Welcome

A few days ago, we were finishing up breeding soundness exams on the last of the bulls in the early summer test group. It's a pretty boring three-day ordeal for pretty much everyone but the bulls. It does take a lot of time, and I usually go to town at noon to pick the crew up something for lunch so they can spend less time eating and more time humiliating bulls. We usually alternate burgers and pizza, so that day was pizza day.

On the way to town I ordered from Caseys, so that when I got there the wait would be shorter and I would still have time to fill my "not so Yeti" cooler with drinks and ice and pick up a few chips to fulfill the boys' "vegetable" requirement for their noon meal. It took a little longer than usual to finish up the pizzas, so I had a little time to reflect on my investment in my vet crew's health and well-being. Now, we all know that Caseys probably isn't the most frugal use of your money when it comes to chips and drinks, but they make good pizza, and it was handy at the time.

I don't know if you have noticed (bet you have), but the media has spent a lot of time repeatedly inundating the airwaves with their concerns and condemnation of the price of beef and more specifically, hamburger. Here is the rub, since when did an eight-ounce bag of chips and a Dr. Pepper at \$8.24 become a better buy than a couple of pounds (on sale) or even one pound (high end ground chuck) of ground beef? An even bigger question is why the hell isn't the media focusing on that, instead of the part of the meal that is actually nutritionally superior and not highly processed? One thing is undeniable; you can absolutely live longer on a pound or two of hamburger than you can on a bag of chips and a bottle of soda.

We must also understand that a pound of hamburger is the product of an industry that represents less than one percent of the voting population, while the junk food industry is not such a politically insignificant target. I'm getting off my soap box, and on to the business at hand.

We have a really stout set of long yearling bulls with a ton of potential and curve bending genetics as well as a set of coming two-year-olds that have "herd bull" written all over them. As always, the bulls are up to date on their health protocol, all have current BSEs, all been efficiency tested, and all represent the top two thirds of the contemporary group that they were tested in. All the bulls in the older age group have been Trich tested. We cull bulls on performance, phenotype, and disposition and try to only present bulls that we would use ourselves.

We are always here to answer any questions you might have or direct you to the people that bred and own these bulls, who probably know more about them than we do. Videos of all the lots in the sale are, or shortly will be, available on our website. If we can help, give me a call.

See you sale day,

Kent, Kathy, Cole, Travis, Dirk, and the whole GSBT crew

General Info

ANNOUNCEMENTS MADE THE DAY OF THE SALE TAKE PRECEDENCE OVER THE PRINTED CATALOG.

Settlement:

All buyers must make settlement at the clerk's office. Cash, check, or credit/debit cards will be accepted for payment. If using a credit card, a 3% convenience fee will be charged. During settlement, let the clerks know if you are hauling your bull(s) home the day of the sale, or picking them up at the test station in a few days, or leaving them for a short period of time to develop or need delivery arrangements made.

EPD's / Data / Missing Info

EPD's change rapidly, so please check the appropriate breed association websites for the most current EPD's. In some instances, data might be missing for scrotal, pelvic and frame scores. The catalog went to be printed before the last round of breeding soundness measurements were taken. All corrections and missing data will be available sale day.

Bidding

Can be done in person at the auction or via the internet at www.LiveAuctions.TV. If you are unable to attend the sale and want to purchase bulls, **please call Kent at 417-448-7416** to assist in making your selections. Call prior to the sale to describe the type & breed of bull (bulls) you want and let him know your price range(s). You pay only the bid price, just as if you were bidding in person. Every effort will be made to purchase the bull (bulls) of your choice at your designated price or less. We will call you after the sale to confirm your purchase(s) and confirm your method of payment and plan of trucking or hauling. A hassle free buying experience.

Breeding Guarantee

All bulls selling in this sale have passed a thorough and stringent BSE (Breeding Soundness Evaluation) by Dr. Erik Andersen of 54 Vet Clinic, Nevada, Mo. Each bull selling has passed and is considered a satisfactory potential breeder. All bulls are guaranteed as breeding bulls through the first breeding season from the date of purchase. Please keep in mind that we expect the bull(s) to be managed with proper animal husbandry practices. They are young bulls and require some additional management compared to mature bulls. Proper management should include the following: 12-15 month old bulls at time of sale are utilized in a ratio of one bull to no more than 15 cows, and 16-20 month old bulls, one bull to no more than 20 cows. Furthermore, if these requirements are not adhered to or these bulls are placed in service or are housed until time of service with mature bulls then consignor of record at time of sale will not stand behind this breeding guarantee. If a problem does arise please contact GSBT, Kent Abele, 417-448-7416, who will in turn notify the owner of record at the time of sale. The problem will be evaluated & consultation with a veterinarian done if needed. If replacement is required, a bull of equal quality will be given. If a replacement bull is not available, a credit will be issued to be used in a future GSBT Bull Sale. Shipping an animal you feel is unsatisfactory before contacting GSBT will void the breeding guarantee.

Bull Development Program/ Maintenance after the Sale

GSBT will work with customers on delivery of bulls in an effort to have the bulls delivered to customers as soon as possible after the sale. However, if you are not ready for the bulls at this time, we will maintain & develop the bulls at the ranch for a period of time until you are ready for them. A nominal fee of \$4.00 per day will be charged plus any veterinarian charges incurred will be billed. Bulls will be maintained on a growing ration in grass traps. Bulls become the buyer's responsibility immediately after the sale. GSBT nor the owners thereof or the employees thereof are not responsible for insurance costs, death or injury.

Health Certificates

A health certificate will be provided at the time of settlement which will be sufficient for transporting the bull(s) going to states that require them and will also provide the results of the most recent breeding soundness exam. Buyers who wish to take cattle into states with specific and rigid health regulations should inquire about the health tests required by their state. All bulls sold are virgin bulls and/or have been tested for trichomonosis. All bulls are virgin bulls. Bulls over 18 months have been tested for trichomonosis, required by state of Missouri regulations. It is always sound herd management to test for breeding soundness and trichomonios prior to placing bulls with the females at the beginning of breeding season.

Registration Certificates

Certificates will be issued in the owners name. Let the settlement clerks know exactly what name you want to appear on the certificate and what address it should be mailed to. The consignor of the bull holds the responsibility of transferring ownership. Follow up with the consignor that you have purchased the bull from if you have any questions. Consignor names & contact information are listed in the front of the catalog and also with each Lot #.

Bred Heifers

Lot 87-91 SIM ANGUS & SIMMENTAL HEIFERS

Bred Heifers

Black and Brockle Faced

All pelvic measured, all bred in the second period, all vaccinations and deworming up to date.

These heifers are bred to a GSBT Red Angus that was a grandson of Bieber Driven C540 with a 15 CED and a 56 lb actual birth weight. Which made him in the top 2% of the breed for low birth weight. We have calved over 30 first calf commercial heifers out of him with no issues.

Owner: Lonnie and LeaAnn Peetz, Merry Meadows Simmental, 816-390-3436
