Physiotherapist Required – But Not Just Any Physiotherapist!!!

Are you an experienced Physiotherapist **looking for a change?**

Are you a Physiotherapist **with the heart of a teacher?**

Are you at a point in your career that you feel you have **strong clinical skills** and experience as a physiotherapist and **want to give back?**

Do you have the **passion and the experience to teach**, educate and mentor less seasoned therapists or new graduates?

Are you looking for a fantastic opportunity in a small-town environment where the cost of living is 25% less than in the big cities?

If this sounds like **YOU** – then you may be the motivated, enthusiastic Physiotherapist we are looking for.

Woodstock Physiotherapy Clinic is currently looking for a dedicated, energetic Physiotherapist with good communication skills, strong teaching and mentoring skills, and excellent interpersonal skills to join our unique **Private Practice Mentor Program**. We have employment options available to suit your availability, including full time, part time, or part time transitioning to full time.

You may be thinking – “How is it possible to be an inspiring mentor/educator while providing physiotherapy care to the high standard you deliver?” – a fair question.

Well – with over 20 years in the physiotherapy field, we would like the opportunity to give back to new and training physiotherapists. Our vision is to create a **Private Practice Mentor program**. As the therapist involved in this program, you would continue to treat clients, but have additional time allotted to work with new grads as well as students. You would have an opportunity to share your clinical knowledge and to change your current career for the better.

Our amazing team enjoys a dynamic clinical environment, with experienced professional and administrative support staff. We have developed a strong referral base with local Orthopaedic surgeons and have a fantastic reputation in the community. We are associated with the local sports community, covering numerous events, and providing services to the Woodstock Navy Vets Hockey Club, minor hockey and soccer teams, and local golf clubs

What do you get when you are part of our Private **Practice Mentor Program**?

- The opportunity to be a teacher, a mentor and to help develop our **Private Practice Mentor Program**.
- The security of a **full-time position** with the opportunity to earn extra bonuses and rewards for great performance.
- The opportunity to work and grow in a long established, **thriving** private practice.
- Unique access to our online technical education portal “Physio Professor” where you receive **24 hour access** to some of the world’s leading Physiotherapy educators.

It is also important we describe who we DO NOT want to join our team – so:

DO NOT APPLY if:

- You think you have reached your peak and have nothing left to learn.
- You are not willing to try new things and be open to different ways of treating and staying in touch with your valuable clients.
- You are not hard working, willing to learn new skills or able to adapt current ways of thinking and working

Honesty and reliability should be a given.

If the above proposition excites you, fills you with enthusiasm and sets your mind working with questions, the first step is to email your resume to info@woodstockphysiotherapy.com where we would be pleased to hear from you

Act now, don't let this opportunity pass you by. The application process for the Woodstock Physiotherapy Clinic Private Practice Mentor Program closes on Sept 30, 2019.

Qualifications

- Masters or Bachelor's Degree in Physical Therapy
- Evidence of the ongoing quest for learning and evidence-based practice
- Several years of clinical experience and a passion for teaching/mentoring others
- Previous mentoring or teaching experience an asset
- Evidence of an understanding of the business practices of private practice physiotherapy
- Evidence of flexibility, adaptability, and team player skills
