Nevada, Mo.

Welcome

We are glad to present the latest edition of the Green Springs Beef Development Center's fall sale. Once again, along with the bulls, we will be presenting some select females from a few of our long time consignors and customers. We will have a nice set of Black Angus and Simmental cows, several pairs, a real nice set of open, ready to breed commercial heifers and a really good set of Angus based commercial bred heifers that will calve in the spring.

This year has continued to be a challenge for many of us. We seem to be turning the corner on Covid, but now we're dealing with supply chain issues, and run away input prices. So far cattle prices have not reacted enough to dull the pain, but hopefully they will find a way to get where we need them to be.

We have a lot to deal with. Rising costs, competing protein sources that want to use our name and spread lies about our product, animal rights activists that want to do away with animal agriculture, environmental issues that everyone wants to blame on the cattle business, packers that work harder against us than they do for us and go out of their way to invest in fake meat and put constant pressure on small suppliers, and a government that seems unwilling or unable to do anything about any of it.

We must eventually come to realize that most of these groups are not our friends. For years our industry has made the assumption that if we just ignored them, they would go away. That obviously has not worked. We must make an exerted effort to expose these people for what they are, liars and thieves who will do or say anything to advance their efforts no matter who it hurts or destroys. They are people who ignore the facts, and count on the spreading of miss information and fear to reach their goals, whether it's money or the destruction of a way of life. We must make every effort to see to it that they are exposed as such, and justly dealt with.

Feed prices have followed everything else on the way up and this makes efficiency all that more important. We have to find different ways to improve our costs of production. A couple of only a few ways to do that are improving performance and improving feed efficiency. That's what we look to do. Find the bulls in the offering that offer those advantages and buy them.

In an effort to help deliver the genetics you need in the package you want, we hope to continue to offer beef breeding stock for your evaluation and purchase, that have an unparalleled amount of data and information available on them. The old saying that "If you don't measure it, you can't make it better", was never more on target than it is today. We have a lot of tools to work with in today's beef industry. If we use them in the right ways and combine them with common sense and a good eye for quality, we can continue to improve our efforts toward sustainability and profitability.

Keep up the effort, lean on our reputation as producers and ranchers and expose those that wish to harm us for what they are. Continue to produce a product that is second to none in consumer preference and acceptance. Keep the faith, that if we do our part work to help feed a hungry world, and show the world that we are not only serious about what we do, but that we are serious about protecting it as a way of life, with Gods help it will all work out.

Let us know if we can help in any way.

The Green Springs Crew,

Kent, Kathy, Cole, Brady and Travis

Garton Angus Ranch

Norman, Vicki, George, Crystal, John, and granddaughters Irene and Edith Garton welcome you to our 2nd Angus female sale at Green Springs Tested Bull Sale.

We started Garton Angus in 1971 as a small family operation and in 1973 started using artificial insemination and keeping records with AHIR. We collect our top-producing cows for embryo transfer and have done so since 1981. Cows in this sale have been bred for fertility and maternal qualities. Since 1999 we have sent bulls to Green Springs Bull Test, Nevada, Mo. and have had high-indexing and high-selling bulls. For several years George and Crystal have sold the highest-selling bulls at Green Springs to producers in, NE, MT, and OK.

While improving our bull selection using performance data, we have also collected detailed carcass information through 20 years of sending home-raised steers to Missouri Steer Feed Out through the University of MO Extension. Our steers have been top in profitability and daily gain and have received premiums for carcasses that were either Prime, Certified Angus Beef, or Yield Grade 2's.

In 2021 Norman received the Missouri Angus Pioneer Award for lifetime dedication to the breed. The ranch was also selected by Certified Angus Beef to have the only CAB logo in the state painted on a grain bin. Look for it as travel Hwy 49. A family operation, Garton Angus is happy to offer cattle with growth and top quality carcass traits that will work well for both commercial and registered cattle producers.

The Garton Family.

Lots 100-106A

Lots 115-123A, 125-126, 128-129A

Lots 107-109, 124,127,130-132

Lots 110-114

7 cows with Spring Born Calves

13 cows with Fall Born Calves

8 Bred Cows

5 Bred Heifers

Merry Meadows Simmentals

Merry Meadows Simmentals was formed in 2000 when Lonnie & Lea Ann Peetz were married in St. Joseph, Mo. Lonnie got his first Simmental heifer in 1987 and started upgrading his family's Hereford herd with Simmental bulls at that time. The Simmentals changed the herd for the better with heavier weaning weights when compared to the straightbred Herefords. Over the years the red ones turned black with emphasis on calving ease, performance, mothering ability and docility.

Our goal is for our customers to succeed in the cattle business and repeat customers are what we strive for. We stand behind our cattle 100% and love to hear of the successes our customers have. With just the two of us at our operation, our cows need to calve unassisted and have the calf vigor to get up and nurse on their own. Stayability and cow longevity is what we look for in our cow herd.

We have occasionally shown a few at the Missouri State Fair and have had some success there; showing the Grand Champion Foundation Simmental Bull in 2014 and the Grand Champion Foundation Simmental Cow-Calf pair in 2015.

The F1 Sim-Angus calves provide the best of the Continental and British breeding and make superb feeders. The heterosis is second to none and feedyards love to see the black hided baldies at the dock when they come off the truck.

Utilizing some embryo transfer in recent years has allowed us to provide full sib bulls to customers so they can have a more uniform calf crop when they are turned out in a bigger herd.

Female Offering on the next two pages.

Commercial Heifers

Black Baldie Heifers Open & Ready to Breed & Red Baldie Heifers Open & Ready to Breed

Consigned by Scott & Belinda Kennedy of rural Deerfield, Mo 417-321-3057

The bulk of these heifers are out of cows sired by Red Angus and Angus bulls purchased in Green Springs Bull Test Sales. These bulls were top performers who were exceptional in their RFI numbers. The remaining black baldy heifers are out of some registered Angus cows we purchased from Mill Creek Farm in Kansas. One red baldy is out of a Hereford x Red Angus cow. The sire of all but one heifer is a Proficient son we purchased from Knoll Crest Farm, one of the top performance Polled Hereford farms in the United States. We have a lot of registered Hereford daughters sired by him that we have been quite pleased with. The 19H red baldy heifer is an A.I. daughter of the top Red Angus sire, Fusion. Her mother is a registered Polled Hereford and 19H is her first calf.

All the commercial heifers will sell in small groups of 3-5

Bred Black Commercial Heifers

Consigned by Kent & Kathy Abele

A really nice group of bred Angus based commercial heifers. Sired by Green Springs tested Angus bulls. All measured and passed pelvic measurement and tract exam by Vet. All RFI tested at Green Springs. All calfhood vaccinated. All bred to proven calving ease ABS Angus bull Hickock. Cleaned up with proven calving ease Green Springs tested Red Angus bulls. Due to start calving March 24 2022 and run for 45 days. Will make an outstanding set of young cows.

General Information

Announcements made the day of the sale take precedence over the printed catalog.

Sale starts at 1:00

Sale Order

The bulls will sell in numerical catalog order.

The females will sell after the bulls in this order,

Angus, Simmental, Commercial

Bidding: Can be done in person at the auction or via the internet at www.LiveAuctions.TV. If you are unable to attend the sale and want to purchase bulls, please call Kent at 417-448-7416 to assist you in making your selections. Call prior to the sale to describe the type & breed of bull (bulls) you want and let him know your price range (s). You pay only the bid price, just as if you were bidding in person. Every effort will be made to purchase the bull (bulls) of your choice at your designated price or less. We will call you after the sale to confirm your purchase (s) and confirm your method of payment and plan of trucking or hauling. A hassle free buying experience.

Breeding Guarantee: All bulls selling in this sale have passed a thorough and stringent BSE (Breeding Soundness Evaluation) by Dr. Erik Andersen of 54 Vet Clinic, Nevada, Mo. Each bull selling has passed and is considered a satisfactory potential breeder. All bulls are guaranteed as breeding bulls through the first breeding season from the date of purchase. Please keep in mind that we expect the bull (s) to be managed with proper animal husbandry practices. They are young bulls and require some additional management compared to mature bulls. Proper management should include the following: 12-15 month old bulls at time of sale are utilized in a ratio of one bull to no more than 15 cows and 16-20 month old bulls, one bull to no more than 20 cows. Furthermore, if these requirements are not adhered to or these bulls are placed in service or are housed until time of service with mature bulls then consignor of record at time of sale will not stand behind this breeding guarantee. If a problem does arise please contact GSBT, Kent Abele, 417-448-7416, who will in turn notify the owner of record at the time of sale. The problem will be evaluated & consultation with a veterinarian done if needed. If replacement is required, a bull of equal quality will be given. If a replacement bull is not available a credit will be issued to be used in a future GSBT Bull Sale. Shipping an animal you feel is unsatisfactory before contacting GSBT will void the breeding guarantee.

Bull Development Program/Maintenance After the Sale: GSBT will work with customers on delivery of bulls in an effort to have the bulls delivered to customers as soon as possible after the sale. However, if you are not ready for the bulls at this time we will maintain & develop the bulls at the ranch for a period of time until you are ready for them. A nominal fee of \$3.50 per day will be charged plus any veterinarian charges incurred will be billed. Bulls will be maintained on a growing ration in grass traps. Bulls become the buyer's responsibility immediately after the sale. GSBT nor the owners thereof or the employees thereof are not responsible for insurance costs or death or injury. Mortality insurance is available in the sales office & can be purchased at time of settlement as well as first season, breeding insurance. Both are optional at buyers expense.

Health Certificates: A health certificate will be provided at the time of settlement which will be sufficient for transporting the bull (s) interstate or intrastate and provides the results of the most recent breeding soundness exam. Buyers who wish to take cattle into states with specific and rigid health regulations should inquire about the health tests required by their state. All bulls sold are virgin bulls and/or have been tested for trichomonosis. The young bulls, 11-15 months are virgin bulls and have not been exposed to any females. All bulls have been tested for trichomonosis. It is always sound herd management to test for breeding soundness and trichomonosis prior to placing bulls with the females at the beginning of breeding season.

Registration Certificates will be issued in the owners name. Let the settlement clerks know exactly what name you want to appear on the certificate and what address it should be mailed to. The consignor of the bull holds the responsibility of transferring ownership. Follow up with the consignor that you have purchased the bull from if you have any questions. Consignor names & contact information are listed in the front of the catalog and also with each Lot#.

Missing Test Data: Indicated in each bull's Lot information will be provided sale day in the Sale Supplement handout.

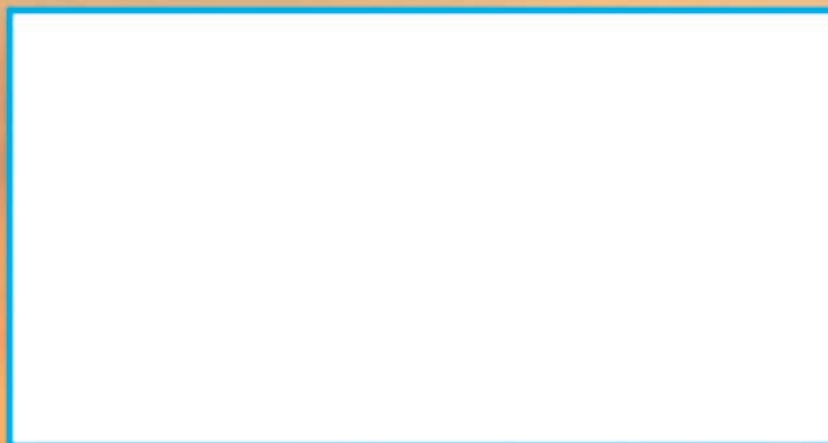

Settlement & Load Out: All buyers must make settlement in the clerk's office. Cash/check/or credit cards are accepted for payment. If using a credit card a 3% convenience fee will be charged. At the time of settlement, Mortality and/or First Breeding Season Insurance can be purchased. During settlement let the clerks know if you are hauling your bull (s) home the day of sale, or picking them up at the test station in a few days, or leaving them for a short period of time to develop, or need delivery arrangements made. **SETTLEMENTS & LOAD OUTS AFTER THE SALE IS OVER.**
