Game on! Movie night, show starts 6:30

10/31/24

1) Movie Night: Yep!!! All the equipment checked out and we are going to see “Coral Reef Adventure” A McGillvray production that my friend Howard Hall filmed and I was one of the rebreather film crew.

45 minutes long so quite likely, we might have a second feature along the same lines if people want and the temperature is still comfortable enough!

Lets start the film around 6:30 (Friday), We will have some tables and the usual stuff set up so there is room for drinks to share, plates and such if you did want to share

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

Come down to the gate by the equipment shed on the stairs bottom of Sunset. Gate should be open around 5:30 if you want to get a bit of visiting in.

2) A more newsy newsletter: in a few days

3) Vivian's cat: DID show up after a few days!!!!!!! (WHEW!!!!) but be careful with your small animals, a small pack of coyotes was seen in daylight around the bridge and up Solana...

That's all for now!!
