

## February 2022 Lake 2 Lake Miata Club Newsletter Palatka Air & Car Show 2.12.22 / Doug J's Donuts & Chicken 2.14.22 By Nancy Ball

It was a double-header this weekend as Lake-2-Lake Miata Club members went both North and South in search of adventure. Saturday's gathering found us near Palatka for a major car and air show. Vintage automobiles always engage club members and there were many to admire on arrival. Though eyes were often drawn upward as multiple small planes circled the friendly skies. But wait - what is that? A bird? a plane? No...just one of many sky divers floating to land from dizzying heights. One club member decided to switch hit. Doug Formsma left his beautiful, special edition, burgundy Miata at home, choosing to fly in instead in the small plane he actually built himself. It was a hands-on gathering as he shared details on the plane and his experiences building it.

Monday was Valentine's Day and the perfect next food related adventure for a record-breaking number of Miatas on a drive South. The destination was a sleepy olde Florida town named Webster where an enchanting, family-owned business named "Doug J's Chicken and Doughnuts" drew us in. Oh my. Delicious! Club members enjoyed the feast and broke bread (actually home-made biscuits) with two new member couples: Steve and Kip Denison and Joseph and Ilona Wessling. Appetites appeased, (and hey - I saw those take-out boxes!), it was off to walk off the feast at Webster's famous - and LARGE - flea market. In summation, a good time was had by all.

Did you miss something? Keep an eye on our Website as there are many fine adventures ahead. (I already peeked. It will be a wonderful season for Miata lovers)!
