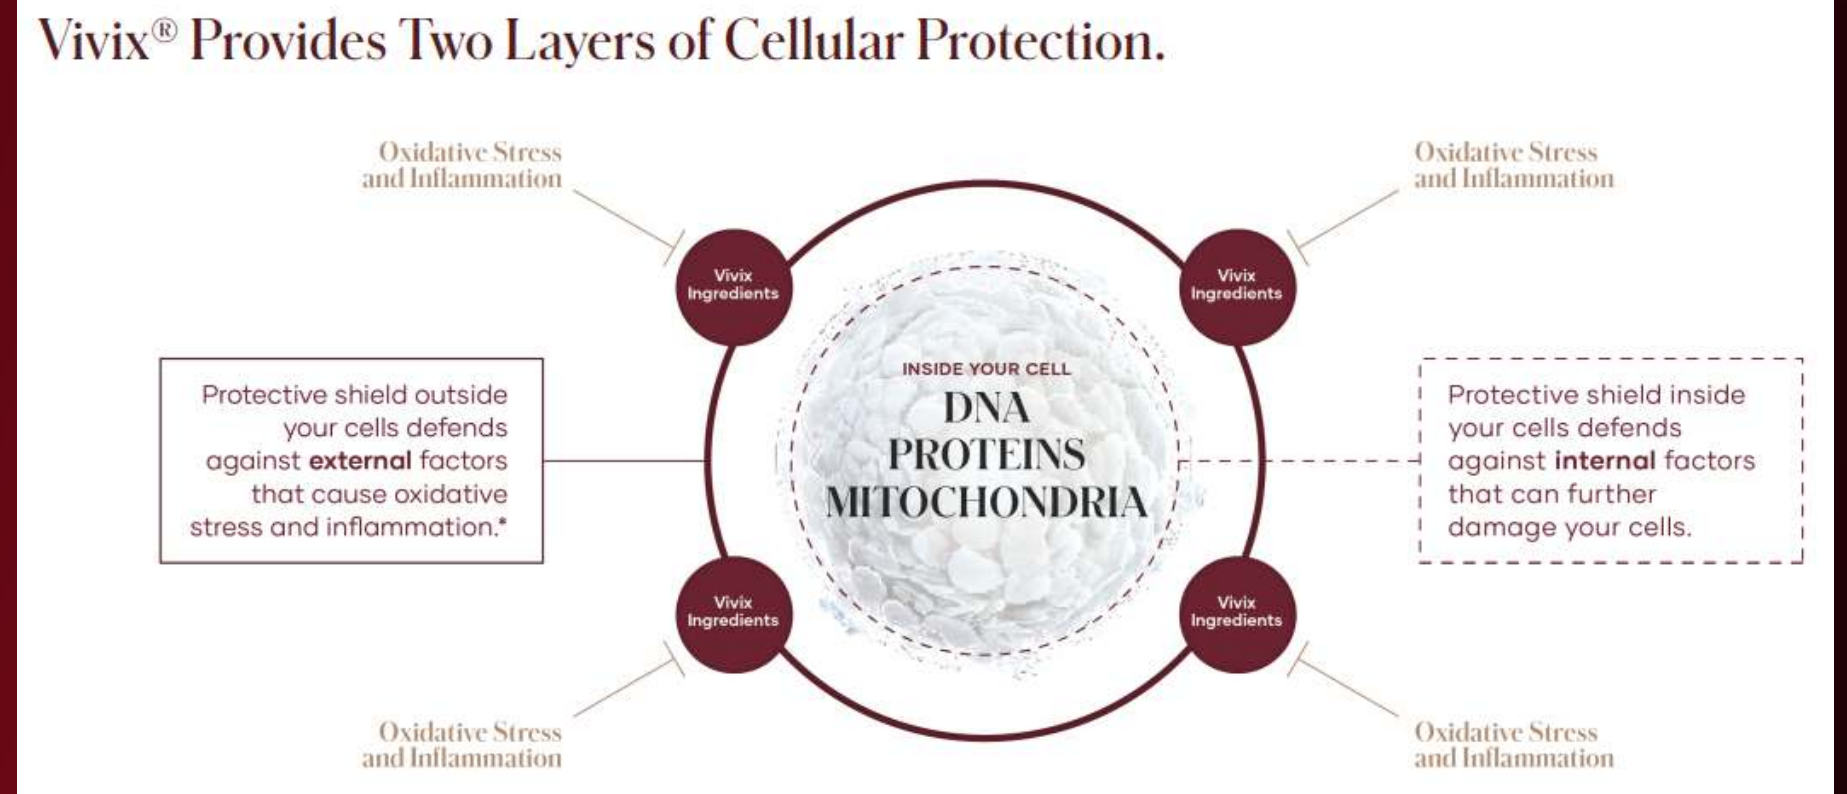

13x

reduction in
damaging
AGE proteins

HOW VIVIX WORKS

- **Neutralizes free radicals** with rare muscadine grape extract + powerful polyphenols
- **Supports antioxidant defenses** and helps reduce oxidative stress
- **Helps blunt the inflammatory** response caused by high fat, high carb diets
- **Supports protection of DNA** from cellular damage
- **Helps reduce the formation** of damaging AGE proteins linked to aging

- **Supports mitochondrial function** and healthy cellular energy production
- **Helps improve cellular function** so cells stay younger longer
- **Clinically studied ingredients** designed to target key causes of cellular aging

GENUINE GLOW UP

3.5 months on Vivix 🥰

I honestly cannot believe the inflammation I had in the photo on the left. Under my eyes and around my mouth and chin especially.

I didn't lose any weight between these two photos... the only difference was Vivix.

** feel free to share

NICOLE

I was diagnosed with arthritis in both shoulders a year and a half ago when I was 52. While I have had amazing results with my liquid collagen, glowy skin, strong hair, and joint lubrication, it never truly touched the arthritic pain. Enter this gummy. Even after just 4 days, the difference is incredible. My shoulder pain has noticeably decreased, something I've never experienced until now. (I usually have to get Cortizone shots)

I'm so happy I found this... And honestly, I believe everyone should be on it.

COLLAGEN 101

Collagen is the most abundant protein in your body.

It holds everything together.

Skin, joints, tendon, cartilage

From your mid 20s your body produces less of it every year.

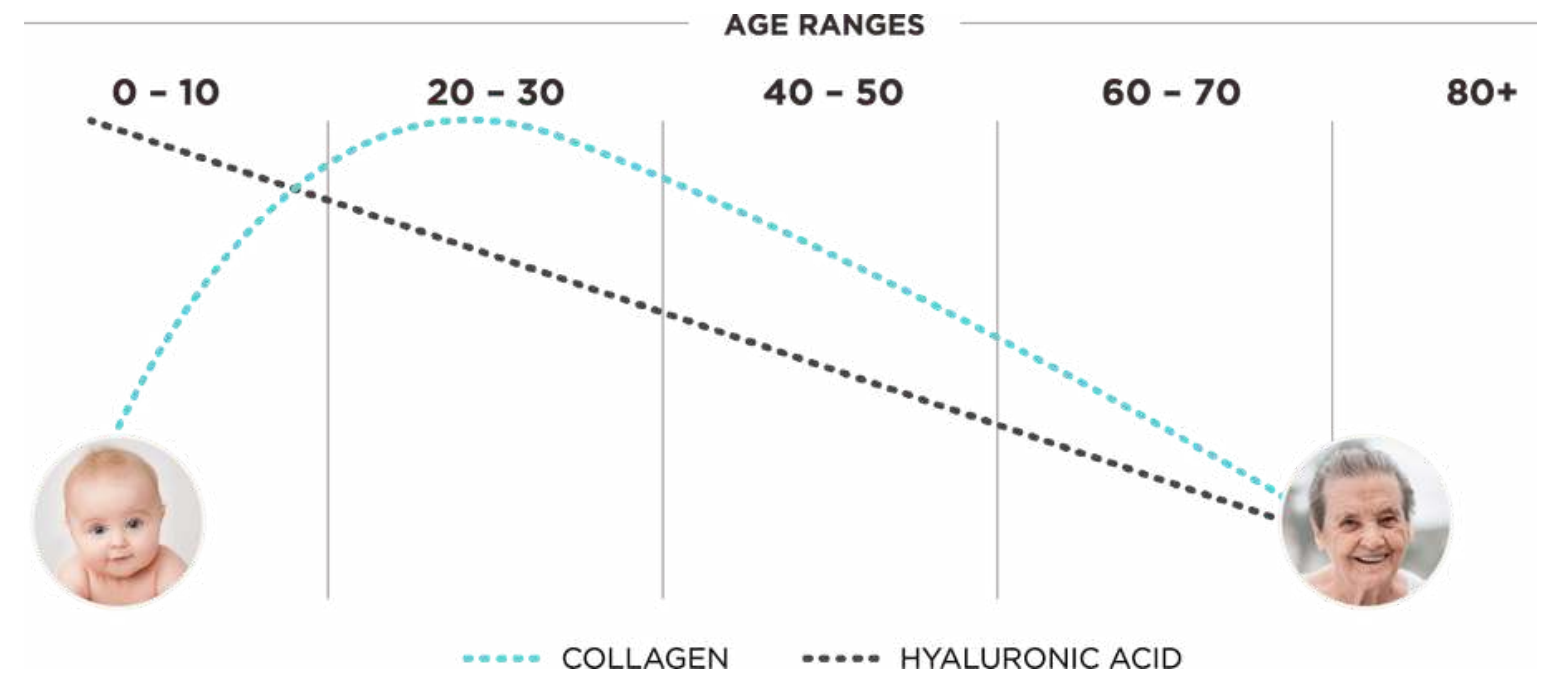

By your 40s you have lost a significant amount of your structural support.

And most collagen supplements?

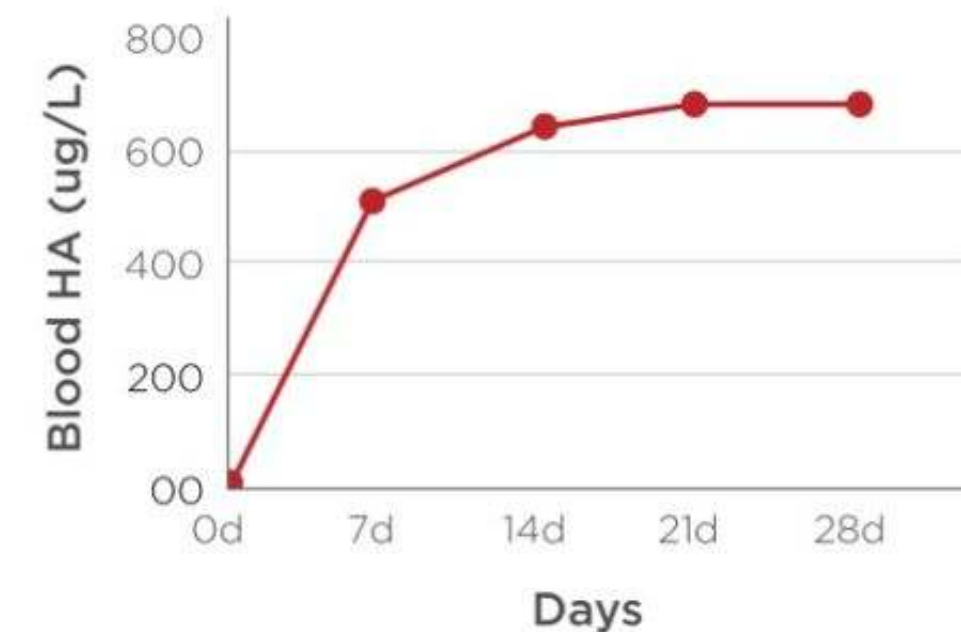

The molecules are too large to absorb properly.

They pass through your body without reaching where they need to go.

This is why so many people take collagen and feel nothing.

A 6000% INCREASE IN STEADY-STATE HA LEVELS AFTER 28 DAYS ON LIQUID BIOCELL

Nothing Compares

This is bioavailable collagen. Built to actually work.

BioCell contains a clinically studied matrix called **BioCell Collagen**.

It is not just collagen. It is a triple action complex:

- **Hydrolyzed Collagen** — broken down small enough to absorb and reach your joints and skin directly
- **Hyaluronic Acid** — your body's natural joint lubricant and skin plumper. Keeps joints moving smoothly and skin looking firm
- **Chondroitin Sulphate** — supports cartilage structure and helps slow its breakdown

These three work together in a ratio your body recognises and uses efficiently.

In clinical studies BioCell Collagen was shown to reduce collagen fragmentation in the skin by 26% and significantly improve joint discomfort.

WHY BIOCELL LIFE+ IS IN A CATEGORY OF ITS OWN

1. Optimal molecular weight — hydrolyzed for maximum bioavailability so it absorbs at the cellular level.
2. Single-source natural matrix — Type 2 collagen, HA, and chondroitin sulfate from one source in nature, not a blended formulation
3. 6,000% increase in HA levels — clinically shown to stimulate the body's own HA production
4. Dual enzyme inhibition — simultaneously blocks hyaluronidase and collagenase, the enzymes that break down HA and collagen
5. Unmatched clinical proof — Patents, 37 clinical trials, \$1B+ in worldwide sales

The TriPlex Technology Difference

- Protect (Pine Bark + Fucoidan) — antioxidant defense against the oxidative stress that accelerates collagen breakdown
- Stimulate (Liquid BioCell + Biotin + Zinc) — activates collagen and HA synthesis while blocking the breakdown enzymes
- Build (Calcium Fructoborate + Collagen/HA Matrix) — supports bone density, joint integrity, and structural skin health

Nothing Compares to Liquid Biocell Life+

Exclusive From Shaklee

Multi-patented, award-winning + clean label

Collagen / HA Matrix Technology

A single-source matrix of collagen, hyaluronic acid + chondroitin sulfate

Builds more youthful collagen

Collagen Your Body Recognizes

Naturally mirrors human articular cartilage composition

Helps inhibit collagenase & hyaluronidase (collagen & hyaluronic acid breakdown)

Science-Backed Results

Including double-blind, randomized, placebo controlled human studies

Protects collagen from oxidative stress

Clinically proven to support joint mobility, bone density, skin, hair, nails, and cardiovascular health.

Bio-Optimized Micromolecules

Shown to absorb into the bloodstream to increase collagen + HA

BIOCELL LIFE + CANADA

Liquid BioCell® Life+ combines the benefits of award-winning Collagen/HA Matrix® Technology

PLUS exclusive **Modere TriPlex Immune Complex™**

Benefits:

- Helps to relieve joint pain associated with osteoarthritis of the hip and knee
- Helps to reduce the number of deep wrinkles and fine facial lines
- Enhances skin elasticity
- Works to increase collagen content in the skin
- Supports nutrient metabolism for healthy bones, cartilage, teeth, gums, connective tissue, and wound healing.
- Supports immune function
- Provides black elder, traditionally used to promote sweating for fever relief and help ease cold and flu symptoms.
- Provides antioxidants that help protect cells against the oxidative effect of cell damage caused by free radicals
- Source of zinc, a factor in the maintenance of good health
- Source of antioxidants to support of good health

LIQUID BIOCELL Story

”

At 28, I was diagnosed with osteoarthritis. By my mid-40s, I could barely hold a pot of water. I was dropping weights because I'd lost mobility in my hand. I tried collagen from Costco for a year. Zero results.

Then a friend shared her Liquid BioCell story. By night 3, I noticed a difference in my joints. I sat there opening and closing my fist because I hadn't been able to do that in over a year.

Six years later, my hair, nails, skin, and joints are transformed. I genuinely look and feel younger at 51 than I did at 45. This is still one of my non-negotiables.

The Glow Protocol

Vivix and BioCell work on different levels of the same problem.

Vivix works deep- protecting and repairing at the cellular level.

BioCell works structurally- rebuilding collagen, joints and skin from within.

Together they create a complete inside out approach to how you look, feel and recover.

This is the lasting radiance from the inside out.
