

Green Springs

Performance & Feed Efficiency Tested

BULL & Females

Nevada,
Mo.

SALE

March
27
2023

W elcome & other rants.

We would like to welcome you all once again to the Spring 2023 edition of the Green Springs Beef Development Center's bull and female sale. Over the last twenty four years we have performance tested somewhere north of 17000 bulls. In addition to that over 3000 heifers have gone through our gates. Of those cattle, over 12000 have gone through the Geowsafe system and have feed efficiency data available on them. Those numbers don't necessarily make us special or unique and they don't qualify us as crazy. (although often I wonder) They would however enforce the notion that we are dedicated. After almost 25 years, I guess you could say it's what we do.

Sometimes after summers like last year we all think that it's just too difficult. Dry summers always turn into long winters in the cattle business. What we thought was enough hay and silage soon turns into a shortage, especially when you start feeding cows in August. But, as we usually do, most of us figure out a way to survive to do it one more time.

On the positive side, even though we have crazy input costs, we are approaching "rare air" in the cattle market. Feeder cattle are fetching in the \$2.00 to \$2.50 range and some light steers are approaching the \$3.00 range and above. Fats are moving above \$1.60. That's good money if we can all figure out a way to keep some of it as feed costs continue to drive and dominate the expense side of the ledger.

Perhaps that's where we can help. At no time in the history of agriculture and more specifically the cattle business has efficiency been more important. If we can generate more output while giving up less inputs we can survive and even prosper. With feed cost still running about 70% of a beef enterprises' variable cost, it make perfect sense that reducing the feed bill, whether it's pasture, or supplements, or hay, or purchased grains, while maintaining or increasing production levels, will add dollars to your bottom line.

We know for a fact that we can find the more efficient animals. We know for a fact that the trait is moderately heritable. We know for a fact that by using those individuals as our genetic base we can improve feed efficiency by at least 15% over a few generations. We know for a fact that if we select animals with a low RFI, we can improve feed efficiency without adversely affecting other traits. We know for a fact that selection for low RFI carries over into efficiency in the pasture through replacement heifer retained from those efficient parents.

We also know that the unique thing about feed efficiency is that we don't have to count on someone else to pay us for it. If we raise high performing, good looking calves and take them to the sale barn, we have to count on marketers and buyers to pay us more money because they are high performing, good looking calves. Trust me if they don't have to pay more to get those calves, they won't. If we sell fat cattle on the grid, we have to count on buyers, graders and packers to pay us for the higher quality carcasses they produce. Trust me if they don't have to pay more for those high quality carcasses, they won't. Feed efficiency is a savings, it's money you can keep in your pocket and you don't have to trust anyone to give it to you.

There are cattle in this offering that will do that for you. Find them and buy them. they will not only make you money, they will help you keep it.

As always, we are here to help. If you need help in interpreting, or have any questions about data, feel free to ask. If you need help with selection or purchases, or delivery or help with marketing calves, look us up. We are here to help you.

Thanks for coming, enjoy the day and improve tomorrow.
The Green Springs Gang.

PS. PLAN ON SOME FUN STUFF FOR THE GSBT 25TH ANNIVERSARY SALES.

General Information

Sale Location

3 Cedars Sale Facility
24327 E Old Town Rd
Nevada, Mo. 64772

7.8 miles East of Nevada on
Hwy 54 to 2400 Rd, turn South
on gravel, go 2 miles to Old Town
Rd, turn left or East, go almost
1/4 mile. Entry on North or left.

Sale starts at 1:00

Monday, March 27, 2023

Complimentary
Beef Lunch Provided
Served 11:00-1:00

Sale Order

The bulls will sell in
numerical catalog order.
Angus Females will sell
after the bulls in lot
order followed by
commercial females.

Remote Bidding and Viewing at.
