

illustration **PROMPT**

Patrick Kelly was a Paris-based American designer, known for his use of multi-colored and monochromatic buttons on his garments. He intentionally arranged them in both geometric and abstract patterns as a nod to his grandmother.

In 1987, Kelly arranged gold buttons, in his signature heart shape, on a long sleeved black mini-dress. The look was originally shown as a part of his Fall/Winter 1987-88 collection, and was known as a “money dress,” according to Kelly biographer Eric Darnell Pritchard.

Use the croquis on the next page to illustrate your interpretation of the dress. For reference, music mogul Beyoncé wore recently wore the vintage dress to the birthday party for her friend, musician and actress, Kelly Rowland.
