Bathroom Trends for 2021

BATHROOM TRENDS

2021

A BEAUTIFULLY DESIGNED BATHROOM IS A THING OF REAL BEAUTY, AND WE ARE ALL IN NEED OF THAT SMART, LUXURIOUS BATHROOM RETREAT RIGHT NOW – SOMEWHERE TRANQUIL, AND PEACEFUL TO RELAX AND UNWIND. NOW IS THE TIME TO EMBRACE FUNCTIONALITY BUT UNDERPINNED WITH FORM, ACCENTS AND FORWARD-THINKING DESIGN TO CREATE A 'SPA-THROOM' LUXURY SANCTUARY.

To help you *insideKENT* in conjunction with Kent's bathroom experts have all the inspiration you need to elevate your most used room with the top bathroom trends for 2021.

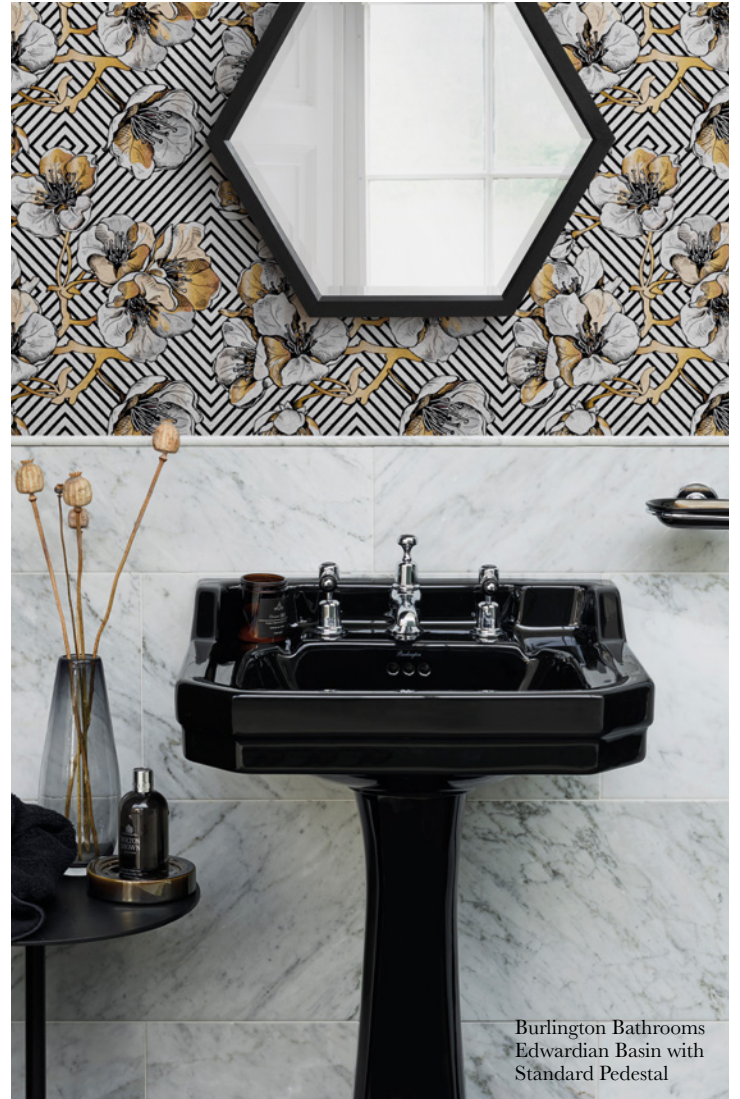

"As well as being used for plumbing fixtures, hardware and other quick updates, black accents are making a striking comeback. Recently, we have seen more impactful additions to client's homes, including black bathtubs, vanity units and tiling. When used in contrast to accessories with opulent finishes such as brass or gold, the dramatic shade can contribute to creating a stunning aesthetic."

BLACK ACCENTS

Black is everywhere right now in interiors and bathrooms certainly aren't exempt. Whether its fixtures and fittings, moodier paint palettes, tiles, or all black everything, even in the most minimal of spaces, adding black will infuse style and glamour, and it doesn't have to be in your face. Combine matte black fixtures with white tiles or stone to achieve that 'hotel luxe' feel – contrast in the bathroom will instantly give that wow-factor! Going all black however needn't be as dramatic as it may sound. Work with textures – stone tiles, matte black, gloss, mosaic, combine textural elements to add dimension and depth to a space. For smaller spaces, choose a statement black bath or sink to take centre stage, there are loads of designs available to suit all themes and styles. Or simply, stick to accessories, mirrors, towels, soap dispensers or art work – do it right, and your bathroom will ooze elegance!

"For a subtle approach, add in a grid glass shower door, swap out old handles in exchange for sleek and contemporary replacements and introduce wall mounted shelves for additional storage."
