Welcome and Other Rants

These notes and notations that are in the first few pages of every sale catalog that stuffs your mail box are supposed to be up beat and uplifting. They are supposed to make our buyer pool believe that no matter what the outside world is doing, or saying or believing, buying our product, and putting it to use is going to make your world better. Boy is this going to be an uphill climb!

We are currently living at a time when quite honestly, the world around us is turning in a way that we all struggle to understand. Inflation is higher than it's been in over 40 years. Everything we buy from fertilizer to barbed wire is significantly higher than it was even six months ago. Fuel, by the time you all read this, will be well over four dollars and probably still going up. Land prices are soaring to unprecedented levels, well beyond a price that even the best cows in the country could cash flow, and far out of reach for a generation of young producers still eager to live their dream.

We have a crazy man running a country half way around the world that is trying to over run another one that is struggling to survive. We all hope and pray that he looses and they hold on to the dream of being free. Our struggles indeed pale compared to some that others carry. But still we all share that dream.

Yet, we all still carry on with the fervent hope that this too shall pass, and indeed it all will. We will find a way to turn the corner and find a straighter road with less hills and curves. We always have and always will.

Cattle prices, despite all this, have held pretty strong. I truly believe that once we get past this major bump in the road, we will see them trend even higher. People still love beef. It is the preferred protein source in the world. In spite of the efforts of the fake meat brigade, the tree hugger coalition, and the don't eat this groups, we are still seeing that "beef is what's for dinner".

Nearly all of us will continue to raise cattle, at least until for some reason we can't. Through all the adversity and toil we will still need bulls to breed the cows, we will still need some nice replacement heifers, and we will still need to find ways to produce the highest quality and most sustainable protein on the planet in more efficient and more profitable scenarios.

I think we have some of those tools available in this sale offering. Tools that will help us breed cattle that are more efficient, more productive, more sustainable and more profitable.

We have bulls of several breeds. Some from breeders that have been with us for literally decades and some that have been here for just a few months. We have bulls in the offering that come from breeders that have only one or two here on test, and some that come from breeders for whom we feed several hundred each year. We appreciate them all, and all of them have something to offer and every one that made the sale has some things good about them.

All the bulls sell with a complete BSE by Dr. Andersen. All the bulls are PI tested and Trich tested. All the bulls will have a complete data set including RFI and many will sell with genomic enhanced EPDs. There are differences in them and finding those differences is why we test them.

You can buy these cattle with confidence. They are backed by good genetics, good data, good health protocols and good breeders.

If you have any questions or if we can help you in any way please let us know. We are here to help.

Hope to see you sale day.

Kent, Kathy, and the Green Springs Crew

General Information

Sale Starts at 1:00
Monday, March 28, 2022
Complimentary Beef Lunch
Served 11:00-1:00

Sale Order
Bulls sell in numerical order designated by the Lot#, the Purebred Angus Females will follow the bull sale selling also in Lot # order & the Commercial Heifers will sell last.

Directions to the Sale Facility - 3 Cedars
From Nevada heading East on Hwy 54, go 7.8 miles to 2450 Road, turn South on gravel and go 2 miles to Old Town Road, turn left or East, go about 1/4 mile. Entry on left or North.....just about the same directions from El Dorado Springs except go West on 54 Hwy about 9 miles until you get to 2450 Road. Turn South on gravel, etc.etc. Look for the large building and cattle! Hope to see you Sale Day!

Schedule for Accepting Weaned Bulls for the GSBT Efficiency and Performance Tests

Early Summer Test - Bulls born Aug 15-Oct 31 - Must arrive by June 1, 2022
Late Summer Test - Bulls born Nov 1- Dec 31- Must arrive by July 1, 2022

Early Fall Test - Bulls born Jan 1- Feb 28 - Must arrive by Oct 1, 2022
Late Fall Test - Bulls born Mar 1- May 31 - Must arrive by Dec 1, 2022

General Information

Announcements made the day of the sale take precedence over the printed catalog.

Bidding: Can be done in person at the auction or via the internet at www.LiveAuctions.TV If you are unable to attend the sale and want to purchase bulls, please call Kent at 417-448-7416 to assist you in making your selections. Call prior to the sale to describe the type & breed of bull (bulls) you want and let him know your price range (s). You pay only the bid price, just as if you were bidding in person. Every effort will be made to purchase the bull (bulls) of your choice at your designated price or less. We will call you after the sale to confirm your purchase (s) and confirm your method of payment and plan of trucking or hauling. A hassle free buying experience.

Breeding Guarantee: All bulls selling in this sale have passed a thorough and stringent BSE (Breeding Soundness Evaluation) by Dr. Erik Andersen of 54 Vet Clinic, Nevada, Mo. Each bull selling has passed and is considered a satisfactory potential breeder. All bulls are guaranteed as breeding bulls through the first breeding season from the date of purchase. Please keep in mind that we expect the bull (s) to be managed with proper animal husbandry practices. They are young bulls and require some additional management compared to mature bulls. Proper management should include the following: 12-15 month old bulls at time of sale are utilized in a ratio of one bull to no more than 15 cows and 16-20 month old bulls, one bull to no more than 20 cows. Furthermore, if these requirements are not adhered to or these bulls are placed in service or are housed until time of service with mature bulls then consignor of record at time of sale will not stand behind this breeding guarantee. If a problem does arise please contact GSBT, Kent Abele, 417-448-7416, who will in turn notify the owner of record at the time of sale. The problem will be evaluated & consultation with a veterinarian done if needed. If replacement is required, a bull of equal quality will be given. If a replacement bull is not available a credit will be issued to be used in a future GSBT Bull Sale. Shipping an animal you feel is unsatisfactory before contacting GSBT will void the breeding guarantee.

Bull Development Program/Maintenance After the Sale: GSBT will work with customers on delivery of bulls in an effort to have the bulls delivered to customers as soon as possible after the sale. However, if you are not ready for the bulls at this time we will maintain & develop the bulls at the ranch for a period of time until you are ready for them. A nominal fee of \$4.00 per day will be charged plus any veterinarian charges incurred will be billed. Bulls will be maintained on a growing ration in grass traps. Bulls become the buyer's responsibility immediately after the sale. GSBT nor the owners there of or the employees thereof are not responsible for insurance costs or death or injury. Mortality insurance is available in the sales office & can be purchased at time of settlement as well as first season, breeding insurance. Both are optional at buyers expense.

Health Certificates: A health certificate will be provided at the time of settlement which will be sufficient for transporting the bull (s) interstate or intrastate and provides the results of the most recent breeding soundness exam. Buyers who wish to take cattle into states with specific and rigid health regulations should inquire about the health tests required by their state. All bulls sold are virgin bulls and/or have been tested for trichomonosis. The young bulls, 11-15 months are virgin bulls and have not been exposed to any females. All bulls have been tested for trichomonosis. It is always sound herd management to test for breeding soundness and trichomonosis prior to placing bulls with the females at the beginning of breeding season.

Registration Certificates will be issued in the owners name. Let the settlement clerks know exactly what name you want to appear on the certificate and what address it should be mailed to. The consignor of the bull holds the responsibility of transferring ownership. Follow up with the consignor that you have purchased the bull from if you have any questions. Consignor names & contact information are listed in the front of the catalog and also with each Lot#.

Ralph Waldo Emerson

You cannot do kindness
 too soon, for you never
 know how soon it will
 be too late.

Tribute to The Garton Angus Ranch

*The Gartons,
Norman, Vicki, George and Crystal*

have been testing cattle at the Green Springs Performance testing facility since we opened in 1999. They had the courage to jump right in on our maiden voyage using the newly developed GrowSafe system. We did certainly appreciate their foresight and faith! Our friendship has grown extensively over time as we bounce ideas off each other quite often. With respect and admiration for the Garton's we wanted to highlight them in our very first tribute to consignors. We intend to highlight a different ranch in each sale catalog and we do hope you enjoy getting to know each breeder just a bit better.

Norman grew up on a dairy farm here in Vernon County Missouri. He grew to love cattle, but early on steered away from the dairy on to the beef side which allowed him more freedom. He showed steers at our local county fair and shared the story of talking our local mortician, Ingles Ferry into selling him a hereford steer. The Ferry Hereford herd was a closed herd so Norman started developing his negotiating skills pretty early as a teenager. Norman, although not bragging did point out that he won grand champion at the county fair that year.

From the sale of that grand champion hereford steer Norman started his college fund. His sights were set on attending the University of Missouri Veterinary School at Columbia. He graduated with his Veterinary Doctorate and came back home to Nevada, Mo. and opened a large and small animal vet practice on South BB Hwy.

Norman did not come home alone, however. You see when he went off to college one of the very first things that happened, he met Vicki who had a student job at the vet school!

Vicki McDuffee was a homegrown Irish-American farm girl from northeast Missouri in Shelby county.

In fact she grew up on a historic farm, that had an early settlers homestead cabin on it which has now been moved to the Macon County Fairgrounds. In the early years of Norman & Vicki's marriage Norman continued his vet practice and Vicki worked as an educator, a home economics instructor at the Nevada High School then as an english teacher at Crowder College. After retiring as a practicing vet Norman added to his accolades and took on a job as a federal meat inspector. Vicki continued to reveal her talents as a published author and poet. During life came the children, George and John. George graduated from Oklahoma State in Stillwater, Ok with a degree in ag education, taught, worked for the Department of Youth Services and finally was able to care for cattle fulltime. A similar theme, like father like son.....George, met his wife

Crystal Gore in college. Crystal grew up on a farm in Southwest Oklahoma and attended Ok State as well, graduating with an animal science degree. John the second born son, although exposed to ranching and the hard work and rewards of it, chose to get a doctorate in Art History and teaches at the Clark University in Massachusetts. He has 2 beautiful teenage daughters Edith and Irene. They return home to their roots every summer to help Grandpa Norman and Grandma Vicki.

I do believe Norman & Vicki mentioned that Edith and Irene had some heifers that would be part of their college fund!

Tribute Con't.

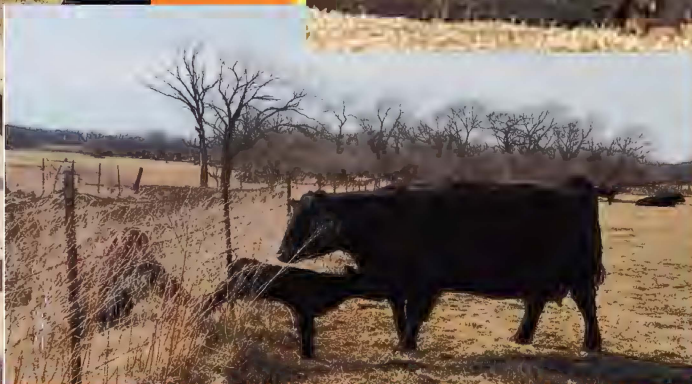

Norman and Vicki bought their first Angus cattle from the Ankeny and the Aristocrat ranches, well known reputable breeders from Colorado and Iowa respectively. They started with a few and now have many!

The Garton's are currently using embryo donor cows that are 12 to 14 years old, still producing eggs and having natural calves. The donor cows have genetics that trace back to Spur Ranch and Sydenstricker. The Garton's practice AI on both their spring and fall calving herds. Norman, Vicki, George and Crystal all do their share at the ranch. As we strolled through the cattle (on one of the rare sunshiney warm days this February) I remember most what a cohesive unit the Garton Ranch family is, the uniformity of the herd, the calmness of the cattle, and the pride that each Garton shows as they talk of their herd! I would get a story every now and then about Norman and Vicki's travels to far off lands with the World Angus Tours and from their many other journeys. Travel always meant for them making new friends and educating themselves in how beef enterprises in other areas worked. Norman never missed an opportunity to talk with a vet in a far off country as well!

Norman was on the Angus Association's Board of Directors, 2004-2010. Angus breeders voted him into the board position primarily for the cattle knowledge he has, the business sense that he practices to make the industry more viable and the marketing and negotiating skills he employees to put it all together. Thank you Norman for stretching your busy schedule to fill that position.

The Garton Angus Ranch became involved with the Angus Association using many of their available programs that enhance, collect and help drive informed genetic mating decisions. The Garton's have always been insistent on tracking the performance of their herd. In the beginning they enrolled in the AHIR program which tracks specific herd performance. Now they have gone one step beyond that program and have enrolled the whole herd in the Maternal Plus - reporting program which from the native eye is quite stringent and all telling. There are only 16 Angus ranchs in Missouri that are in the Maternal Plus program. Every cow on the farm is enrolled. The Angus Association with the Maternal Plus program identifies Pathfinder cows (designated on registration papers) that have had a minimum of 3 calves to determine regularity of calving and ability to produce superior calves for weaning weight year after year. You will find a group of these cows in lots 100-129 for your scrutiny. Take a look and catch Norman for questions, he does love to talk about cattle!
