

# TRANSFORM *your* OUTDOORS

**UNILOCK®**

2026

## The Original, and still the Best

**Family owned and operated** for more than 50 years, Unilock has earned a reputation for leadership. From our humble UNI-Stone® that first kickstarted the outdoor living revolution in North America, through to every major technical or design innovation since then, Unilock has been on the leading edge, transforming hardscapes.

In doing so, we have relentlessly sought to improve the quality of life for everyday families like yours and the skilled craftspeople who design and build outdoor living spaces, building an eco-system centered on people and relationships. Impractical design and marketing doublespeak are not in our wheelhouse. Instead, we are squarely focused on you, our customer, and the way our products can transform the life you choose to build upon them.

Is it a new backyard retreat you're dreaming of? Or a stunning driveway and front entrance? No project is too big or too small to consider our endless canvas of paver and wall materials. And when you're ready, we're here to help turn your dream into reality with project planning tools and contractors you can trust to do the job right. Unilock is here to help.

So where can you see possibilities, and how can we help you build them?

**UNILOCK®** TRANSFORMING **HARDSCAPES**

Small Upgrade, Big Difference

## ENDURACOLOR™

Traditional pavers can appear to fade over time as the surface wears to reveal large, lighter-colored structural aggregates.

EnduraColor products are different. Concentrated color and wear-resistant materials are used to produce a refined, color-dense surface that lasts.

### EasyClean™

Integral Stain Resistance

- + Reduced dirt absorption +
- + Enhanced wear resistance +

Save time and money over after-market sealing with factory sealed EasyClean

 *Look for the seal on select products.*

## ELEGANCE

From the timeworn look of European cobblestones, to the classic luxury of riven slabs, our Elegance collection offers styles you can't get anywhere else. Deep, rich colors and unique textures combine to deliver timeless beauty that is built to last.

# Your family will enjoy a well-installed project for decades.

---

## **Choose the Products you Love**

Whether your project is big or small, the investment is significant. Most of this cost, up to 80%, comes from installation and lies below the surface in excavation, base materials, equipment and labor. So when it comes to the pavers and walls everyone will see, don't compromise.

## **Don't Settle for Less**

Unilock products offer styles, textures and features you won't find anywhere else. Since materials make up only about 20% of your total project cost, don't settle for second-best. Invest in the look you love, with high quality Unilock products.

dream

*Umbriano® with Town Hall® accents*

Imagine an outdoor space where the inspired use of patterns, textures and shapes not only creates design-envy, but elevates your world in the most beautifully functional way.

# Driveways

---

Nothing speaks to pride of ownership more, than a Unilock paver driveway. Enhance the curb appeal of your home with products designed to stand the test of time.

## COURTSTONE®

The ultimate driveway product, Courtstone, is part of our premium, Elegance collection. Modelled after timeworn European cobblestones, this look will stand the test of time.

### TRIBECA COBBLE™

Granite, marble and quartz particles on the surface of Tribeca Cobble offer everlasting beauty, while dimensional accuracy gives it a clear advantage over imported granite cobblestones.

*Beacon Hill*

### Design Considerations

Ensure your driveway is wide enough for guests to make their way around parked cars.

Driveway  
Design Tips

Town Hall pavers in a herringbone pattern deliver a warm welcome with timeless appeal.

# Entrances

---

Welcome family and friends to your home with smartly designed front entrances and walkways featuring Unilock pavers and walls.

*U-Cara*

## U-CARA® MULTI-FACE WALL SYSTEM

Wisely placed vertical features can lend a cozy feel and provide a base for layered softscaping. U-Cara is a highly versatile wall system with a variety of options that coordinate beautifully with Unilock paver colors and finishes.

This front entrance project combines a single color of Umbriano in a variety of shapes and laying patterns, with dark Copthorne accent bands.

*Umbriano*

### COPTHORNE®

Inspired by the enduring charm of European street pavers, Copthorne offers classic beauty.

Lush hydrangea fill Rivercrest planter boxes to frame the entrance of this stately home.

**Pavers:** Copthorne® (Basalt) with Brussels Block® (Sandstone) accent

**Garden Wall and Steps:** Rivercrest® Wall (Buff) with Ledgerstone™ Coping (Buff)

# Pool Decks

---

It's the best part of your summer lifestyle, where kids congregate and sun-soaked days end with relaxed evenings. Make a splash around your pool, with Unilock pavers and walls.

Beacon Hill Slab

## BEACON HILL™

Our wildly popular Beacon Hill Flagstone paver is also available in a smooth, modern texture. This large format slab strikes a relaxed, contemporary vibe.

## UMBRIANO® COLLECTION

This collection covers all the bases, with U-Cara® wall panels for retaining walls and other vertical features, matching coping and a range of paver sizes to choose from.

Sleek, granite-like Umbriano pavers on this ultra-modern pool deck are cool and comfortable underfoot on hot, sunny days. A soothing U-Cara water feature adds to the ambiance.

**Pavers:** Umbriano® with Umbriano coping (Grenada White)

# Outdoor Living

---

Explore the possibilities to expand your home's square footage by bringing the inside out, with outdoor kitchens, dining areas and living rooms.

*Umbriano® pavers with U-Cara® Grill Island*

## Design Considerations

If entertaining large groups is your goal, be sure to plan ample space for comfortable seating.

# Retaining Walls

---

Make the most out of your sloped yard by creating level areas and more useable square footage with a stylish retaining wall.

## Design Considerations

Carve into a hill to create a cozy nook, or locate your living space at the top of a slope with an elevated patio.

*U-Cara®*

There are always new heights to reach! These angular, terraced retaining walls create multiple levels for softscape planting and an intimate outdoor gathering space.

**Pavers:** Beacon Hill™ Smooth (Granite Fusion) with Mattoni™ (Granite Fusion, Sable Blend and Dark Charcoal) accents and paver rug

**Retaining Wall:** SienaEdge™ (Granite)

**Fire pit:** U-Cara® Pitched (Granite Fusion) with Natural Stone (Stone Cliff Grey) coping

# Modern

---

Whether it's a sleek, monochromatic look, or pixelated geometrics, Unilock products are your design playground.

Series™

## SORENO™

Surefooted and elegant, a fine stone structure and thermal texture highlights the natural character in every slab of Soreno.

## ARCANA™

These large format slabs have a silky, matte texture and speckled color palette, that is on-trend for patios, pool surrounds, roof decks and more.

Contrasting Arcana squares, Umbriano hexagons, and Mattoni rectangles define the outdoor kitchen, dining and seating areas in this modestly sized project.

**Pavers:** Arcana™ (Modena) with Mattoni™ (Dark Charcoal) banding and Umbriano® Hex (Winter Marvel) accent areas

**Grill Island:** U-Cara™ Smooth (Dark Charcoal)

# Timeless

---

Some properties call for the classic beauty of a timeworn patina. These are a few of our most popular products, to complement historic architecture or provide design-forward contrast to modern structures.

## TOWN HALL®

Modeled after iconic North American clay pavers, Town Hall brings historic charm to traditional and permeable landscapes. Deep, rich colors and a range of authentic textures combine to deliver classic beauty and exceptional strength.

### BRUSSELS BLOCK®

This tumbled paver transformed the industry when it was first introduced in 1993. While competitors have sought to replicate it, our mechanical tumbling process still delivers the most natural timeworn look.

### RIVERCREST® WALL

Just because a retaining wall has an important job to do, doesn't mean it can't be beautiful! Rivercrest Wall has all the charm of a decades-old natural stone.

The outdoor television mounted on a Brussels Dimensional Stone wall is a striking centerpiece for alfresco viewing.

**Pavers:** Bristol Valley® (Fossil) with Copthorne® (Basalt) accents

**Vertical Features:**  
Brussels Dimensional Stone® (Sierra) with  
Ledgestone™ (Buff) coping  
and pillar caps

**BEFORE**

## Before & After The Power of Transformation

"The end result exceeds every expectation—it's beautiful, comfortable, and filled with laughter every time our grandkids are here."

*Marsha*

For more than four decades, Marsha and Robert have lovingly invested in their Mount Vernon, Ohio home—a cherished family treasure that has witnessed countless milestones. While the house itself exuded warmth and character, for years, the backyard was a blank canvas of grass waiting for purpose.

With their growing family and a house full of grandkids, they dreamed of transforming the space into a place where memories could be made, and laughter could echo for generations. Today, their vision has come to life beautifully.

The new backyard patio, crafted with elegant Arcana™ pavers is an inviting retreat featuring an outdoor kitchen, dining and sitting areas, and a tranquil water fountain. The outdoor kitchen and surrounding walls, built in Lineo® Dimensional Stone, bring a clean, modern style that complements the natural landscape.

What was once a patch of grass has become the heart of family life—a welcoming outdoor living space where Marsha and Robert's love of home and family continues to flourish.

BCL Landscaping

# Feature Project

**UNILOCK**  
AWARDS OF  
**EXCELLENCE**

The owners of this Nebraska property wanted to transform their basic concrete patio and pool deck into a showstopping outdoor space worthy of their view of the Elkhorn Valley. Brady Corbett, of BCL Landscaping was up for the challenge.

He began with a 3D design, using Unilock Uvision® software. This tool allowed him to experiment with a number of arrangements of a pickleball court, putting green, and artificial turf, in addition to an expansive multilevel outdoor living patio and pool surround.

Together with the homeowners, they explored a number of different paver shapes and wall options in a variety of laying patterns to help define cooking, dining and lounge areas. The result is a stunning backyard that strikes a perfect balance between recreation and relaxation.

# The Choice of Design Professionals

# Natural Stone

---

Selected based on its low water absorption, freeze-thaw durability and flexural strength, Natural Stone from Unilock is precisely cut, calibrated and finished with enhanced surface treatments. With a wide selection of pedestrian slabs (page 92), coping and steps (page 142), these products are beautiful alone, or in combination with other Unilock products.

## HEAT DAMAGE PREVENTION

To ensure a long-lasting fire feature, direct exposure to extreme heat from an open flame should be avoided. Always construct fire features with a protective heat barrier such as a metal insert, refractory blocks or approved firebrick to prevent potential heat damage.

**NOTE:** Large fires and extreme heat are detrimental to concrete.

## RIVERCREST® FIRE PIT

Stacked flagstone has been used for centuries for small garden walls and pillars. With Rivercrest Wall, you get the character and flexibility of natural stone combined with the durability and affordability of concrete. **Insert and accessories sold separately.**

Nothing ventured, nothing gained! Transform your hardscape ideas into bold, thrilling reality with the right help, knowledge and preparation. Unilock has the experts, the plans and the tools you need to succeed!

# Finding the right Contractor

Even the best materials can be spoiled by subpar installation and craftsmanship, which is why choosing the right contractor for the job is the most crucial decision of all for your project. The cheapest quote is rarely the best option, so make sure to ask the right questions.

## Look Beyond the Surface

**Your project's long-term performance relies on the quality of work that is done below the surface.** The depth of excavation, type of base material and methods of installation are critically important.

# Selecting a **Surface**

---

# Unilock Finishes

## SMOOTH FINISH

Sometimes, simple is best. A smooth surface suits contemporary styles and is available in a wide variety of shapes for paving and verticals.

## FLAGSTONE FINISH

Popular for centuries, a flagstone finish never fails to add warmth to outdoor spaces.

## ANTIQUED FINISH

A variety of methods are used to achieve this distressed finish, but in every case, it lends a relaxed, rustic vibe.

## TIMEWORN

Our exclusive Elegance line offers the look of centuries-old cobblestone, brick, and natural stone with unsurpassed product durability.

## BRUSHED FINISH

Only Unilock offers Il Campo®, a unique surface enhanced with graphically interesting etched lines. This finish has long been a favorite of commercial designers.

## UMBRIANO

Umbriano is an exclusive finish only available from Unilock with color and granite particles that are randomly dispersed to achieve a unique mottled surface that is reminiscent of granite.

## EXPOSED GRANITE

Granite, Quartz and Marble particles are embedded in the product's surface and then revealed using additional processing methods.

## ENHANCED SURFACE

The surface of these products is enhanced using a special process to reveal a variety of distinctive colors and textures.

# Playing with Pattern

From traditional squares, to modern planks, geometrics and timeworn historic shapes, the choices are many. Beyond the shape of the paver itself, there are a variety of laying patterns to consider, from herringbone to basketweave.

## Borders and Banding

Use a change in paver shape, pattern or color to bring visual depth to the edges of your project, highlight special features or to create definition between different outdoor 'rooms'.

### JOINT MATERIAL

Joint material plays an important role between pavers by keeping out weeds and other debris. However, the color you choose can also dramatically impact the look of your project. Your contractor can help you decide what will work best.

# Building with **U-Cara®**

Our patented U-Cara Multi-Face Wall System has revolutionized the construction of hardscape verticals. This comprehensive system offers more variety in colors, textures, patterns and project applications than any other wall system on the market today.

U-Cara  
Installation Guide

### SURETRACK BACKER BLOCKS

SureTrack Backer Blocks are the structural backbone of a U-Cara retaining wall, garden wall, planter box or seat wall project.

### WALL MOUNT SYSTEM

Using the U-Cara Wall Mount System, you can attach U-Cara fascia panels to new or existing vertical structures to create a seamless design.

### MODULAR SYSTEM

These aluminum frames come in a variety of configurations and can be used alone or in combination with one another to efficiently build grill islands, fire features and pillars.

# Paving a **greener** way

In 2021, we announced our commitment to becoming a carbon neutral company. With initiatives to minimize our use of fossil fuels, conserve water and replace cement in our products, we're making steady progress towards this goal.

Our EcoTerra technology is revolutionizing the industry, offering a more sustainable paving solution with its cement-free face-mix. These pavers offer high compressive strength, low absorption and remarkable colorfastness, while contributing up to a 15% reduction in carbon dioxide emissions.

# Permeable Pavements

In recent years, increased storm events and residential flooding have motivated more and more homeowners to install permeable pavers. In addition to decreasing the risk of flooding, permeable pavements offer many additional benefits. When water is redirected into the subsoil, it is naturally filtered and can nourish surrounding plant life. As well, decreased puddling will reduce ice buildup in winter.

*Special materials are used in the joints and in the permeable base below, to encourage water to flow through.*

At first glance, permeable pavers look similar to traditional pavers. The difference lies in the width of the joint between units, the material used to fill the joints, and the base material on which the pavers are installed.

Wider joints, permeable joint material and an open graded base design all work together to direct water through the surface and into the subsoil below, instead of flowing off the surface and into overburdened storm sewer systems.

While all segmental paving can be permeable to some degree, look for this symbol to identify Unilock products that offer the widest joints for exceptional flow-through
