

www.sweet-doors.co.uk Sweet is **#BRISANTSECURE**

Looks great. **For good.**

Numbers. Rounded up.

We've made the numbers fit,
without screws. Extra sweet.

7 colour options.

With chrome, gold, black, white, stainless steel, rose gold and new anthracite grey, there's a Sweet for everyone.

Protected with 6 layers
of armour.

We guarantee that your door furniture
will still be working and looking sweet for 20 years.

The six layers of armour kept Sweet looking great
after being hammered with salt water for over 8000
hours. The accreditation standard is only 240 hours.

Kerb appeal becomes curve appeal.

Sweet's unique edgeless design rethinks door furniture and creates long lasting beauty with design simplicity.

Better news. Multi-layer insulated letter box.

As well as looking great the Sweet letter box is really clever. The traditional frame and flap design is replaced with a single wrap around design to stop the elements creeping through the butt joints.

Two internal skins bring additional sound and thermal insulation.

Knockout.

The Sweet curved design ethos transforms the door knocker into a design statement.

It could be secure.
It could be smart.
It is Sweet.

The outside Sweet handle, security handle, and smart handle all look identical. The perfect option for a truly suited home.

Still Sweet. Just Smart.

Controlling your door locks from your smartphone, your watch, by voice command as well as a real key is clever. Combining this with Kitemarked Police preferred security and a £2000 security guarantee is smart.

The Ultion SMART locking system is part of the Sweet family, making it the only suited smart handle.
