ABOUT AQUILA³

Aquila³, LLC is a Native American, Woman-Owned, Small Business which provides Engineering, Design, Installation, Commissioning and Maintenance of all Outdoor Wireless Solutions. Aquila³ specializes in Turn-Key Design/Build and On-going Maintenance for Mission-Critical Systems. Additional services include IT Services, Project Management, Government Relations, Public Affairs, Grant Writing, Strategic Management Consulting Services.

Aquila³ leverages over fifty (50) years of Industry Experience in addition to the Expertise of our various Client-Partners. Aquila³ exponentially combines the Industry Experience with Project Management, Technical, RF Engineering and Regulatory Compliance to support all aspects of a Telecommunication Project.

WIRELESS ECOSYSTEMS

Aquila³'s team has Wireless Systems installed in over twenty-eight (28) countries and on all seven (7) continents. Systems have been installed all over the United States; in Frigid Climates (Arctic Circle, Canada, the Andes, Finland, Sweden and the South Pole); Deserts (Morocco, Sub-Saharan Africa, Western Australia, the Atacama Desert, and the Sonoran Desert); and Jungles (Africa, South America, Indonesia, Madagascar and New Zealand).

Using a Custom-Written Proprietary Software, Aquila³ can provide benchmark records of broadband wireless performance with a comparative mapped performance after installation and commissioning.

A Wireless EcoSystem is a system-wide site design that incorporates all types of wireless under one-umbrella. The expensive backhaul is shared, systems using the same frequencies are engineered to prevent self-interference, and all systems are easily managed as a single system. This saves costs, decreases resources, and improves performance system-wide.

NAICS CODES

541618 Telecommunications Management Consulting (Primary)
517919 All Other Telecommunications
517911 Telecommunications Resellers
541690 Other Technical / Scientific Consulting Services
541330 Engineering Services

541511 Custom Computer Programming
541512 Computer System Design Services

334220 Broadband & Wireless Comm. Equipment
336214 Communications Trailers
237130 Power & Communications System Consultation
221114 Solar Electric Power
221115 Wind Power
221118 Other Electric Power Generation
332311 Prefabricated Communications Buildings

OTHER NAICS CODES:

Mining Support (Communications) - 213112, 213113, 213114, 213115
Strategic Management - 541611, 541613

PAST PERFORMANCE HIGHLIGHTS

- Osage Nation / Two RUS Rural Broadband Projects
- Wichita & Affiliated Tribes - 2.5 GHz Tribal Window Filing
- U.S. Army Corps of Engineers - SCADA Project
- Rural Highspeed Broadband System Design
- Audit - Existing Communications System
- Wireless Broadband Performance Testing
- FCC Filings & Audits; FAA Filings
- Grant Writing for Broadband Grants
- Engineering and Design / Build of Wireless Systems
- Maintenance and On-Going Support

WIRELESS OPTIONS

- Voice Radio - Public Safety, Wildfire, Maintenance
- Microwave - Licensed & Unlicensed
- Mesh Data Radio for Fleet Management
- SCADA and Wireless Telemetry
- Broadband Wireless - High Speed Internet
- Consulting and Optimization of Wireless Issues
- Remote Power: Solar, Wind, Fuel Cells & Generators
- FCC, FAA and Regulatory Filings
- FCC MPE (Maximum Permissible Exposure) Testing
- Middle-Mile and Last-Mile Design/Build for Broadband
- Professional Engineering Services available upon request
- Tower Construction Services available upon request

RAPID RESPONSE COMMUNICATIONS TRAILERS

- Custom-Designed for Disaster Response
- Interoperability among Multiple Agencies
- Power: Solar, Wind, Generators and/or Fuel Cells
- Size - Small Footprint to deploy in Rugged Terrain
- Wildfire Detection Systems Available
- International Deployments in 4 Continents
