### Physiotherapist Required – But Not Just Any Physiotherapist!!!

Are you a Physiotherapist **FRUSTRATED** by your lack of career progression and training?

Have you always wanted to work in Private Practice but were **not sure** where to start?

Do you want to learn the business of health care as well as how to be a great clinical therapist?

Would you love the **security** of regular income with the opportunity to earn great bonuses and performance rewards?

If this sounds like **YOU** – then you may be the motivated, enthusiastic Physiotherapist we are looking for.

Active Physiotherapy Solutions is currently looking for a dedicated, energetic Physiotherapist with good communication skills, strong time management skills, and excellent interpersonal skills to join our unique **Private Practice Mentor Program**. This program includes weekly sessions with physiotherapists with over 50 years of combined experience and an opportunity for you to fast track your career and improve your clinical skills.

We have employment options available to suit your availability, including full time, part time, or part time transitioning to full time.

With over 20 years of private practice experience, we have faced every issue that any individual will face in the business of Physiotherapy Private Practice, and with that, the methods and secrets to overcome and improve as a Physio. We know what works and what doesn't in the clinical setting – and we want to share this hard-earned knowledge with all Active Physiotherapy team members.

Our amazing team enjoys a dynamic clinical environment, with experienced professional and administrative support staff. We have developed a strong referral base with local Orthopaedic surgeons and have a fantastic reputation in the community. We are associated with the local sports community, covering numerous events and providing services to the Woodstock Navy Vets Hockey Club, minor hockey and soccer teams and local golf clubs.

What do you get when you are part of our fast-track **Private Practice Mentor Program**?

- The security of a **full-time hourly position** with the opportunity to earn extra bonuses and rewards for great performance.
- Comprehensive weekly CPD Mentoring program to **enhance your clinical and business skills**.
- The opportunity to work alongside and shadow veteran Physiotherapists who can show you the **best and most up to date treatment options** to get your clients the best possible results.
- The opportunity to work and grow in a long established, **thriving** private practice.
- Unique access to our online technical education portal “Physio Professor” where you receive **24 hour access** to some of the world’s leading Physiotherapy educators.

It is also important we describe who we DO NOT want to join our team – so:

DO NOT APPLY if:

- You think you have reached your peak and have nothing left to learn.
- You are not willing to try new things and be open to different ways of treating and staying in touch with your valuable clients.
- You are not hard working, willing to learn new skills or able to adapt current ways of thinking and working

Honesty and reliability should be a given.

If the above proposition excites you, fills you with enthusiasm and sets your mind working with questions, the 1<sup>st</sup> step is to email your resume to [woodstock@activephysiosolutions.com](mailto:woodstock@activephysiosolutions.com) where we would be pleased to hear from you

Act now, don't let this opportunity pass you by as applications for the Active Physiotherapy Private Practice Mentor Program close on Sept 30, 2019 and we have a limited number of positions available in the program.

Please visit our website at [www.activephysiosolutions.com](http://www.activephysiosolutions.com)

I hope to hear from you soon

Jonathan Jenney

Director – Active Physiotherapy Solutions
