Modern Nurse Fest was the best nursing conference I've been to. The material was new and fresh. It was refreshing to learn ways to support nurses not just what we can learn to increase our knowledge for patient care.

We were proud to support our nurse community at Modern Nurse Fest! Nurses are often the first compassionate point of contact in someone's healing journey — your empathy and care can change a life. Thank you for all you do.

Anchorage Recovery Center is committed to healing and changing the statistics! We were grateful to share resources to help anyone struggling with substance use or mental health concerns.

Our team really enjoyed this event, as we thought it catered to RNs, and really focused on positivity and wellness.

I like that there were so many speakers, and many different vendors!

We enjoyed talking to nurses, and anyone who wanted to know about us.

We look forward to participating in the future!

This is exactly what nurses need 🙌 A space that's not about more lectures, but about connection, healing, and community.

Conferences for nurses, not just about patients, is such a powerful shift. We just experienced Modern Nurse Fest in Alaska and were so grateful to be a part of it—it was truly amazing!

Emily Knife RN MSN and **Jen Crow BSN, RN** can't wait to see the energy you create as it expands to the lower 48. Nurses everywhere are ready for this movement 💖

Jen the conference was amazing and so different from any other nursing conference I've attended. I feel inspired, renewed, understood, and refreshed. You have created something very special!!
