Business Profile

ABOUT US:

Founded in 2011, STARK CALIBRATIONS LIMITED, is an Accredited Calibration Body based in Nashik, India. It sets out to be a leading Accredited Calibration Body that implements, checks Quality, retains Quality, inspects the faults or errors of the instruments of the companies in the field of Automobile, Agriculture, Mechanics, Management, Marketing, Accounting, Finance, and Data Processing.

OUR FOUNDER:

Mr. Ananda Baviskar , Owner, Director and Founder of our company, founded this company in 2011. He is a Dedicated and Aspiring Entrepreneur with a proven track record of success and extraordinary achievements in building the company from simple ideas to a huge enterprise. Experienced in all aspects of examining the compliance with the standard requirements but also by suggesting opportunities for improvement of the management system. STARK 's Team have people who worked as quality managers or consultants in the past – they are able to understand calibration from the qualitative point of view. It enables them to conduct calibration in correct and pragmatic way. STARK follows all requirements and obligations under international accreditation and carries business honestly and ethically, without the use of unfair practices. The 2018 Start-Up Entrepreneur of the Year Award winner possesses well-developed leadership/communication skills, excellent time management skills, and great teamwork abilities.

At Humble beginnings, our owner worked hard towards formulating the Vision, Mission, Goals, and Objectives, and hired new Employs and trained them efficiently. He can build and maintain a professional relationship with potential investors and partners and participation in all aspects of business development from market research and finance to operations and marketing, ensuring that the company's vision was followed.

The main Objective of STARK as described in memorandum of association is 'to carry on the business of providing calibration services relating to quality management system.

STARK CALIBRATIONS LIMITED is bound to spread awareness and acceptability of calibrating system amongst all types of organization at national and international level. It shall act impartially and in nondiscriminatory manner with an endeavor to improve its service continually.

STARK reviews the threats to impartiality arising out of its calibration activities and has control to manage the conflict of interest and maintain the objectivity of calibrating activity. Its policy also ensures impartiality at each level.

Our strategic objectives include maintaining integrity, ensuring commitment, result oriented approach and providing support to clients through value added services maintaining effective, prompt and courteous communication. The policies and procedures under which STARK Calibration operates shall be available to all clients irrespective of their size and affiliations.

Business Profile

WHY ONLY STARK?:

WHY CHOOSE US?

STARK has a quality management system that it requires from its clients. STARK's calibration services offers added value to the client not only by examining whether the client has satisfied the standard requirements of the instruments but also by suggesting strategies for improvement. STARK varies from other calibration bodies, especially by a sensible approach to calibration without priority on excessive paperwork. STARK's team has people who worked as quality managers or consultants in the past – they can comprehend calibration from the qualitative point of view. It enables them to execute it precisely and practically rather than based on theories.

STARK CALIBRATION follows all requirements and obligations under international accreditation and carries out business honestly and ethically, without the use of unjust conventions.

OUR MISSION:

Understanding and finding the solution to the strategic challenges through a customized approach and effective evaluation are the most important key features of STARK CALIBRATION. By concentrating on the association between your business goals and functioning we help you to reduce the risks, increase productivity and its quality, and increase the stakeholders' trust in your business by calibrating your devices precisely.
